The Sims 3 Primer

Introduction

Before jetsetting off into the horizon to undertake a World Adventure, you need to make sure your affairs back home are in order.

As thrilling as it is to see new lands and explore underground cities, there is plenty of excitement to be had back in Sunset Valley or Riverview.

Plus, understanding how to get the most out of your Sims' regular lives in *The Sims 3* is important in order to get the most out of *World Adventures* .

So, before you book that ticket for Egypt, France, or China, let us take you through all the essentials of *The Sims 3* such as how to create a Sim, how to develop skills and careers, and how to manage your many relationships with the fellow citizens of your selected hometown.

The Sims 3 Prima

What's New In The Sims 3

Is this your first time diving into *The Sims 3*? If you are entirely new to the bestselling series of games (well over 100 million Sims games have been sold around the world), then everything in *The Sims 3* is brand new.

But if you are just checking into the game after experiencing *The Sims* or *The Sims 2*, then you will be surprised at how much the game has changed.

Yes, you are still in control of your Sims as they embark on individual narratives created from the house they build, the relationships you forge, and the dreams you pursue.

However, *The Sims 3* gives you even greater control over your Sims' destinies—even though life does tend to hurt a curveball on them while you play. There are more enhanced options for creating new Sims—both on the inside and outside.

A new mood system uses hundreds of little moodlets to help you steer Sims toward happiness whenever possible by letting you know exactly what the Sim is feeling at that exact second. New social interactions help you guide matters of the heart.

And finally, a new Lifetime Wish system gives your Sims overarching dreams to achieve, giving their lives a sense of structure.

This is not to say that everything you do with your Sims has to be in pursuit of this big dream. No contrast says you must be 100 percent benevolent. No enforcement requires you from charting a new course.

The whole point of the changes in *The Sims 3* is that you have a new level of interaction and control to make your game experience—the life experiences of your Sims—as unique as a snowflake.

Create a Sim

If you have already played a *The Sims* game, then you are familiar with Create a Sim, the toolbox that allows you to conjure up brand new Sims either from scratch or by modifying a selection of pre-made Sims.

In *The Sims 3*, Create a Sim is boosted with an even more powerful set of visual enhancements and improvements.

Sims now look more real than ever and you have an unparalleled set of options for giving them faces and features just as individual as the people you see walking down the street.

There are not just hundreds of eyes, ears, and noses to choose from. You can also modify cheekbones, eye shapes, height, weight, muscle mass, and those invisible curves that make us human in the shadow of near-unattainable perfection.

But in addition to all of the cosmetic surgery you can perform on your Sims, the Create a Sim mode lets you build an entire personality out of an advanced selection of traits. Traits include everything from Great Kisser to Green Thumb, from Bookworm to No Sense of Humor.

With more than 60 different traits to select from (and even more if you include the new personality traits added to the Create a Sim tool whose initial World Adventures), you have the means to craft a robust personality.

Depending on the age of the Sim you create, you can have up to five traits.

These traits are responsible for more than just a general personality. Traits affect the lifelong goals of your Sim, the way certain skills are developed, and even mood swings.

(The Over-Emotional trait lets your Sim feel true highs...but also some crushing lows.) For example, a Sim with the Green Thumb trait will be a better gardener out of the gate than a Sim without the trait.

A Natural Cook Sim will have a predilection for cooking and excel at the Culinary career.

Building and Buying

The outward appearance of your Sims and their individual personalities are not the only way to express yourself in *The Sims 3*. You can show off your sense of style with the home you build for your Sims.

You can either move your Sim into a pre-built (and even pre-furnished) house, or build a house from the foundation up with the revised Build Mode toolkit.

When you initially move in, your options are only limited by the number of Simoleons in your pocket, but as you bank more and more cash, that inner architect can really blossom.

It's not just where and how you put up those four walls that completes your Sim's house. There are hundreds of objects to fill the house with, from couches to computers.

Sims cannot live without certain objects, such as a toilet or shower. But other objects, such as an easel, telescope, television, or globe are optional.

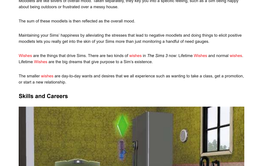
We're taught that material things do not always equal happiness, but the arrival of new stuff in a Sim's house typically results in a smile.

Many objects are important for developing skills that give your Sims extra definition. In the case of the weight set, that definition comes with increased muscle via development of the Athletic skill. The arrival of a guitar allows your Sim to practice the Guitar skill.

Moodlets, Needs, and Wishes

The Sims 3 introduces a whole new way to get a snapshot of what your Sims are thinking and feeling. The new mood system encapsulates the entire need system from previous Sims games.

Instead of constantly watching over individual needs, your Sim now expresses needs through moodlets.



Moodlets are like slivers of overall mood. Taken separately, they key you into a specific feeling, such as a Sim being happy about being outdoors or frustrated over a messy house.

The sum of these moodlets is then reflected as the overall mood.

Maintaining your Sims' happiness by alleviating the stresses that lead to negative moodlets and doing things to elicit positive moodlets lets you really get into the skin of your Sims more than just monitoring a handful of need gauges.

Wishes are the things that drive Sims. There are two kinds of wishes in *The Sims 3* now: Lifetime Wishes and normal wishes. Lifetime Wishes are the big dreams that give purpose to a Sim's existence.

The smaller wishes are day-to-day wants and desires that we all experience such as wanting to take a class, get a promotion, or start a new relationship.

Skills and Careers

Wishes, traits, moods—that's a lot of different ways to define a Sim, right? But wait, there's more. Your Sims can embark on rewarding careers in many different fields, such as science, music, politics, and even crime.

Careers are not just the means for earning Simoleons; they are also a good way to meet other Sims, close in on a Lifetime Wish, and also give direction to skill-building.

Sims love to develop skills. There are many skills in *The Sims 3* , including Athletics, Charisma, Writing, and Cooking.

As skills are learned and developed, they not only help out with certain careers, but they also give Sims even more ways to express themselves and fill their days.

The Gardening skill, for example, lets Sims grow harvestables that they can sell to the supermarket for Simoleons.

And if Sims get really good at Gardening, they can even start growing special harvestables that have wonderful properties, such as the Money Tree and Flame Fruit.

Skills and careers also present your Sim with opportunities. Opportunities are special offers and challenges that can help your Sim with work, skill-building, social interactions, and even the of bank account.

Your Sims will encounter dozens upon dozens of different opportunities throughout their lives. You are not required to undertake every opportunity, but the rewards of completing as many as possible make the effort worth the time spent.

Social Life

There is a whole lot of living to do between the house and the work site. The cities your Sims live in—either Sunset Valley or Riverview—are not empty places. Each city is alive with other Sims, each on their own personal trajectories.

How you bump into and interact with these other Sims changes not only your own narrative, but also the course of these other lives.

To get the most out of *The Sims 3* , do not just keep your Sim holed up at home with a book, leaving only to hustle down to the bistro or science facility for their shift. Get out there and mingle. Meet strangers and turn them into friends.

Maybe one of those friends will end up being the love of your Sim's life. Maybe she will be a bitter rival. That's right—you will not win every Sim out there, not even if you max out the Charisma skill and use schmooze with the best of them. But that's life.

Show the World

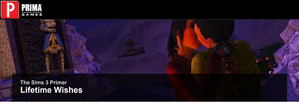
What would be the point of giving you all of these new ways of interacting with your Sims and creating amazing narratives without offering the means to share these stories?

The Sims 3 includes a full set of tools for capturing screenshots and video so you can construct movies and slideshows of your Sims.

Share these stories with *The Sims 3* community, right from your game. You can also share custom content, such as clothing and furniture patterns created with the different tool sets.

And when you spot objects, patterns, clothes, and other good stuff online at The Sim Exchange (the central location for all of the things you can upload and download—all right from The Game Launcher), you can import it into your game and further customize your Sims and their experiences.

What stories will you share with the world?



The Sims 3 Primer

Lifetime Wishes

At the very end of the Create a Sim process, you select a *Lifetime Wish* for your new Sim. This wish is the Sim's main goal in life—it is the dream that ultimately defines them. While you do not necessarily have to play the game strictly to satisfy these wishes, they do give you some structure.

Plus, fulfilling a lifetime Wish rewards your Sim with Lifetime Happiness points—a lot of them. Lifetime Happiness points are a currency that your Sim banks when you help them satisfy smaller wishes or maintain high spirits.

While you can amass a lot of Lifetime Happiness points by fulfilling the day-to-day wishes and making sure your Sim is consistently happy, there is no bigger payout than the Lifetime Wish.

Note

Look for more information about day-to-day wishes and Lifetime Happiness points in the "A Day in the Life" section of this chapter.

Lifetime Wishes

Become a Creature-Robot Cross Breeder

Reach Level 9 in the Science Career

The complexity of circuitry and oddity of organs perennially perplex the scientific community. Your Sim must have excellent Handiness expertise and enough experience with gardening and fishing to know what organic beings need to thrive when fused with machines.

Become a Grand Master in Chess

Chess Legend

Master the Logic Skill

Logic is cold and calculated, and chess is the battleground for those who adhere to it. A Sim who can master the path of logic and reach the coveted rank of Chess Grand Master will forever be enshrined in memory.

Become a Master Thief

Reach Level 10 in the Criminal Career (Thief branch)

Lightning quick reflexes (honed at the gym of course) and impeccable teamwork will take your Sim far, but only the most cat-like thieves reach the rank of Master Thief. The path begins with the local crime organization and leads to pilfering the world's jewels!

Become a Superstar Athlete

Reach Level 9 of the Athletic Career

Earning a championship jersey means developing the utmost athletic perfection and a tight bond with teammates, thus fostering victory even when the game seems lost.

Become an Astronaut

Become an Astronaut in the Military Career

Reach Level 10 in the Military Career

Astronauts are incredible pilots who have endured years of rigorous athletic training. An astronaut's thirst for adventure is quenched once by daring space missions.

Celebrated Five-Star Chef

Reach Level 10 of the Culinary Career

Bustling kitchens filled with fiery stoves and flamin' hot dishes are in store for Sims desiring the Five-Star Chef epithet. Your Sim will need to build relationships with kitchen staff and develop Cooking skills.

CEO of a Mega-Corporation

Become a CEO in the Business Career

Your Sim can become a purveyor of profits and margins that make board members smile. Your Sim must successfully schmooze coworkers and the ever-present boss to ascend the corporate hierarchy.

Culinary Librarian

Learn Every Recipe

By mastering the Cooking skill and perusing the bookstore for recipes, your Sim can become a walking library of culinary expertise.

The Emperor of Evil

Reach Level 10 of the Criminal Career (Evil branch)

Your Sim can become the leader of the world's most diabolical organization. Strong evil office relationships are a must, as is possessing enough Athletic ability.

Forensic Specialist: Dynamic DNA Profiler

Reach Level 10 in the Law Enforcement Career (Forensic branch)

Special Agents in the field require the best data to apprehend criminals and only the finest analytical minds will suffice. After all, criminals leave only so many useful clues, making the work challenging. Students of Logic with a knack for Painting make the best forensic analysts.

Gold Digger

Sim Ghost of Wealthy Spouse

Some paths to acquiring wealth are more devious and selfish than others. Gold Diggers seek to marry the incredibly wealthy and yearn to see the premature demise of their spouse.

It's the only way to really enjoy the money—alone and rich.

Golden Tongue, Golden Fingers

Master the Guitar Skill

Master the Charisma Skill

Kindly spoken words and softly strummed strings are the fastest way to a Sim's heart and an excellent way to make friends. Charisma is a highly social endeavor, whereas guitar is for those who love learning and performing music. A master of both is an irresistible charmer.

Heartbreaker

Be the Girlfriend/Boyfriend of 10 Different Sims

Why settle for a long-term romantic relationship or monogamy when there are so many attractive Sims out there? Your Sim can find a lifetime's enjoyment by seeing many different Sims. Just keep your Sim's many former lovers at a reasonably safe distance.

Hit Movie Composer

Reach Level 10 in the Music Career (Symphonic branch)

The composer must be well-liked by the musicians of the symphony, a master of music, and one who truly understands logic to grasp the science of sound.

Illustrious Author

Master the Painting Skill

Master the Writing Skill

The arts delight most Sims. However, for each successful artist there are dozens of has-beens and failures. Your Sim can write and paint toward a lifetime of artistic success, but it won't be easy.

International Super Spy

Reach Level 10 in the Law Enforcement Career (Special Agent branch)

The forces of justice and order need champions to foil the nefarious plans of those who would do the citizenry harm.

Only Sims in peak physical condition who use logic to solve troubled situations and look smashing in evening wear need apply at the Police Department.

Jack of All Trades

Reach Level 5 of 4 Different Careers

Being tied to a single job isn't for everyone. Your Sim will be a jack of all trades, or at least four, by climbing halfway up the corporate ladder of four careers.

Leader of the Free World

Reach Level 10 in the Political Career

The Leader of the Free World must be a passionate and charismatic politician who can raise immense campaign funding. It is an unenviable position where a Sim must constantly adjust to unexpected problems. The world needs great leaders—like your Sim.

Living in the Lap of Luxury

Have Household Net Worth of 100,000 Simoleons

A life of extreme wealth is one of comfort and privilege, but also one of fulfillment. If your Sim owns a fabulously furnished home and has enough money to live in luxury, satisfaction will be had.

Master of the Arts

Master the Guitar Skill

Master the Painting Skill

The artisan can paint images that incite the humorless to laugh and the inarticulate to eloquence. The addition of Guitar skills can make your Sim the envy of the community.

Perfect Garden

Plant and Grow 8 Different Species of Perfect Plant

The most delicious fruits and vegetables are harvested from a perfect plant. Perfect plants grow from only the best seeds, which drop from the branches of generation-spanning plants that have been well tended and loved. Only fanatically patient outdoorsmen can plant such a garden.

Perfect Mind, Perfect Body

Master the Athletic Skill

Master the Logic Skill

Seeking personal perfection through rigorous mental and physical training is a noble goal that guarantees a lifetime of challenge.

Your Sim may one day stand on the peak of physical Sim achievement, but not without much sweat and mental strain.

Presenting the Perfect Private Aquarium

Have at Least 13 Different Species of Perfect Fish in Fishbowls

The ultimate fishermen can reel in incredibly majestic fish; so large they're practically bursting out of their scales.

Truly dedicated fishermen spend hours casting and re-casting until the fruits of the deep blue are caught. Your Sim can create an amazing private aquarium by catching the most magnificent fish for a private collection.

Renaissance Sim

Reach Level 10 with 3 Different Skills

True scholars are not satisfied with mastering a single subject. Reach the top level of several skills to become a Renaissance Sim.

Rock Star

Reach Level 10 in the Music Career (Rock branch)

The path of rock appeals to many a young Sim, but the perilous journey is completed by few. Your Sim must join the music career, survive the early years of rock servitude, and master the guitar to become the greatest rock star the world has ever known.

Star News Anchor

Reach Level 10 in the Journalism Career

Great Charisma and an epic level of literary eloquence are required to succeed in the fast-paced field of journalism.

Super Popular

Be Friends with 20 Sims

Popularity is a sign that the community enjoys the friendship of your Sim. Unselfish socialization is a worthwhile pursuit.

Surrounded by Family

Raise 5 Children from Babies to Teens

For family focused Sims, the pitter patter of little feet makes parenthood worthwhile. A house full of children can mean a tight budget, little personal time, and few luxuries, but there's always somebody to play with or something new to teach.

Swimming in Cash

Have 50,000 Simoleons in Household Funds

Simoleons fuel the world and for some fiscally minded Sims, personal happiness as well. Scrimping and saving to live in an efficient home, working hard at work, and succeeding at lucrative personal side projects will allow your Sim to swim in the metaphorical pool of money.

Tinkerer

Master the Logic Skill

Master the Handiness Skill

Logic and Handiness are natural bedfellows, partners of invention and discovery. Logic leads to great finds like eerie nebulas, whereas Handiness unlocks interesting household improvements.

World Renowned Surgeon

Reach Level 10 in the Medical Career

Only the greatest surgeons defeat disease. Your Sim must be able to make logically brilliant, split-second decisions at the operating table.

The medical profession is only for incredibly dedicated Sims who are mentally above the rest.

Note

You can create multiple Sims at the beginning of a game and then define their relationships within a single household, such as spouses, house mates, siblings, and parents.

Families and house mates share Simoleons.

The Sims 4 Farming
A Day in the Life

Farming is a new gameplay feature in the base game, not a pack. It's a big deal, because all the content you'll see here (e.g. The journey you'll undergo to keep one, and it will be DLC'd in an expansion.

However, before we dive into the Farmer's day, you need to be familiar with a handful of terms that you'll see and expand throughout the entire guide, but also be used in occasionally within the gameplay.

Important Farming Terminology

Biomes: Every lot has one biome, with a handful of exceptions. When you create a lot, you get to choose. Biome determines what crops can be grown on the lot, and what animals can be raised on the lot.

Skills: Skills are tied to plenty of gameplay, such as [cooking](), [crafting](), and [gardening]().

Fertilizer: Fertilizer comes in all biomes. Certain fertilizers only work in certain biomes. You can learn more about fertilizer [here]().

Crossbreeding: Crossbreeding is a way to create new crops and animals. Crossbreeding is a way to create new crops and animals. Crossbreeding is a way to create new crops and animals.

Crossbreed: A crossbreed is a crop or animal that is created by crossbreeding two crops or animals.

Mood Boosting Tips and Tricks

We have collected a host of suggestions for increasing the appearance of positive moodlets as well as minimizing negative moodlets. Because a good mood has such a far-reaching effect, use these tricks to maintain a smile on your Sim.

Food Boosts

The simple act of eating can have a very positive effect on your Sim. Not only does it negate hunger, but quality food can also put a Sim on cloud nine (or clouds one through eight, depending on how good the meal is).

Here are some tricks for maximizing mood through eating:

Develop the Cooking skill. As your Sim approaches level 10, they make higher and high quality meals. Quality meals result in the Good Meal, Great Meal, and Amazing Meal moodlets depending on the skill of the cook and the number of times the recipe has been prepared.

Sims get better at a recipe the more they make a dish. Fortunately, they do not get tired of eating the same thing so if your Sim masters a dish like Googy Carbonara and keeps making it, Sims get moodlet boosts for eating it.

Place leftovers in the fridge of Excellent or Perfect recipes and eat them whenever the Sim is hungry. Buying a more expensive fridge helps leftovers keep longer so you waste little time making additional servings every day and can enjoy a quick mood boost from eating good food.

When a Sim finally reaches level 10 of the Culinary career, they get a special fridge that not only keeps leftovers for a long time, but Sims get the Superior Equipment moodlet just for walking past it.

If your Sim makes a new recipe and does a poor job resulting in a disgusting meal, don't eat it. Just rely on a quick meal to satiate hunger. The Sim is sad over wasting food, but the mood hit for the Nauseous moodlet is worse.

At level 10 of the Cooking skill, Sims can buy the Baked Angel Food Cake recipe. Eating a serving of this recipe results in the Warm Fuzzies moodlet, which gives an easy mood boost for five hours.

Eating out at the diner or bistro always results in a food-related mood boost. Sure, it costs Simoleons, but the eight-hour moodlet boost will pump up your Sim's overall mood. Try eating at the bistro or diner before going to work for an extended mood boost.

Dining at the bistro occasionally (but not too often) results in the Divine Meal moodlet. This moodlet boost lasts for an entire week and offers +75 to your Sim's mood. Talk about a happiness generator.

Feed Ambrosia to your Sims so they get the coveted Divine Meal moodlet. The recipe is available from the bookstore once Sims reach level 10 of the Cooking skill. However, the recipe does not come cheap. It costs §12,000 and it's worth every single Simoleon.

No time to cook? Just grab a quick snack. If you let your Sim get too hungry, they get the Very Hungry and Starving moodlets. These negative moodlets last a long time and are terrible to have, especially before going to work.

In addition to buying a good fridge, splurge on a good stove. This reduces the chances of preparing a meal that results in the negative Uneven Cooking moodlet while working on new recipes.

Environment Boosts

Sims are affected by their surroundings at home. You can boost mood by making sure your Sims have a pleasant pad.

Sure, it may cost a little money to get the best stuff and make your Sims happy, but maxing out mood is almost always worth the expenditure.

Sims love new stuff. In fact, buying a new object for the house results in the appropriately named New Stuff moodlet, which is a quick mood booster.

Keep your lot clean. It doesn't take that long to pick up dishes or make sure objects in the bathroom are clean. Mop up puddles right away, too. Dirty houses result in negative moodlets like Filthy Surroundings. Walking through a dirty house on the way to work is a real mood-killer.

Master the Painting skill so your Sims create Masterpieces. Masterpieces add huge environmental boosts to rooms that help foster the Decorated moodlets.

Spend some Simoleons on nice objects such as paintings and sculptures so Sims get the Decorated moodlets just for passing through a room.

Install a fireplace in your Sim's house. When Sims walk past it while a fire crackles, they get the Cozy Fire moodlet. If they linger near the fireplace, they get the Warmed moodlet.

Speaking of heat, if a gardening Sim grows a Flame Fruit and keeps it in their personal inventory, they always enjoy the Warmed moodlet.

Place a swimming pool on your lot. Sims get the Lovely Pool moodlet when they are near it.

Buy the rubber duckie from the supermarket and place it on the tub in your house. Every time Sims take a bath, they get the Duck Time Fun moodlet. That's an easy mood booster.

All Sims like music. Place a stereo in your house and play music for your Sims so they get the Enjoying the Music moodlet. The potency of this moodlet increases with the quality of the stereo. If a Sim with the Handiness skill upgrades the stereo so it plays music in all rooms, all Sims in the house enjoy the moodlet boost when music is played.

In addition to digging on music from a stereo, Sims also like the sound of the guitar. A skilled musician can cause the Enjoying the Music moodlet, too.

Not all chairs are created equal. When browsing the chairs, look at the comfy rating. The higher the rating, the comfier the chair (and, chances are, the more expensive the chair, too). However, spend the extra Simoleons for the comfy chairs and sofas. Sitting in one—even for just a few moments—results in the Comfy moodlet.

Your Sim gets the Pristine Picture moodlet boost from watching a quality TV. If a handy Sim tinkers with it, the chance of getting this moodlet increases. It's another easy way to boost overall mood.

Social Boosts

With the exception of Loner Sims, Sims love to be social. Many positive moods come from being a gadfly or a schmoozer, so consider these tricks while dealing with other Sims. Your next social interaction could put your Sim's mood up into the green!

Parties put Sims in good moods. If you put together an awesome party that your guests enjoy, you get the Threw a Great Party moodlet, which lasts an entire day.

Know a Sim who is a Great Kisser? A little smooch from this Sim results in a nice little moodlet, Great Kiss. On the way out the door, that's an easy pick-me-up.

Meeting a new Sim is always enjoyable, but when your Sim converts that acquaintance into a friendship, they can enjoy the New Friend moodlet. So, get out there and socialize. Just watch out for clumsy conversations so you don't end up with negative moodlets like Embarrassed or Boring Conversation.

If you have multiple Sims in your household, have them stop and compliment each other for a moment to get the Fluttered moodlet.

Need Boosts

Each Sim has six primary needs. Addressing these needs often boosts the overall mood. Because we already dealt with food-related mood boosts, these strategies are related to the remaining needs.

It's tempting to push your Sims to the limits of sleep in order to squeeze as much into a day as possible. However, getting a full night's sleep gives the Well Rested moodlet for a full 10 hours. That's a great moodlet to have before going to work.

Got a spare hour? Take a nap. The Had a Nice Nap moodlet is a quick fix that adds a nice mood bump for a few hours.

Obviously, Sims like to have fun. Giving your Sim something to do they enjoy (often related to traits, such as giving a good book to a Bookworm) will bring on the Entertained moodlet. Keep it up for six hours and that moodlet turns into the Having a Blast moodlet, which is an even bigger mood booster.

Hygiene is an important need. It's not just that Sims do not like being around stinky Sims, but taking care of Hygiene needs can often result in a positive mood boost.

The Minty Breath moodlet boost is a quick hit for very little effort. Just brush your Sim's teeth at any sink. Make it a habit.

Buy a quality shower and enjoy the Exhilarating Shower moodlet boost. Get this right before heading out the door to work (along with a quality meal) to have a great day at the office.

Whoa—is your Sim afflicted by the Strained moodlet? Get rid of it as soon as possible with a massage or fun activity!

Out and About Boosts

There are many ways to boost your Sim's mood outside the house. Many community lots such as the theater have positive effects on mood, so if your Sim is down in the dumps, try these suggestions for turning that frown upside-down:

If your Sim has the Loves the Outdoors trait, just going out into nature results in the One with Nature moodlet. It's an easy mood booster achieved by just going outside, so consider making sure your Sim has this trait.

Visiting a city park gives Sims the Beautiful Park moodlet. It offers a nice mood bump. However, you can kick your mood up another notch by bringing a stereo when heading to the park. Place the stereo on the ground near your Sim and play some music. Now your Sim not only gets the Beautiful Park moodlet, but also the Enjoying the Music moodlet.

Many facilities such as the theater or science facility offer tours. If your Sim has a trait that is related to the location, take the tour and enjoy the Impressed and/or Fascinated moodlets.

The day spa is a positive moodlet factory. Buying treatments at the day spa results in a variety of moodlets—all of them positive. The more expensive the spa treatment, the better the effect.

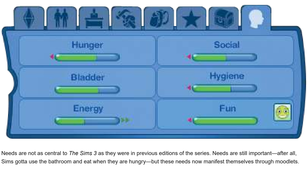
The body treatments, for example, result in the Rejuvenated moodlet. If you spring for the top treatment, you can get up to +100 on your mood for 24 hours. You are effectively buying happiness!

Go to the movies! This is a cheap way to get an extended mood boost called Saw a Great Movie. It lasts for 16 hours, so if you catch a flick the night before work, you'll enjoy the effect of the moodlet for the majority of the next day's shift.

On your way out of the house, stop by the mailbox and donate some Simoleons to charity. The more Simoleons you donate, the bigger the boost from the Charitable moodlet.

The moodlet lasts an entire day, so it's an effective way to pump up a Sim.

Needs



Needs are not as central to *The Sims 3* as they were in previous editions of the series. Needs are still important—after all, Sims gotta use the bathroom and eat when they are hungry—but these needs now manifest themselves through moodlets.

For example, when a Sim is terribly hungry, they let you know through the Hungry moodlet that appears right in the moodlet box that is always visible.

There is still a Need panel you can reference to get a closer look at exact need levels. This a helpful way to head off a potential negative moodlet. There are six needs to monitor:

Bladder

Energy

Fun

Hunger

Hygiene

Social

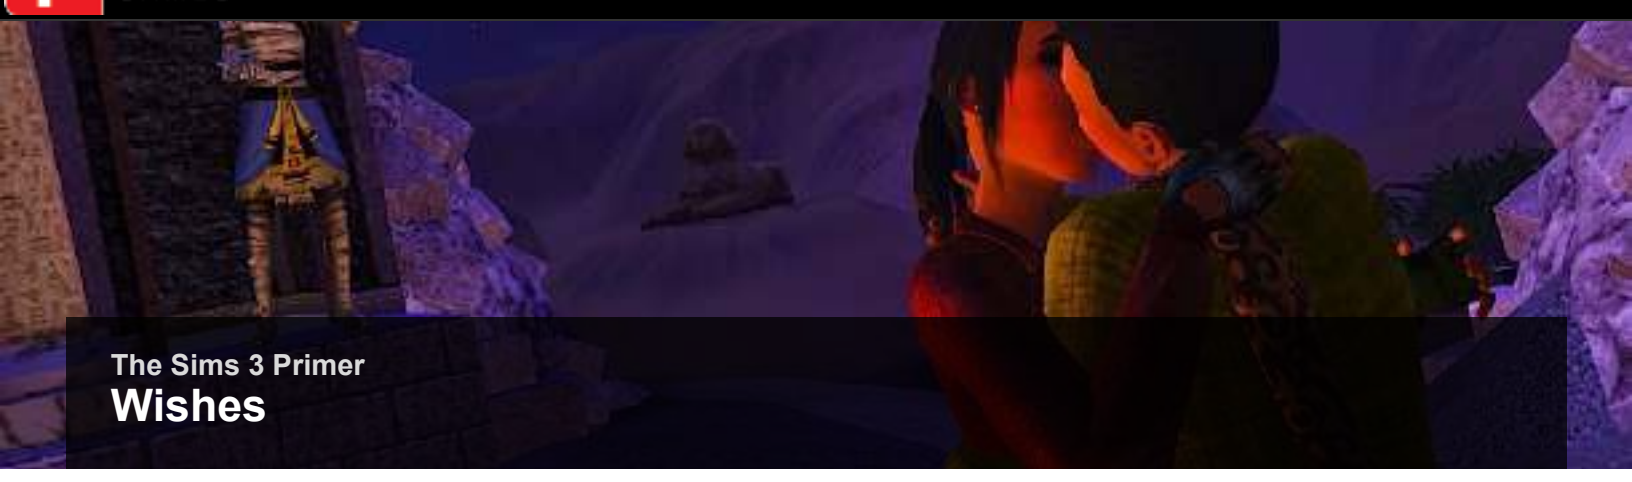
Each need in the Needs panel is accompanied by a meter that shows you the exact level of the need at that moment, such as whether or not the need is being met (the meter appears green) or the need has been ignored for far too long (red).

If you check in on the Needs panel and you see that the Hunger meter is yellow, the satisfaction of that need has dropped below 50 percent and is on its way to red territory.

When that meter turns red, a negative moodlet associated with that need appears and the Sim's overall mood takes a hit.

Caution

While more attention is paid to moodlets, you ignore the Needs panel at your own risk. Just pop into the Needs panel and survey the satisfaction levels, thus heading off a negative moodlet.



The Sims 3 Primer

Wishes

It is through wishes that Sims feel both fulfilled and productive, but not all wishes are equal. In fact, there are other ways to define a Sim's life besides Lifetime Wishes.

The day-to-day desires of Sims are also very important, such as the desire to chat with another Sim or learn a new recipe. These smaller wishes commonly factor into the overarching Lifetime Wish, and also help with skill development and the career advancement.

Fulfilling a promised wish to a Sim results in the acquisition of Lifetime Happiness points. The reward is not nearly as much as a Lifetime Wish, but the points from fulfilling smaller wishes really add up over time.

Note

Not every wish is worth the same number of Lifetime Happiness points to every Sim. Depending on a Sim's wants, traits, and needs, a wish is worth a different amount than it would be to another Sim.

Making Wishes Come True

Almost as soon as your Sims move into their new houses, they start expressing wishes and desires via the Wish panel at the bottom of the screen.

Sims can have up to four active wishes at any time and express one in the arched bubble above the Wish panel. To promise a new wish to a Sim, left-click on it. That moves it into the Wish panel.

If you find an incoming wish more appealing than a promised wish but have no more empty slots, right-click on one of promised wishes to remove it. There is no penalty for getting rid of a promised wish.

The Wish panel

Caution

You cannot undo a denied wish—once it's gone, it's gone. It may come back later, but don't count on it.

Once added to the Wish panel, a wish stays there until it is either fulfilled or denied. The number of Lifetime Happiness points for a promised wish do not deteriorate over time either.

If you hold on to the Have a Baby wish for several days before attempting to fulfill it, it is still worth the same number of Lifetime Happiness points as the first moment it appeared.

Wishes are not universal. Every Sim wants different things, although you may see similar wishes appear within Sims in the same household that have similar traits, skills, or careers.

Ages also affect the wishes, as a child will want different things than an adult. It is also important to note that some promised wishes disappear when a Sim ages up.

Because the Sim is moving into a new age group and possibly gaining a new trait that affects personality, that Sim is likely to have totally different desires.

Lifetime Happiness Points

Whether you accumulate Lifetime Happiness points by boosting mood up into the bubble or by fulfilling wishes, they all go into the same pot.

These Lifetime Happiness points can then be traded for Lifetime Rewards, which are a collection of special objects, skill modifiers, or personality tweaks that can make your Sim's life easier or send it spiraling into an entirely new direction.

lifetime rewards

Lifetime Reward	Cost	Function
Steel Bladder	10,000	Never have to go pee
Change Lifetime Wish	10,000	Pick a new Lifetime Wish to replace current one
Dirt Defiant	15,000	Hygiene concerns be gone!
Hardly Hungry	25,000	Don't have to eat as often
Professional Slacker	5,000	Does not lose career performance for using the Slack Off tone at work
Speedy Cleaner	5,000	Sim can clean objects faster
Fast Metabolism	5,000	Change body shape faster
Multi-Tasker	10,000	Increased career performance / Do homework faster
Extra Creative	30,000	Paintings are always higher-than-average quality
Acclaimed Author	30,000	Increased royalty checks (from Writing)
Super-Green Thumb	20,000	Harvestables are of universally higher quality
Never Dull	15,000	Always interesting (never boring when socializing)
Discount Diner	5,000	Free restaurant meals
Complimentary Entertainment	5,000	Free theater shows
Bookshop Barginer	10,000	Cheaper books
Office Hero	5,000	Popular w/ peers (Increased Relationship Gain during "Hang with Co-Workers")
Vacationer	15,000	Reduce performance decay for missing work
Legendary Host	5,000	Everyone Invited shows up to your parties and they have a higher quality
Haggler	15,000	Permanent shopping discount (at stores)
Long Distance Friend	20,000	No relationship decay when apart from LTRs
Fast Learner	15,000	Develop skills faster
Attractive	10,000	Sims with appropriate preference start in a high relationship to you
Observant	5,000	Instantly learn traits when socializing (tunable number of traits learned)
Opportunistic	10,000	Increase opportunity rewards (earn 2x reward)
Fertility Treatment	10,000	Increases chance of conception and chance of twins or triplets
Mid-life Crisis	20,000	Change traits
Collection Helper	40,000	This adds marks on Map View that help spot collectibles like metals and beetles
Body Sculptor	30,000	Instantly change body shape with this wish
Mood Modifier	60,000	Remove negative moodlets…most of the time
Food Replicator	50,000	Freely duplicate meals without the shopping or cooking time
Teleportation Pad	75,000	Quick way of getting from home to specific destinations

The Sims 3 Primer

Opportunities

Opportunities

As you live each day, your Sim encounters opportunities related to social situations, careers, and skills. These opportunities often come out of nowhere—just as they do in real life.

Opportunities provide short-term goals, but they are not mandatory. There is no penalty for dismissing an opportunity or for not completing an opportunity.

However, because each opportunity has a reward, such as Simoleons or a promotion, it pays to pursue them as best as you can.

Note

You get many opportunities from being social, so definitely get out there and mingle.

Many opportunities are time-sensitive. If you are presented with an opportunity with a time limit, such as participating in a cook-off, you are given the deadline right up front.

Keep these deadlines in mind because many opportunities actually require a little work. You cannot expect to complete an opportunity with just 10 minutes left on the clock.

To track your active opportunities, use the Opportunity panel. There are three opportunity categories: skill, career, and special. You can only have one opportunity in each category at a time. You cannot stack opportunities or bank them for later.

Relationships And Socializing

Relationships in *The Sims 3* actually unfold not that differently from those in the real world. How you treat other Sims is the biggest metric in your overall relationship with them.

If you insult another Sim, expect them to get upset in the immediate conversation and for that to have a lasting effect on your relationship.

Conversely, a constant stream of support or praise will boost the immediate interaction and lead to a longer-lasting positive relationship.

Developing a successful romance means spotting if the other party is receptive to your advances and knowing when to cool your jets.

The social structure of *The Sims 3* is not navigated with obvious metrics. There is a touch of mystery in conversations that makes socializing more organic.

You need to consider the current attitude of the Sim in the conversation, often referred to as the Target. (Your current Sim is known as the Actor.) That attitude affects the long-term status of your relationships with different Sims.

Let's detail some basic concepts that will assist with understanding how relationships work. long-term relationship (LTR), short-term context (STC), and commodities. Understanding these three factors is the key to brushing back some of the mystery of social interaction.

Long-Term Relationship (LTR)

The long-term relationship represents the state of the relationship between two Sims, which extends beyond the time during which a conversation is taking place.

LTR essentially describes the way two Sims view each other at a given moment. Every Sim outside the family starts out as a Stranger.

Once initial contact is made, the LTR moves up to Acquaintance and can never fall back into Stranger.

However, Acquaintance is the proverbial fork in the road. From here, the LTR can blossom into friendship or deteriorate into rivalry.

The LTR is visually measured by the bar below the portrait of the Sim you are conversing with. If the relationship develops in a positive manner, the right half of the bar fills.

Positive relationship status is noted with green. If the relationship is souring, that meter empties back out and can even dip into the left side, which is red. The red bar denotes a negative LTR.

> **Note**
>
> The natural tendency of the LTR is toward zero from either end of the relationship spectrum. Zero puts you back into Acquaintance territory. Decay occurs naturally with each passing day that you do not contact a Sim you have a relationship with.

How to achieve the different LTRs is explained in the Friendships (and Enemies) section of this chapter, but here is a list of all of the LTRs.

Stranger

Acquaintance

Disliked

Distant Friend

Friend

Good Friend

Best Friend

Best Friends Forever (teens only)

Romantic Interest

Ex-Spouse

Ex

Enemy

Old Enemies

Partner

Fiancee

Spouse

Short-Term Context (STC)

Short-term contexts are what a Sim thinks about the other Sim in the course of the current conversation, not as an LTR. The STC is displayed in the conversation box in the screen's upper-left as the conversation unfolds.

For example, the Sim may say that "Jenny thinks Sasha is being amusing." STC is affected by the kind of socials used in a conversation. Each social has a commodity attached to it that directs the course of a conversation. These are all of the STCs:

Dull

Drab

Insufferably Tedious

Odd

Creepy

Frightening

Very Scary

Impolite

Insulting

Unforgivably Rude

OK

Friendly

Very Friendly

Amusing

Funny

Hilarious

Flirty

Seductive

Hot

Awkward

Very Awkward

Steamed

Not all STCs are symmetrical. One Sim can have a totally different impression of a conversation than the other.

The only symmetrical STCs are those associated with the following commodities: friendly, funny, amorous, and steamed. It is very possible that Jenny could think Sasha is being Dull while Sasha does not.

STC also modulates the way socials are accepted. Instead of just hot and cold, STCs and their respective commodities temper reactions. Depending on your LTR and STC, you can see different degrees of reaction to a social.

Trying to kiss a Sim on the cheek in the context of the Flirty STC will be a lot more successful than the Friendly STC.

> **Note**
>
> The STC of a conversation contributes to the kind of decay an LTR undergoes each day.

Commodity

So, each STC is associated with a commodity? What's a commodity? Think of these as the general categories a social or STC falls under. They are based on specific emotions we all feel, such as awkwardness or love.

Use the commodity of a social to inspire an STC, which in turn affects the overall LTR. Here are the seven commodities:

Boring

Creepy

Insulting

Friendly

Funny

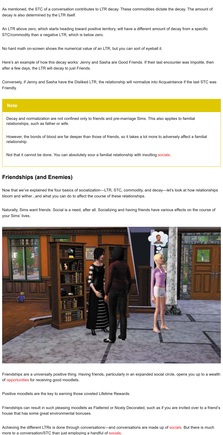
Amorous

Awkward

Steamed

As you look at the different STCs and socials in this chapter, check the associated commodities so you can push a conversation in the desired direction.

Decay and Normalizing



Relationships do not operate under inertia. They decay over time if not tended to, even if that time period is as short as 24 hours. This is why regular socializing is so important.

Decay is not necessarily a negative slide.

While positive relationship can indeed decay into mere Acquaintance, a negative relationship can normalize into the far more desirable Acquaintance. (Apparently Sims don't keep grudges quite like we do.)

> **Tip**
>
> Decay can be slowed by something as simple as a phone call.

As mentioned, the STC of a conversation contributes to LTR decay. These commodities dictate the decay. The amount of decay is also determined by the LTR itself.

An LTR above zero, which starts heading toward positive territory, will have a different amount of decay from a specific STC/commodity than a negative LTR, which is below zero.

No hard math on-screen shows the numerical value of an LTR, but you can sort of eyeball it.

Here's an example of how this decay works. Jenny and Sasha are Good Friends. If their last encounter was Impolite, then after a few days, the LTR will decay to just Friends.

Conversely, if Jenny and Sasha have the Disliked LTR, the relationship will normalize into Acquaintance if the last STC was Friendly.

> **Note**
>
> Decay and normalization are not confined only to friends and pre-marriage Sims. This also applies to familial relationships, such as father or wife.
>
> However, the bonds of blood are far deeper than those of friends, so it takes a lot more to adversely affect a familial relationship.
>
> Not that it cannot be done. You can absolutely sour a familial relationship with insulting socials.

Friendships (and Enemies)

Now that we've explained the four basics of socialization—LTR, STC, commodity, and decay—let's look at how relationships bloom and wither, and what you can do to affect the course of these relationships.

Naturally, Sims want friends. Social is a need, after all. Socializing and having friends have various effects on the course of your Sims' lives.

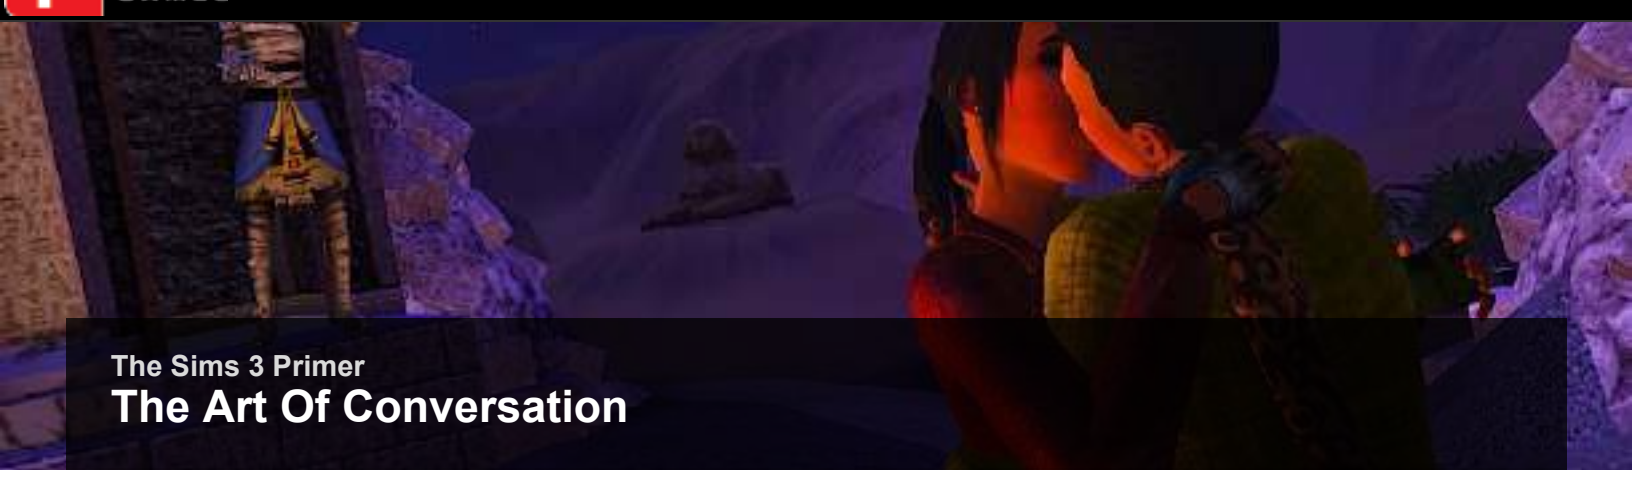
Friendships are a universally positive thing. Having friends, particularly in an expanded social circle, opens you up to a wealth of opportunities for receiving good moodlets.

Positive moodlets are the key to earning those coveted Lifetime Rewards.

Friendships can result in such pleasing moodlets as Flattered or Nicely Decorated, such as if you are invited over to a friend's house that has some great environmental bonuses.

Achieving the different LTRs is done through conversations—and conversations are made up of socials. But there is much more to a conversation/STC than just employing a handful of socials.

A Sim's personality is hugely important in determining which socials can be used—and should be used. And it's not only the traits of the Actor that matter. Learning the traits of the Target is also quite important.



The Sims 3 Primer

The Art Of Conversation

So, you've approached another Sim, you left-clicked on them, and now you are staring at a menu of different social options. How do you navigate the social structure of a conversation?

Well, your options are partially defined by your LTR, current mood, age, and your traits. Categories of socials include things like Friendly, Funny, Mean, Romantic, and Special.

Special leads to socials that are encouraged by the Actor having a specific trait, such as Bookworm. Inside the Bookworm menu, there will be options to talk about books or the bookstore.

The menu of available social categories appears around your Sim's head. Left-click on an option to see what socials are available.

Now, select a social from the category to add it to the action queue.

Note

Social menus have a maximum of 12 options. If there are more than 12 available to a Sim, the friendly socials are the first to get cut from the menu of options.

When you select a social, it is added to your list of activities in the upper-right corner, just as if you were stacking interactions with objects.

When a current social ends, the next one automatically begins. But stacking socials is not a wise strategy because you do not want to just babble away about a topic that the other Sim is just not interested in listening to.

Use socials and then watch for reactions. A positive social with a positive effect is noted with a chime and a blue symbol of two Sims next to each other. A negative reaction is noted by two red Sims and a minus symbol.

Being Boring

Talking about the same things over and over gets boring to most Sims. The positive effect of a positive social is weakened the more you use it.

Repeating a social can also affect the STC. Continuous droning about the same subjects will nudge the STC into Dull, Drab, or Insufferably Tedious territory. If the conversation ends on one of those STCs, the LTR suffers.

When a relationship is suffering due to a boring conversation, red symbols appear over the Sims' heads.

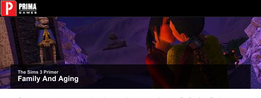
The default number of times you can repeat a social without getting boring is two. And if you break apart a conversation, you can use a social more than twice without any STC worries.

Some socials can be used more than twice without dullness setting in, such as Chat. Chat has four uses before it is boring in a single conversation.

However, it can be "recharged" so that the social can be used six times before it is boring. To recharge a social, you just need to break it up in the conversation.

For example, let's say you use Chat four times in a row. The other Sim is not bored, but is about to be if you use it one more time.

So, you change course and Talk About Books. After that social runs its course, you have recharged Chat once. Now you can use Chat again without it being boring. However, if you tried to use it again without another recharge, the social would be considered boring.



The Sims 3 Prima
Family And Aging

Few bonds in this world are more powerful than family—and family is a strong force inside The Sims 3, too. The family is a close unit that is always on the lookout for each other's best interests, both socially and with the trending of moods and needs.

Time is a constant that cannot be avoided in The Sims 3. It is a steady drumbeat in the back of every day, sometimes barely audible above the din of career, socialization, and the little joys of life.

Over time, Sims age. They transition between the stages of life, from toddler to child, from adult to elderly. And at the end of the strange, fascinating trip that is life, Sims will die.

There are seven stages of life in The Sims 3: baby, toddler, child, teen, young adult, adult, and elder. Each stage has a different number of days that completes an age.

At the end of the age, the Sim transitions into the next age. Here are the number of days in each age:

Baby: 2 days
Toddler: 7 days
Child: 7 days
Teen: 14 Days
Young Adult: 21 days
Adult: 21 days
Elderly: 16 days (minimum)

Age Transitions

When a Sim closes in on the transition date, you are given a two-day warning. If the Sim about to age up is younger than a young adult, this transition period is extremely important.

When a toddler transitions to a child and a child transitions to a teen, the Sim picks up an additional trait.

If the Sim is doing well in life by specific metrics at the point of transition, you get to pick that new trait. If the Sim is struggling, then the trait is either randomly chosen or is chosen from a list of negative traits.

Baby

The most helpless of all Sims, the baby requires a lot of care. Fortunately, this age lasts only a couple days and parents are given the time off from their careers to tend to the baby. Babies are typically carried around by their parents (or adult/older Sims).

While carrying a baby, Sims must limit their interactions to sitting (not in front of a table), using the phone, and any socialization that does not require touching.

Babies have fewer needs than other Sims, but the needs they do have are critical. Here is what you need to monitor on a baby:

Energy: Babies tend to get tired much faster than other ages. When a baby gets tired, it can fall asleep, as long as it is not in the middle of an activity. Babies typically sleep in a crib, though, so make sure you buy one if your household has a baby in it.

Hygiene: Babies need to relieve themselves like every other Sim, but they do so in their diapers.

This makes the baby Smelly, which can cause a negative moodlet on other Sims if the Change Diaper interaction is not selected after the baby alerts you of its stinky predicament.

Hunger: Babies need a lot of feeding, but not the kind of food you prepare in the kitchen. Babies need bottles. To feed a baby when it needs it, select the Feed Baby interaction on the baby.

Social: Babies need interaction and entertainment, so be sure to regularly play with your new baby.

Caution

You must attend to the baby or the baby will get fussy. Unlimited moodlet. You must also feed the baby regularly so the Hunger need never drops into the red.

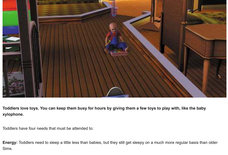
If you neglect a baby (or any Sim younger than young adult), you risk a visit from a Social Worker. The Social Worker will take away a child who is being neglected.

Toddler

Babies age up into toddlers. Toddlers cannot take much better care of themselves than babies, but at least they are somewhat mobile, thanks to the ability to crawl, and they can amuse themselves via toys.

Toddlers can be taught how to walk via a special interaction with an teen or older Sim. In fact, teaching a toddler to walk is one of three critical lessons you need to teach a toddler before it ages up into a child.

The other necessary lessons are Teach to Talk and Potty Train. Toddlers need attention like babies, so if a toddler starts to fuss, you should definitely pick it up and socialize with it.



Toddlers love toys. You can keep them busy for hours by giving them a few toys to play with, like the baby xylophone.

Toddlers have four needs that must be attended to:

Energy: Toddlers need to sleep a little less than babies, but they still get sleepy on a much more regular basis than older Sims.

Fun: To keep toddlers in a good mood, you need to either play with them or direct their attention to some toys. You can purchase several toys in Buy Mode from the Kids Room catalog.

Hunger: Toddlers need to eat. You can either go the bottle route or feed a toddler in a high chair, which can also be purchased from the Kids Room catalog. To feed a toddler actual food, you need the food processor to puree the meal.

Hygiene: Toddlers use diapers. If not potty trained, a toddler will fill its diapers and demand immediate changing; if a toddler has been taught to use the potty, it can use the training potty.

You need to teach the toddler for it to properly age up. If you have not taught the toddler all three skills before it ages, you cannot choose the third trait it receives during the transition.

Teach to Walk and Teach to Talk are selectable when you left-click on the toddler. The older Sim sits down next to the toddler and starts the lesson. Lesson progress is viewable just like learning a skill in adulthood.

A blue bar appears over the toddler's head and fills over the course of the lesson. When the bar fills to the max, the skill has been taught.

To handle potty training, you need to buy the small training toilet from Buy Mode. As soon as the toddler has learned any of these skills, that skill vanishes from the interaction menu.

Tip

Elder Sims are great teachers for toddlers.

Child

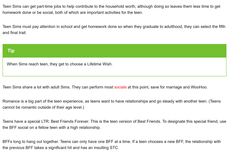
Child Sims have survived being a toddler and are ready to take on a little responsibility of their own: school.

Child Sims can socialize and make friends with other children, feed themselves with quick snacks from the fridge, and even learn a few of the skills that will give them a leg up on teen and adult life.

Children still like to play, so let them have a little fun with toys and games when not working on homework for school and socializing with the family.

A child who gets regular good grades and has an A at the time of the age transition gets to choose the next trait. Anything less and the trait is either random or purposefully negative. However, in addition to going to school, children can learn a few skills, such as Cooking.

Teen



Teen Sims graduate to high school and are impressed with a whole new level of responsibility.

Teen Sims can get part-time jobs to help contribute to the household worth, although doing so leaves them less time to get homework done or be social, both of which are important activities for the teen.

Teen Sims must pay attention in school and get homework done so when they graduate to adulthood, they can select the fifth and final trait.

Tip

When Sims reach teen, they get to choose a Lifetime Wish.

Teen Sims share a lot with adult Sims. They can perform most socials at this point, save for marriage and WooHoo.

Romance is a big part of the teen experience, as teens want to have relationships and go steady with another teen. (Teens cannot be romantic outside of their age level.)

Teens have a special LTR: Best Friends Forever. This is the teen version of Best Friends. To designate this special friend, use the BFF social on a fellow teen with a high relationship.

BFFs long to hang out together. Teens can only have one BFF at a time. If a teen chooses a new BFF, the relationship with the previous BFF takes a significant hit and has an insulting BTC.

Tip

Teen Sims can learn all skills, just like adult Sims. This is a good time to figure out what kind of skills you want to nurture and get an early start on them.

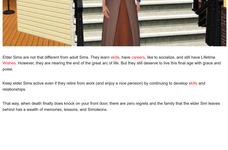
Young Adult/Adult

Adult Sims have great responsibilities to take care of their charges and maintain a positive household, all while juggling career, skills, and socializations.

It's not an easy task. There are thousands of choices to make, from sitting down to write a book to going into the military to looking for butterflies up at Stonehenge.

But it's the stage and all of its freedoms that makes The Sims 3 such a wonderful experience.

Elder



Elder Sims are not that different from adult Sims. They learn skills, have careers, like to socialize, and still have Lifetime Wishes. However, they are nearing the end of the great arc of life. But they still deserve to live this final age with grace and poise.

Keep elder Sims active even if they retire from work (and enjoy a nice pension) by continuing to develop skills and relationships.

That way, when death finally does knock on your front door, there are zero regrets and the family that the elder Sim leaves behind has a wealth of memories, lessons, and Sicolleons.

Skills
Introduction

Sims love to learn-they are just waiting for a little nudge from you. Sims can pick and eventually master a variety of skills, from writing to gardening to learning how to play the guitar.

Learning a skill is a good way to shape a Sim's personality, especially if aligned with a specific trait, such as the Gardening skill and the Green Thumb trait.

Skills are also a great way for Sims who do not want a traditional career to make money and contribute to the household.Some skills can also be treated as part-time jobs, like growing harvestables or working on a novel.

Development

Any Sim can learn any skill-all it takes is a time commitment and a drive to be the best. Some traits help a Sim master a skill sooner or at least more efficiently. The Bookworm trait lets Sims read faster, which helps speed the process of learning from books.

There are ways to speed skill development though, and some skills actually help out with the development of other skills.

Skills such as Fishing and Gardening are intertwined because the fish caught while practicing the Fishing skill can fertilize harvestables that boost your Gardening skill.

Quality fish caught with higher Fishing skill also boost the quality of recipes cooked while practicing the Cooking skill.

Some skills can be first learned by reading a book or taking a class, which gives you a full level boost.

Learn the first few levels of a skill by doing. When the levels are getting harder to attain, attend a class or pick up a book. You will reduce the time required to reach that next level.

Use public equipment whenever possible to save money. The Athletic skill, for example, is improved by using gym equipment. You can buy gym objects, but why not head to the gym and use their stuff for free? While there, you can also meet other Sims and begin socializing.

Sims learn a little faster when they are in a good mood, so do things that give Sims positive moodlets before and while trying to master a skill.

For example, learning the Logic skill by playing chess at the park can give your Sim the Comfy and Beautiful Park moodlets.

Cheap equipment can slow skill development. At first you may only be able to afford a cheap stove, for example. But when you can afford it, trade up. Your Sim will learn a little faster.

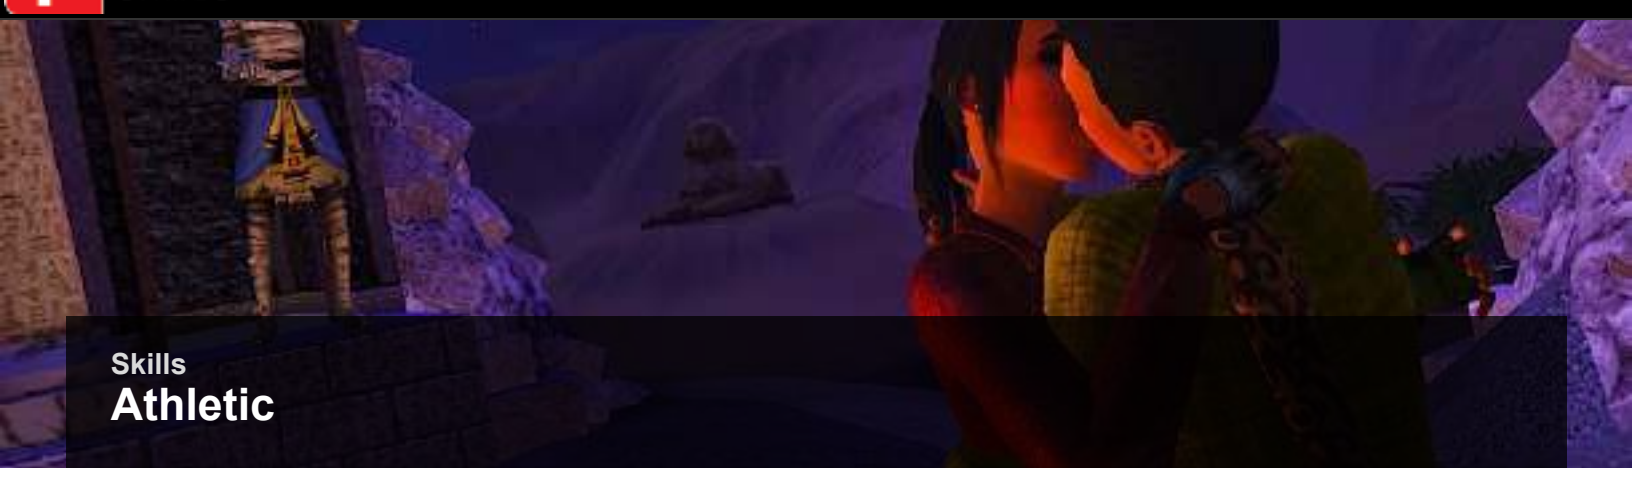
Skill Journal

Sims don't start out with any skills. When a skill is first learned, it is added to the Skill panel, and an entry in the Sim's Skill Journal tracks the development of the skill. The journal charts more than current skill level, though.

Skills that produce tangibles, such as Writing or Painting, have each created work logged in the journal. Other journal entries track time spent doing various activities.

The Skill Journal also details Skill Challenges, which are specific titles bestowed on a Sim if they complete a set of requirements.

Sims who complete a Skill Challenge are rewarded with a special benefit. The journal takes the guesswork out of each challenge because the requirements are expressly detailed.



Skills
Athletic

Want to feel the burn? Develop the Athletic skill to positively affect your Sim's health in a variety of ways, from body shape to longevity. There are two types of exercise: strength and cardio.

Using the weights improves muscle definition, while cardio drops pounds.

Acquire by: Take Athletic Class, Use Exercise Equipment, Swim, Read Athletic Book, Workout with TV, Workout with Stereo

Development tools: Shut-In Treadmill, Exercise Queen, Pool, TV, Stereo

Development Benefits

Developing the Athletic skill is essential for the Professional Sports career, but it's also useful for the Law Enforcement career. If Sims want to excel at work, they must hone this skill on home equipment, at the gym or pool, or on the machines at the stadium.

Sims can also exercise at home with the TV or a stereo, but the workout is not as effective as one with dedicated equipment. The higher the Sim's skill, the longer they can exercise without earning the Fatigued moodlet.

Here are the benefits of developing the Athletic skill:

Level 1: As soon as Sims hit the first level of this skill, they can choose to jog to locations as exercise.

Level 3: Sims can earn the Pumped moodlet from extended workouts once they reach level 3.

Level 5: Once Sims reach level 5 of the development ladder, they also run faster when directed around town on foot via the Go Here interaction.

Level 6: At level 6, athletic Sims learn the Train interaction, which lets them help other Sims improve their Athletic skill. It requires an exercise machine.

When another Sim is getting trained by a level 6 athlete, the exercising Sim loses weight and gains Athletic skill faster than if they were exercising alone.

As the Athletic skill is developed, Sims earn new "tones" for workouts. These special tones modify a workout, which can lead to earning or avoiding certain moodlets.

The Don't Break a Sweat tone is good for minimizing the amount of Hygiene decay so the Grungy moodlet doesn't kick in as soon.

Use these tones to get the best possible workout for the current situation:

Don't Break a Sweat (Level 1): Bad Hygiene is a real problem with extended workouts. Use this tone to work out without a heavy Hygiene decay.

Good Pacing (Level 3): Good Pacing lets you increase the length of a workout before the Fatigued moodlet takes effect.

Push Self (Level 5): Use Push Self to increase the speed of building muscle, dropping pounds, and gaining skill. However, after Push Self is used, Sims wake up with the Sore moodlet.

Quick Burst (Level 7): Quick Burst allows your Sim to get a lot of body shape change and skill much faster than usual, but the Sim gets fatigued and sore much more quickly as well.

Working out with other tones until fatigued will always yield more skill and body shape change than working out until fatigued using Quick Burst, but Quick Burst gives you faster skill gains.

Skill Challenges

Body Builder: Body Builders have dedicated at least 60 hours to strength workouts. This dedication pays off, because they are never fatigued after strength workouts.

Marathon Runner: Marathon Runners must run at least 500 kilometers before they earn this title. However, accomplishing this incredible feat guarantees them a longer, healthier life.

Fitness Nut: Fitness Nuts have spent 75 hours focusing on cardio workouts. All that time experiencing the burn means they are no longer fatigued after cardio workouts.

Skills
Charisma

Everybody knows someone who can breeze into a room, seamlessly enter any conversation, and suddenly become the focal point. The key to such feats is Charisma.

This skill is essential for Sims who want to effectively socialize. Tuning this skill unlocks new social interactions that simplify befriending other Sims and developing meaningful relationships.

Acquire by: Take Charisma Class, Read Charisma Manual, Practice Speech in a Mirror

Development tools: Books, Socials, Mirror, Parties

Development Benefits

Enhancing the Charisma skill opens exciting new avenues of conversation as well as a special social that guarantees a smooth recovery from any conversational snafus.

However, developing the skill requires more than just taking a class and then practicing your charismatic moves with a book or by talking into the mirror. It requires making friends and maintaining relationships during the course of the skill development.

Each level of the skill requires a specific number of friends and relationships. Without these connections, you cannot advance up the skill tree, no matter how long you practice that wolfish grin in the mirror.

Here are the number of friends and relationships required to develop the Charisma skill:

Charisma - Development

Level	Required Friends	Required Relationships
1	0	0
2	0	2
3	1	3
4	2	4
5	3	6
6	4	8
7	5	10
8	6	15
9	8	20
10	10	25

Tip

Sims who develop the Charisma skill increase the effectiveness of social interactions at work, such as Meet Co-Workers or Suck Up to Boss.

Note

Whenever you use a positive social, the Charisma skill gets a little boost.

Practice your Charisma skill by working on your speech in the mirror at home.

Charismatic Sims get additional greetings that start a conversation right, such as Amusing Introduction and Friendly Introduction. These greets are more potent than regular greets.

As the skill develops, more greet modifiers appear that increase the social weight of the greeting and can steer the conversation. Here are the modified greetings with each advancing level:

Charisma - Greetings

Level	Greet Modifier	Type of Greet
1	Friendly	Friendly
2	Amusing	Funny
3	Interesting	Impressive
4	Flirty	Romantic
5	Affectionate	Romantic
6	Funny	Funny
7	Impressive	Impressive
8	Hilarious	Funny
9	Loving	Romantic
10	Hot	Romantic

Three special socials unlock as you develop the Charisma skill. Once you reach a specific level, you learn these new socials:

Charming Introduction (Level 1): Sometimes, introductions are the toughest part of the conversation. Sims with high Charisma levels become more adept at introductions, as seen by the modified greets. Once charismatic Sims reach level 10, their Charming Introduction rockets them into Friend status right away.

Get to Know (Level 3): This social helps with discovering the traits and interests of other Sims. Once learned, this social becomes more powerful as the Sim approaches level 10 of the skill. Eventually, there is no possibility of rejection when inquiring about traits and interests.

Smooth Recovery (Level 5): Oops. You said the wrong thing. If you have the Smooth Recovery social, you can try to revive the conversation. If may not always work, but as the skill nears level 10, the chance of success increases.

Skill Challenges

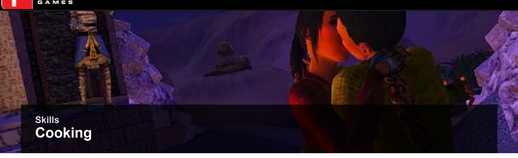
Celebrity: Celebrities are Acquaintances with at least 25 local Sims. Celebrities build relationships faster due to a hefty starting relationship bonus.

Personable: Personable Sims have learned at least 50 traits of their friends and neighbors. They learn traits more quickly when conversing with new people.

Super Friendly: Super Friendly Sims can honestly say they have at least 20 Friends. It seems like an impossibly large number of relationships to juggle, but for Super Friendly Sims, friendships never decay.

Everybody's Best Friend: To be Everybody's Best Friend, have at least 10 Best Friends. Your Friends skip Good Friend and jump immediately to Best Friends.

Comedian: Comedians have successfully told 100 jokes, which amounts to quite a few laughs. Jokes told by Comedians rarely fall flat.



Skills
Cooking

Save for using the bathroom and sleeping, no activity is more crucial to a Sim than eating. Food is a central part of every Sim's life, so having a Sim around who can actually cook is a boon to everybody's mood.

However, very few Sims are awesome in the kitchen right away—even those with the Natural Cook trait. Cooking must be practiced. It's hard work, but it has great rewards. Very few things offer a pick-me-up quite like a good meal.

Acquire by: Class, Prepare Meals, Read Cookbook

Development tools: Books, Meal Preparation Interactions, Foodstuffs, Recipes

Development Benefits

Sims must eat to survive. At first, Sims have access to just a handful of recipes, but can also just grab quick meals out of the fridge. Quick meals have zero prep time, are eaten quickly, and reduce hunger.

However, quick meals and snacks do not help develop the Cooking skill, nor can they be served to groups of Sims like a full meal.

Tip

Ditch the cheap stove as soon as possible so you stop getting the Uneven Cooking moodlet.

Plus, more expensive stoves help with both the speed of preparing a recipe and the quality of the end result.

The shortcomings of quick meals make developing the Cooking skill so important. Not every member of a household needs to excel at the skill, but a general acquaintance with it is very useful.

Prepared meals build the Cooking skill while being made, can serve groups of Sims, and if made well, can improve mood.

Quality of Food

As the Sim develops the skill, the food they make improves. The more recipes learned also improves the variety of dishes served, which has a positive effect on every Sim who eats them.

When a Sim first tries to cook a recipe, there is a good chance they will fail and create a disgusting version of the dish. It is still edible, but it hits Sims with a negative moodlet.

A recipe's quality is affected by the Sim's level of Cooking skill and the number of times they've cooked the dish. Eventually, a dish the Sim once botched will provide great happiness, inspiring moodlets such as Good Meal and Amazing Meal.

Tip

Recipes that use harvestables grown by a Sim with the Gardening skill also use the quality of the harvest to determine the quality of the meal. The better quality the harvestable, the better the meal.

Recipes Learned

Two types of recipes are opened by developing the Cooking skill: learned recipes and acquired recipes. Learned recipes are purchased in the bookstore, but cannot be opened until the skill reaches a specific level.

The acquired recipes are those automatically gifted when the Sim reaches a specific cooking level.

learned recipes

Recipe Name	Level Required

Note

All recipes are tracked in the Cooking Skill Journal, including the number of times each recipe has been made.

Tip

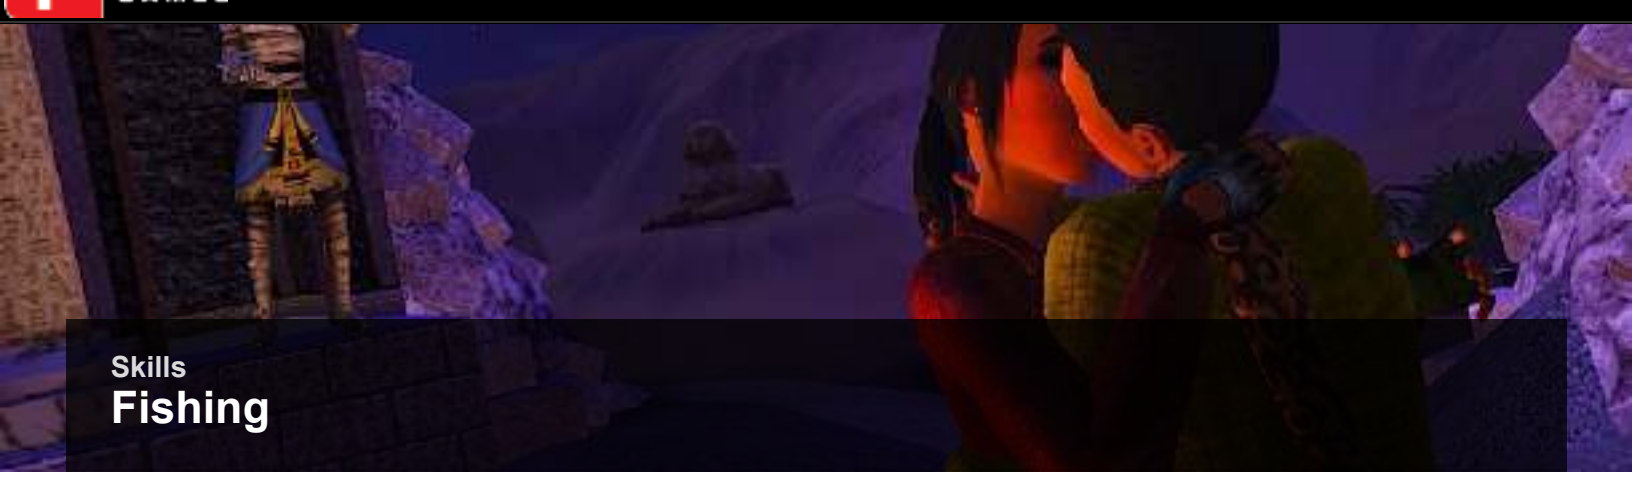
At level 10 of the Cooking skill, you can learn the coveted Ambrosia recipe. This special recipe requires Baked Angel Food Cake and Deathfish. If Ambrosia was made properly, eating it will extend your Sim's life a little during the current age.

Skill Challenges

Star Chef: Star Chefs have prepared at least 50 meals, so they clearly know their way around the kitchen. The dishes they prepare are higher quality and thus more pleasing.

World-Class Chef: World-Class Chefs have prepared at least 75 dishes and are masters of the kitchen. World-Class Chefs prepare meals significantly faster.

Menu Maven: Menu Mavens have learned to prepare all recipes. Recipes are earned by improving the Cooking skill and can be purchased at the bookstore. Menu Mavens prepare higher quality food.



Skills

Fishing

The Fishing skill is good for three things: keeping food on the table, earning money, and relaxing.

Sims with the Angler trait have a head start on other Sims who pick up a rod and reel, but any Sims can take a class to advance the Fishing skill or just plop a bobber in the water and start learning through experience.

Acquire by: Take Fishing Class, Read Fishing Book, Fishing

Development tools: No tools needed

Development Benefits

The Fishing skill begins one of three ways: reading a book, taking a class, or just going out to a body of water and using the Fish interaction.

Once the Fishing skill is underway, the skill increases either by continued reading or continued fishing. Just having a hook under the surface is enough to develop the skill, but this is a slow way to learn.

The skill actually gets a bump when you catch a fish. And the bigger the fish, the bigger the skill bump.

Tip

Certain traits in addition to Angler affect the Fishing skill. Loves the Outdoors Sims get great moodlets from just being outside and fishing. Hates Outdoors, Easily Bored, or Clumsy dampen the ability to catch fish.

When a fish is hoisted out of the water, the Sim holds it up and the weight of the fish is automatically logged in the Skill Journal. If it’s a new type of fish, that is also noted.

Once the Sim reaches level 3 with the Fishing skill, they can choose the Bait interaction at the water’s edge to use a specific type of bait while fishing. Bait is essential if a Sim hopes to catch more than just the basic fish.

Gaining levels also unlocks the ability to catch certain fish. However, just unlocking a type of fish does not guarantee actually catching it.

Using any bait slightly increases the chance of catching all fish. It also drastically increases the chance of catching the fish that loves that specific bait type.

Higher quality bait tends to catch bigger fish, but only for fish that specifically like that bait. So use Perfect bait to catch the biggest fish.

You can also use bait to catch fish that are somewhat higher level than your Sim’s Fishing skill. Sims can catch fish up to 3 levels higher than their skill by using the right bait, although it will be harder to catch those fish until the Sim is higher skill.

Each fish has one favorite type of bait, and you should use that bait to catch that fish. Here is a table with the bait that each type of fish prefers:

FISHING

Fish	Skill Level Required	Commonality	Locations Found	Preferred Bait	Minimum weight	Maximum weight	Value at min weight	Value at max weight	Skill Points for Catching
Minnow	0	Common	Lakes, Ocean/Hatchery	Apple	0.1	0.5	5	11	120

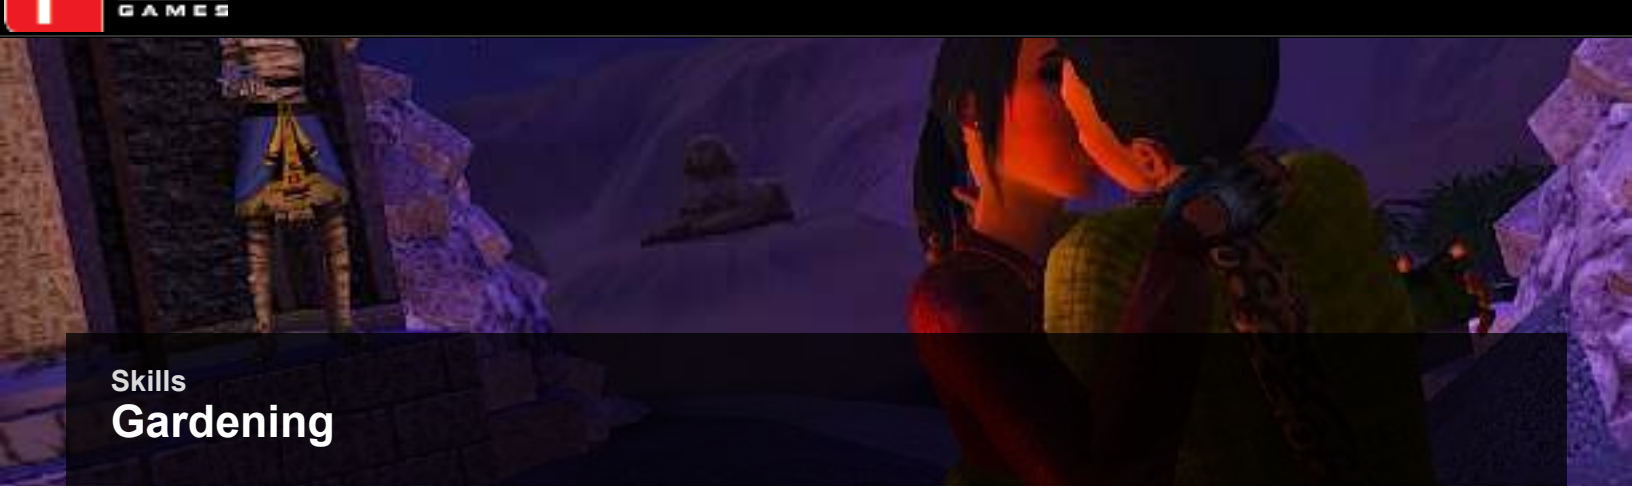
Deathfish	10	Rare	Graveyard	Angelfish	20	80	200	1,000	1,500

Skill Challenges

Amateur Ichthyologist: Amateur Ichthyologists have caught at least one of every fish type. Their deep understanding of marine life helps them catch the bigger fish.

Commercial Fisherman: Commercial Fisherman have caught at least 350 fish. They catch more fish in less time than normal Sims.



Skills
Gardening

Gardening is a great skill for Green Thumb Sims, Sims who want to cook, and Sims who like the outdoors. This skill tree lets you turn a backyard into a harvestable-growing paradise. But gardening is a lot of work and takes time to master.

Acquire by: Take Gardening Class, Read Gardening Book, Plant Seed

Development tools: Gardening Books, Seeds

Development Benefits

Learn the Gardening skill by taking a class or reading a Gardening book. You can also plant a seed and cultivate it to start developing the skill.

Once the skill has been acquired, Sims can choose the Plant interaction from seeds and other harvestables in their personal inventories.

Once a seed has been planted, Sims can water it. As they continue leveling, they unlock two more critical interactions: Weed and Fertilize.

Here are the unlockable interactions or specials for the development of the Gardening skill:

Weed (Level 2): Once the Weed interaction is unlocked, Sims can pull up choking weeds before they damage a harvestable. The higher the skill level, the less time it takes to clear weeds around a plant.

Fertilize (Level 3): Fertilizing is key to growing the best harvestables. No one fertilizer is better for a particular plant. The quality of the fertilizer is what affects the potential growth of the harvestable.

Uncommon Seeds (Level 5): Once the Sim reaches this level, they can plant uncommon seeds.

Revive Plant (Level 6): If a Sim has the Green Thumb trait, this interaction is unlocked at level 6. A dying plant can be rescued with a pretty high success rate by using this interaction on it.

Rare Seeds (Level 7): Once the Sim reaches this level, they can plant rare seeds.

Special Plants (Levels 8, 9, and 10): At level 8, you get the first of three special gardening opportunities from the chef at the bistro. There is one opportunity per level: 8, 9, and 10. Once all three have been completed, the Sim receives Omni Plant seeds and the ability to plant them.

Note

What's an Omni Plant? Imagine a plant that grows into whatever fertilizer you give it. Give the Omni Plant a book and the Omni Plant will soon blossom great texts.

Tip

Grow garlic and watermelon for simple cash crops. Just keep planting the highest quality of these harvestables and churn that garden until it becomes a money machine.

The better care you give a plant and the higher your Gardening skill level, the better quality fruit a plant produces. Plants range from Horrifying to Perfect, just like prepared recipes from the Cooking skill. Better quality harvestables are worth more when sold.

To raise the best harvestables, you must show no mercy with your plants. Keep growing as many as you can and dispose of the lowest quality ones, so you keep breeding higher quality harvestables.

Combine this tactic with raising your skill level to keep growing better harvestables. Using quality harvestables in your cooking improves the quality of recipes, which in turn gives out better meal-related moodlets.

Seeds

Sims need seeds to grow harvestables. Not all seeds are easy to grow into successful plants, though. Sims must level up the Gardening skill to plant all types of seeds: common, uncommon, and rare.

Many seeds can just be bought from the EverFresh Supermarket, such as grape or tomato. Just buy the fruit and then plant it. However, Sims can also find seeds by exploring.

Every morning, there are new seeds in new locations, so look around daily to see what's on the ground.

The farther away from houses and commerce buildings Sims look, the more likely they are to find uncommon and rare seeds. Seeds are unknown when found.

To discover what the seed will grow, it must be planted and nurtured. Once you grow a harvestable from a found seed, you recognize that seed in the wild.

Fertilizer

There are many different types of fertilizer to use on your plants to help them grow into high-quality harvestables. Here's a full list of the best fertilizers:

FERTILIZERS

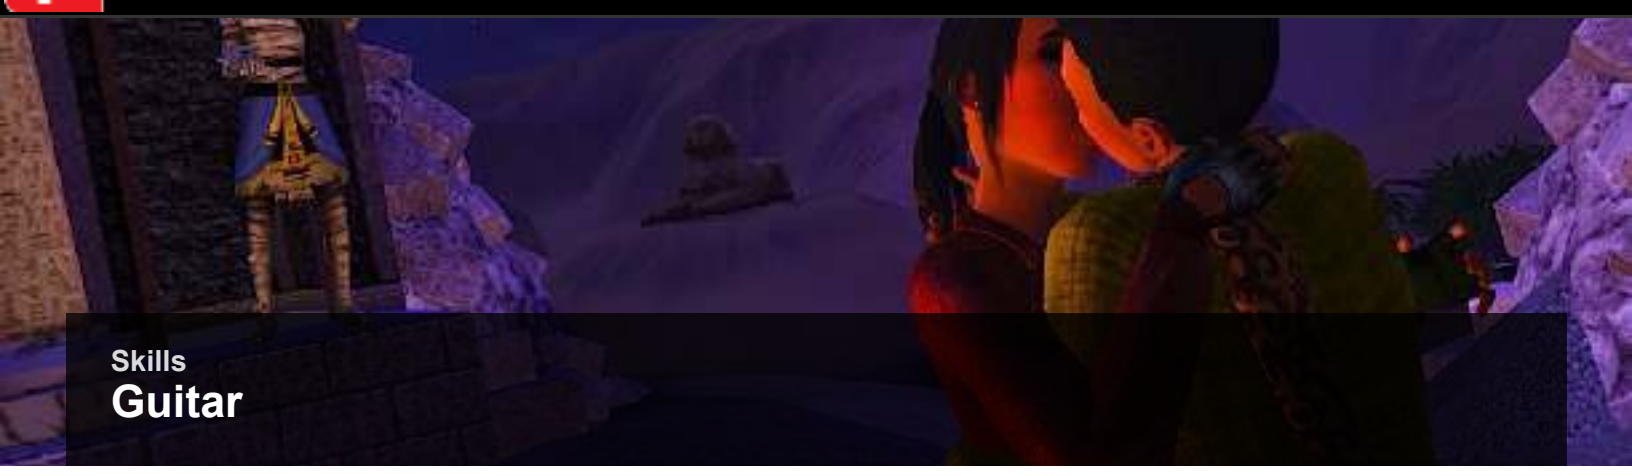
Ingredient	Effectiveness	Fish	Effectiveness
Cheese	1	Anchovy	1
Burger Patty	1	Goldfish	1
Egg	1	Alley Catfish	1
Lettuce	1	Rainbow Trout	2
Tomato	1	Minnow	3
Onion	1	Jellyfish	3
Potato	1	Tuna	3
Apple	1	Salmon	4
Lime	1	Black Goldfish	4
Grapes	1	Swordfish	4
Watermelon	2	Red Herring	5
Steak	3	Tragic Clownfish	5
Bell Pepper	3	Siamese Catfish	5
Garlic	3	Piranha	5
Flame Fruit	3	Blowfish	5
Life Fruit	4	Shark	6
		Lobster	6
		Angelfish	7
		Vampire Fish	7

Skill Challenges

Master Planter: A Master Planter must plant every type of plant available. Once you have mastered the varieties, you can reduce weed growth significantly on future plants.

Botanical Boss: Botanical Bosses must harvest at least 75 Perfect fruits and vegetables. The plants of Botanical Bosses almost never die from neglect.

Master Farmer: Master Farmers have harvested at least 650 fruits and vegetables. The plants of Master Farmers remain watered and fertilized longer, meaning their gardens are more efficient.



Skills
Guitar

Who doesn't love the gift of music? A smooth jam lilting on a summer's breeze brings joy to all who hear it. So why not become the source of such aural pleasures by picking up the guitar and developing this skill.

The Guitar skill can be enjoyed by any Sim, not just those who have embarked on the Music career.

Acquire by: Take Guitar Class, Play Guitar

Development tools: Guitar

Development Benefits

To get started on the Guitar skill, take a Guitar class or just pick up a guitar for the Sim's household. The guitar can slide into the Sim's personal inventory, so they can take it to the park or the beach.

Once Sims know how to play, they only have a few available compositions. Only by leveling up the skill does the Sim learn more music and eventually reach a point where they can buy sheet music from the bookstore and really play some impressive tunes.

As the skill improves, the Sim gets better at playing music and makes fewer mistakes. Here's the level progression of the Guitar skill:

Level 1–4: Sim learns at least two basic practice-level songs per level.

Level 5: Sim earns three new songs—real songs that other Sims enjoy listening to.

Level 6–10: Sim learns at least one new song per level and performs it without fail.

Level 5 is particularly important to this skill. At this level, the Sim stops just noodling around with the Play interaction and moves up to the Perform interaction.

Other Sims get the Enjoying Music moodlet if around a performing Sim. Level 5 Sims can also Serenade other Sims, which is a romantic social that can aid a romantic conversation following the song's conclusion.

Guitar-playing Sims can also Play for Tips in public locations. This is not the most lucrative activity, but it does add some extra change to the household bank account.

The higher your skill, the more you make in tips. To really make money with this skill, practice hard and be sure to socialize. Soon, you will receive opportunities to play at parties or venues. That's where the real money is.

Sheet Music

You can buy sheet music from the bookstore or earn it from opportunities and give it to your Sim to practice. To learn from sheet music, left-click on the music from the Sim's personal inventory and select the Learn interaction.

The Sim starts playing the song and when the meter is full, the Sim knows the song by heart and can perform it.

Caution

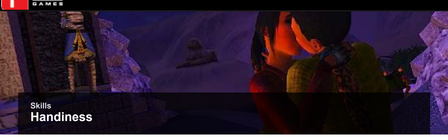
Sheet music cannot be shared among Sims. Once sheet music is learned, it disappears.

Skill Challenges

Master Guitarist: Master Guitarists learn to play every song awarded to them and available for purchase at the bookstore. After learning so many songs, they receive a special master track!

Guitar Star: Guitar Stars must play at 10 parties and venues in the town to earn their title. Afterward, they earn more money for tips and performances

Money Maker: Earn §5,000 playing the guitar to earn a new master track to perform. Money can be earned through tips or by completing opportunities.



Skills
Handiness

Stuff breaks. But when it does, it's usually inconvenient. Sims with the Handiness skill are suddenly valuable folks to have around.

The Handiness skill is good for repairing broken objects, and can even ensure against future calamity.

Acquire by: Take Handiness Class, Read Handiness Book, Try to Repair an Object

Development tools: Handiness Skill Books, Tinkering with Objects, Repairing an Object, Upgrading an Object

Development Benefits

Once the Handiness skill has been acquired via a course or a book, Sims can further develop it at home by either Tinkering with objects or attempting to Repair a broken object, such as a stove, stereo, dishwasher, or toilet.

Any mechanical or electric object has the potential to break after every use. When an electrical object breaks, it typically smokes or sparks. A broken toilet is clogged and refuses to flush. When this happens, the Repair interaction becomes available.

When the Repair option is selected, a handy Sim will start working on the object. Depending on the level of the Handiness skill, the Sim risks getting electrocuted by the object.

This causes the Singed moodlet, which drops the overall mood. (Remove this moodlet with a bath or shower.) The higher the Handiness skill, the less chance the Sim will be shocked while repairing the object.

This is the risk of trying to fix an electrical object when the Handiness skill has not been adequately developed.

A repaired object is not back to 100 percent. Once an object breaks, it has started its steady downhill slide. The chance of a repaired object breaking again goes up.

The more it breaks and is repaired, the higher the chance of repeat breaks until the object finally goes absolutely kaput and must be replaced.

Tip

If you're lucky, insurance will kick in a few Simoleons to cover the costs of replacing an object destroyed by fire.

UPGRADING

Once the Handiness skill reaches level 3, the Sim learns the Upgrade interaction. Upgrading lets a Sim add a new effect or function to an existing object.

This is not a universal interaction once learned. Subsequent levels after earning the Upgrade interaction unlock extra upgrades that the handy Sim can install.

Upgrades can provide many benefits, from making an object unbreakable or self cleaning or fireproof to strictly improving it, for instance the stereo speakers can be improved to produce a bigger Enjoying Music moodlet.

Here is the list of objects that can be upgraded, the function of the upgrade, and the level required to perform the upgrade:

Level	Object	Upgrade	Failure Effect
3	Inexpensive Shower	Prevents ever getting Cold Shower moodlet	Causes puddle that must be mopped
3	Dishwasher	Silences noisy dishwashers that disturb other Sims	Dishwasher just makes louder noises while running
3	Doorbell	Change doorbell to a pleasing sound	Doorbell makes awful noise
3	Stereo	Increase area of effect	Electrocution
3	Window	Improves insulation which lowers bills	None
4	Stove	Make stove fireproof so it never catches fire	Stove catches fire and burns up
4	Coffeemaker	Add timer function so coffee is ready in morning	Electrocution
6	Trash Compactor	Improve capacity	Electrocution
6	Shower	Improve water pressure to cause the Exhilarated moodlet	Causes puddle that must be mopped
7	Gas Fireplace	Fireplace starts when Sim enters room	Fire breaks out in fireplace
7	Stove	Improves food quality	None
8	Stereo	Increase mood gain of Enjoying Music	Electrocution
8	Stereo	Wire House with Speakers so music plays in all rooms	Electrocution
8	Computer	Improves graphics to make games more fun for Sims	Electrocution
9	Grandfather Clock	Increase value of clock	Decrease resale value of clock
6 through 10	Television	Unlock extra channels. Higher the skill, the more channels unlocked.	Electrocution

Tip

Each object can only have one upgrade at a time, so choose wisely.

At level 3, a Sim can add a self-cleaning upgrade to objects that get dirty, such as the stove or refrigerator. At level 6 of the skill, Sims can upgrade any mechanical/electrical object so that it is unbreakable with the Prevent Breakage interaction.

This upgrade takes time, but doing so helps develop the skill. Success with these upgrades is not guaranteed.

If the upgrade fails (there's a small chance of this happening) then the object is either broken beyond repair or gets dirty and must be cleaned.

Finally, at level 10, the Sim gets a membership card to a guild. Build Mode objects are then 25 percent off.

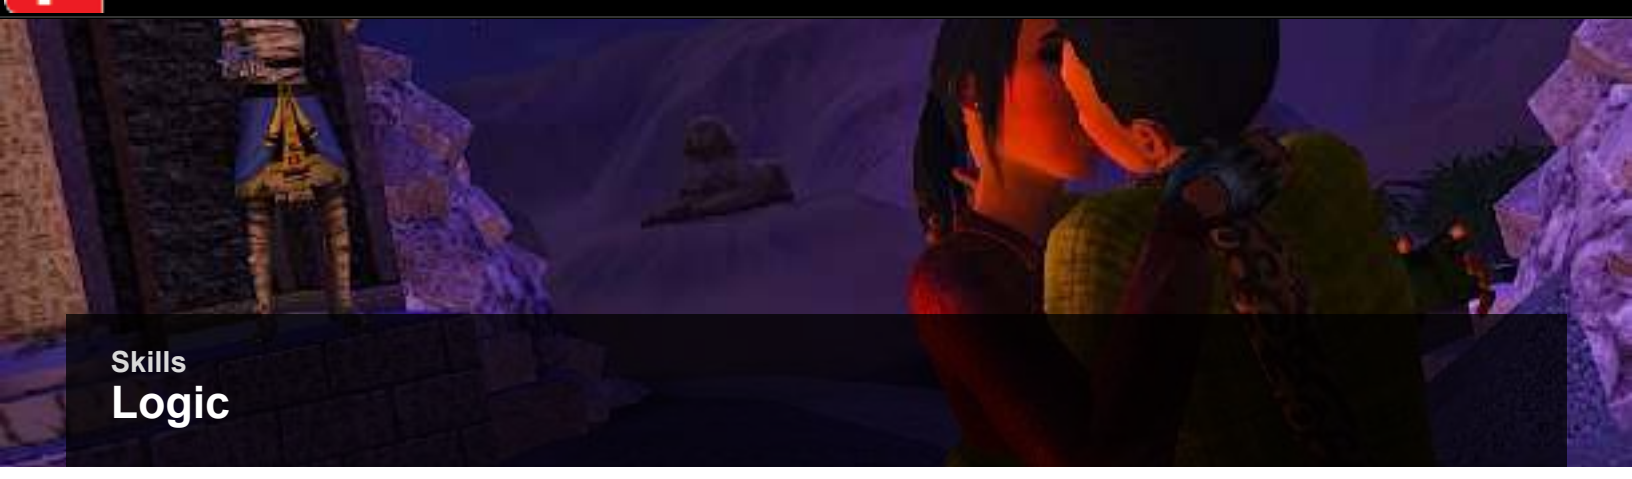
Skill Challenges

Electrician: Electricians have repaired at least 10 electrical objects. The experience gained means they will never be electrocuted by an electrical object again.

Plumber: Plumbers have repaired at least 10 plumbing objects. They are so good at repairs that plumbing objects repaired by them never break again.

Tinkerer: Tinkerers have finished at least 10 unique upgrades on household items.

Installing the "Unbreakable" upgrade on multiple objects only counts as one unique upgrade, so it helps to experiment with different upgrade options! Tinkerers never fail when upgrading objects.



Skills
Logic

Intelligence is always a treasured asset, so pursue the Logic skill to improve your Sim's brainpower. The Logic skill involves the use of the telescope and chess set objects, but also gives Sims additional computer interactions.

Acquire by: Take Logic Class, Read Logic Book, Play Chess, Use Telescope

Development tools: Chess Set, Telescope, Logic Books, Computer

Development Benefits

The development of the Logic skill starts with attending the Logic class at the science facility, reading a Logic book, or playing chess at a chess board (at home or in a public location).

This skill has many benefits beyond the ability to win chess matches.

For example, this skill unlocks the Solve the Unsolvable interaction with the computer, which gives the logic-minded Sim a chance to earn some Simoleons at home. (This interaction is not a guaranteed success.)

As this skill is developed, it shortens the time it takes to develop other skills, with the exception of Athletic and Charisma. This skill also increases the chance of winning all varieties of games. Winning games gives Sims a mood boost.

At level 3 of the Logic skill, Sims have a new interaction with the telescope. They can now do more than just Stargaze, they can Search Galaxy.

This is another money-making opportunity for Sims, as every new celestial body found earns them a little extra cash from the science facility. New finds are logged in the Skill Journal, too. When a Sim finds a new object in the heavens, they can name it.

At level 5, Sims unlock the ability to Tutor other young Sims: children and teens. Tutoring not only develops the Logic skill, but it helps the student and can provide a mood bump.

Tutored Sims always do better in school, so if a child suffers from lagging grades, interacting with a logical Sim is a great remedy. If the mentored student has the Logic skill, too, they develop the skill while being tutored, but at a slower pace.

Tip

There is a "hidden" skill: Chess. Like other skills, the more you play chess, the better you get at it. You will soon start winning more and more games.

At level 5 Logic skill, Sims can start talking about the things they find while using the telescope. Talking about a celestial object is a friendly social that improves the building relationship between two Sims.

However, for a real social bump, tell a Sim that you named a celestial object after them. This instant relationship builder helps with making new friends or developing a romantic relationship.

At level 10 Logic skill, the Sim can tutor any other Sim from teen to elder in any of the skills with the exception of Athletic and Charisma. The catch is that the logical Sim must also have the skill they are teaching and they cannot teach past their current level.

For example, if Catherine has level 5 Writing skill, she cannot tutor Chris past level 5. This development process is much faster than reading a skill-related book but not as fast as actually practicing the skill.

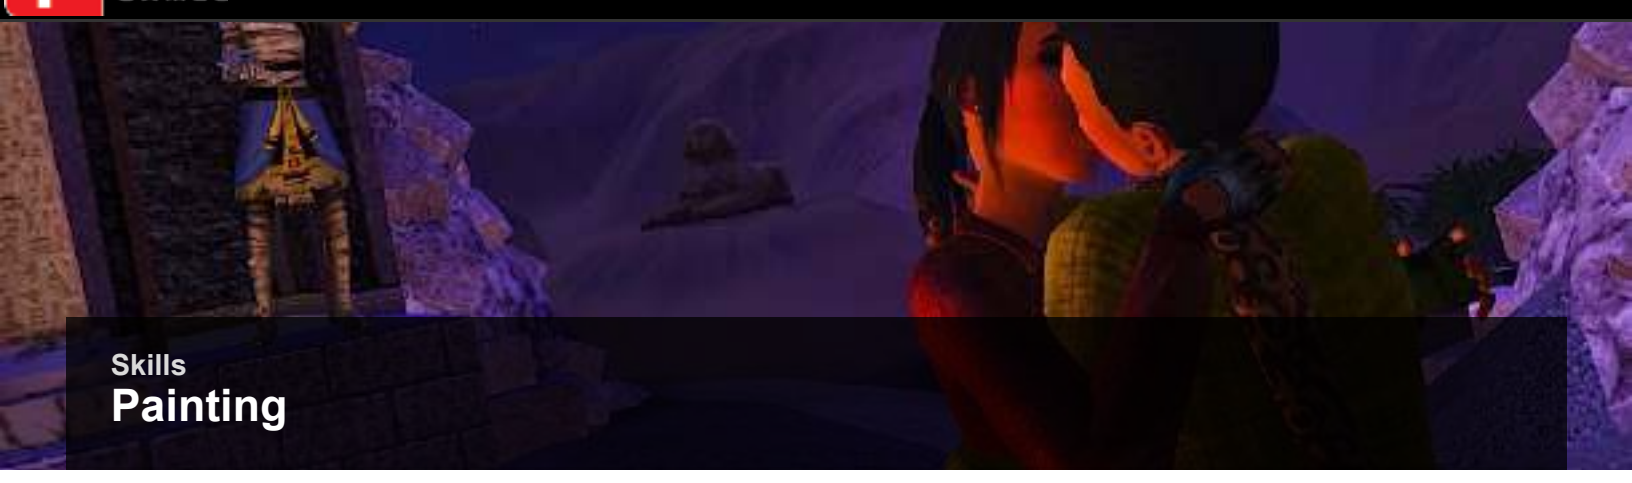
Skill Challenges

Grand Master: Chess Grand Masters have reached the coveted fifth level of the competitive chess circuit. Those who engage Grand Masters in chess improve their abilities in Logic and Chess twice as quickly.

Celestial Explorer: Celestial Explorers have discovered 20 celestial bodies through their telescope. Their extensive knowledge of the heavens allows them to discuss the stars with their friends and neighbors.

Teacher Extraordinaire: Teachers Extraordinaire have spent at least 20 hours tutoring young Sims. Because of this, they are twice as effective when tutoring.

Skill Professor: Skill Professors have spent at least 30 hours tutoring other Sims in different skills. Because of this, they are twice as effective when teaching skills to others.



Skills
Painting

One of the hardest skills to develop, Painting is also one of the most rewarding. Watch in wonder as Sims create works of art before your very eyes, working from inspiration they gathered from themselves or your own input.

Like Writing, this is a personalized skill that requires a lot of direction from you. But once this skill is mastered, it's not only satisfying, but very lucrative. Great paintings can sell for a pretty penny.

Acquire by: Take Painting Class, Practice at Easel

Development tools: Easel

Development Benefits

The Painting skill is actually fairly easy to acquire, but it is not exactly cheap. You must either pay for a Painting class at the community school or spring for an easel.

With an easel, use the Practice interaction on the easel to pick up a brush and just mess around.

After a considerable amount of time, the skill is acquired. Once level 1 of the Painting skill has been acquired, though, the development path is pretty clear: practice, practice, practice.

The Dabble interaction is replaced by Practice and you can choose the size of the canvas you want the Sim to practice on. The smaller the canvas, the faster the painting is completed.

The size of the canvas also factors into the price a painting fetches, but more on that in a moment.

The Practice interaction disappears when there is a canvas on the easel—then you can only continue practicing unless you chose to Scrap the Painting and start all over with a new one.

Once a Painting is completed, a Sim can either Sell it and earn a few Simoleons, put it in personal inventory, or drag it right onto the wall. You can also give the painting a name.

At level 5 of the skill, Paint replaces Practice as the interaction with the easel. Now the Sim can start earning money with this skill.

As soon as the Sim unlocks skill level 6, they can paint a Brilliant painting, which is worth a decent number of Simoleons and can add environmental bonuses to rooms and inspire the Decorated moodlet.

At level 9, the Sim has the chance to create a Masterpiece painting, which is even more valuable than a Brilliant painting.

The value of a painting is determined by several factors. The canvas size partially determines the value, as does the number of paintings a Sim has produced. Brilliant or Masterpiece paintings get massive value boosts, too.

There is a degree of randomness in a painting's value. One somewhat morbid factor greatly enhances a painting's value: death. If the painter is deceased, the painting's appreciation accelerates.

Tip

At skill level 5, a Sim's paintings increase in value over time. Keep checking the painting to see its current appreciation.

Brownie Bites

This is a little sinister, but it's a great trick. If you have an elder Sim in the house, make them a painter.

Concentrate on that skill. Make them painting factories.

Get them to produce as many quality works as possible before they die.

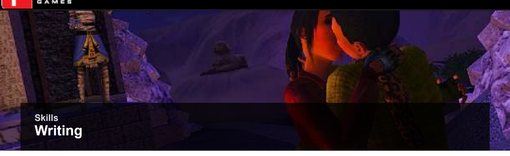
Then, once they do pass, all of their paintings are worth more!

Skill Challenges

Brushmaster: Brushmasters have painted at least 35 paintings, and as a result paint much faster than normal painters.

Proficient Painter: Proficient Painters have proven their worth by painting at least six Brilliant paintings. They then paint far more Brilliant paintings and Masterpieces than less proficient painters.

Master Painter: Master Painters have painted at least five Masterpieces. Every painting they sell is worth much more than normal paintings.



Skills
Writing

Writing is another personalized skill that is deeply involving but also rewarding. Sims who learn the Writing skill unlock a world of possibilities when they sit down to the computer.

Naturally, the Bookworm Sim has a jump on this skill thanks to the relevant trait. But any Sim with time and dedication can become a bestselling author.

Acquire by: Attend Writing Class, Read Writing Book, Practice Writing at Computer

Development tools: Computer, Books

Development Benefits

Once the Writing skill has been acquired, Sims have several new interactions at the computer. The Refine Writing Skill is a good way to continue developing the skill.

No novels come out of this activity—just skill development. Once a writer reaches level 2 of the skill, they can start writing novels.

When the Sim pushes back from the computer, the development is added to the Skill meter.

Continue Writing Novel and Scrap Current Novel are two more interactions that affect a novel-in-progress. A scrapped novel tosses out an incomplete work but the skill development remains.

Various novel genres are unlocked as the skill is further developed. The higher the genre in the skill tree, the more it is worth when published. Here are the genres, the levels required to unlock them, and the reactions they can cause it their readers:

Novel genres unlocked by Writing

Genre	# of Books Required
Fantasy	Write 3 sci-fi novels
Satire	Write 3 humor novels
Autobiography	Write 3 biographies
Vaudeville	Write 3 of each: drama, sci-fi, humor, mystery, romance

Novel genres unlocked by Skill Level

Genre	Level
Fiction	0
Non-Fiction	0
Science Fiction	1
Trashy Novel	2
Drama	3
Children's Book	3
Humor	5
Historical	6
Mystery	8
Romance	10
Masterpiece	10

Caution

You can only work on one novel at a time. If you want to start a new novel in a newly unlocked genre, you must scrap the current novel.

Royalties

A Sim who's writing a novel regularly submits chapters to an agent and gets a small stipend. It's enough to live on, but nothing extravagant.

Once a novel has been completed, though, the royalties start rolling in. When the novel is finished, the Sim is immediately told if the book is good or not and if it is a success.

The royalty amount is listed, as well as how the amount will be paid out. (Typically, royalties are paid over the course of several weeks with lump sums dropped into the household account at a specific time on a specific day.)

The royalty amount is decided by: level of Writing skill, desirability of the genre (check the Skill Journal, which also tracks the number of books written and the amount pulled in so far), and a certain degree of randomness.

The author's traits can also affect the amount of royalties paid. Here are the traits that boost the profitability of specific genres:

Traits by Genre

Genre	Trait
Trashy Novel	Flirty
Drama	Commitment Issues
Sci-Fi	Computer Whiz, Genius
Humor	Good Sense of Humor, Inappropriate, Mean-Spirited
Satire	Grumpy, Hot-Headed, Over-Emotional
Mystery	Genius
Romance	Hopeless Romantic
Historical	Perfectionist
Children's Book	Artistic, Childish, Family Oriented
Vaudeville	Bookworm
Autobiography	Charismatic, Unlucky, Daredevil, Insane, Kleptomaniac

Skill Challenges

Speed Writer: Speed Writers are so prolific that they've earned §15,000 in royalties. Speed Writers write much faster than normal writers.

Prolific Writer: Prolific Writers have written at least 20 books in their career. They are so well known that they tend to write far more Hits and Best-sellers than their counterparts.

Specialist Writer: Writers must pen at least five novels in a specific genre to be known as a Specialist Writer. Such Specialist Writers write far more Hits and Best-sellers in their particular genre than most.

Careers
Introduction

While everybody would prefer a life of leisure, you must find a source of income if you want to succeed.

There are multiple ways to rake in the Simoleons, including the advancement of certain skills as detailed earlier in this chapter.

However, there are more traditional ways of finding an income: careers.

To sign up for a career, you simply report to the building that headquarters the job, such as the military base or police station. Applying is as easy as left-clicking on the location and then choosing the offered career.

When your Sim reports to the job location, the career is immediately offered and the starting position/salary flashed on-screen. If you accept, you are given a schedule and expected to show up at the designated times.

There are multiple ways to advance a career.

Promotions are the most common benchmark of success and always come with a one-time Simoleon bonus, but there are social aspects to each career that involve getting to know co-workers, which has the potential to widen your circle of friends.

While at work, you can set the “tone” for your performance, which affects how you interact with co-workers or approach the job itself. As you advance, your schedule changes and your salary rises. Typically, there are perks or benefits for hitting certain promotions.

Tip

Going to work in a good mood boosts your chances of promotion. Go see a movie the night before work to get the powerful Enjoyed a Great Movie moodlet that lasts almost the entire next day.

Tones

Although you do not actually see what your Sim is up to when they are on the job, you can dictate their general behavior for that work day through tones. Tones include behaviors such as working hard, getting to know co-workers, and sucking up to the boss.

Some careers have unique tones, such as the Do a Side Job tone of the Criminal career.

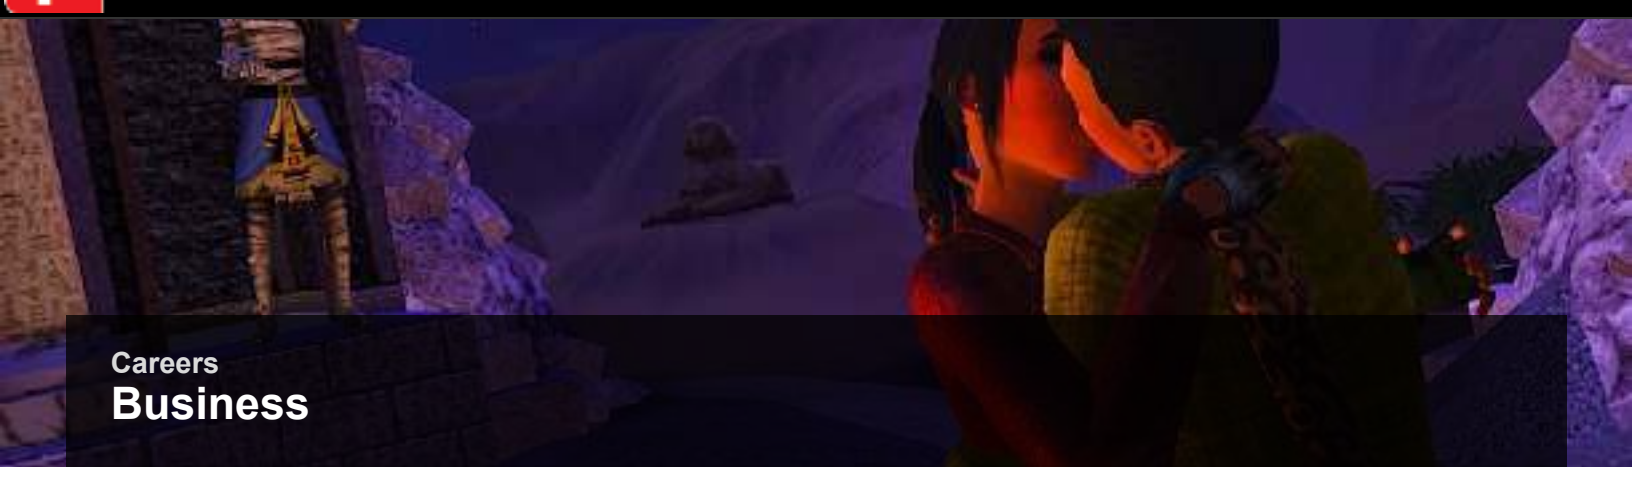
Many of these tones play into earning promotions at work, so look at the provided promotion metrics for each career to see what tones are best for the next step in that career.

Note

Not all tones are available from the first day. In some careers, additional tones are earned when you reach specific promotions.

Retiring

Later in life, Sims can retire from a career and make a pension. This pension is smaller than the wages normally made at that promotion level, but it is a great way to pull in daily income for necessary food and objects while pursuing skills.



Careers

Business

The Business career unfolds exactly as you might expect. Sims dutifully report to work in the morning to attend meetings and climb the corporate ladder.

As you approach the top of the career ranking, the requirements to reach each new promotion become harder to juggle.

But that should be expected for a career with such incredible financial rewards. You cannot coast. You must work hard, appealing to both the boss and co-workers so that one day that corner office is yours.

BUSINESS TONES

Tones	Description
Hold Meetings	Available to schedule meetings, slows performance growth
Meet Co-Workers	Build relationship with co-workers
Chat at Water Cooler	Build relationship with co-workers
Suck Up to Boss	Build relationship with boss
Power Work	Work hard to increase performance, but adds stress

Benefits and Rewards

To work your way up this career, you must have a good relationship with the boss. This can be achieved by the Suck Up to Boss tone, but this risks alienating co-workers.

This turns into a problem later in the career when your relationship with co-workers becomes a metric by which your promotion is judged.

Being charismatic can help with this career because after meeting co-workers on the job, you can then improve those relationships outside working hours.

Tip

The Business career is the easiest to master because it requires the fewest skills.

Once you reach the Division Manager promotion, you can start holding meetings and meeting opportunities come regularly.

Making these meetings becomes a critical metric for making additional promotions. Here, the career starts to consume a lot of time and attention.

One of the key benefits of this career comes at the top promotion to Power Broker. Now, you have complete control over working hours by choosing to hold meetings at your whim.

You are paid for these meetings, too, so you have control over how much money is made during that specific day. A day full of meetings is very lucrative.

This flexibility allows the Power Broker to pursue different skills or attend to a household without worrying about a heavy work schedule.

Take It Easy	Relax at work. Slower performance, but less stress.
Practice Illicit Activities	Increases athletic skill at work
Meet Accomplices	Build relationship with co-workers
Conspire with Accomplices	Build relationship with co-workers
Do a Side Job	Perform this tone to earn side cash
Grovel to Leader	Build relationship with boss

Benefits and Rewards

The Criminal career sounds shady, but it has definite benefits. For example, no one will rob the home of a Sim who's on the Criminal career track. Criminal career Sims also occasionally come home with an object in their personal inventory, snatched while out on a job.

The Criminal Sim can also use the Do a Side Job tone to earn extra cash while at work, but this takes time away from getting to better know accomplices (the equivalent of co-workers in the Criminal career), which is an important metric for earning promotions.

Tip

If you also have the Athletic skill, you can improve it by selecting the Practice Illicit Activities tone.

Thief Branch

The Thief branch of the Criminal career starts you toward becoming the Master Thief. Right away, you earn the Sneak interaction for going to a location.

When you Sneak onto a lot, other Sims do not detect you. Sleeping Sims will not wake up either, so you can actually rob while performing this interaction.

As soon as you reach the Bank Robber promotion, you receive a valuable piece of art as a bonus. At the top of the career track, the Master Thief, the Sim receives an extremely valuable statue called The Fox.

This statue can be placed on the Sim’s lot, which offers a huge environmental bonus. Whenever the Sim chooses to View the statue, they get the I Am the Best moodlet, which is a positive boost to overall mood.

Evil Branch

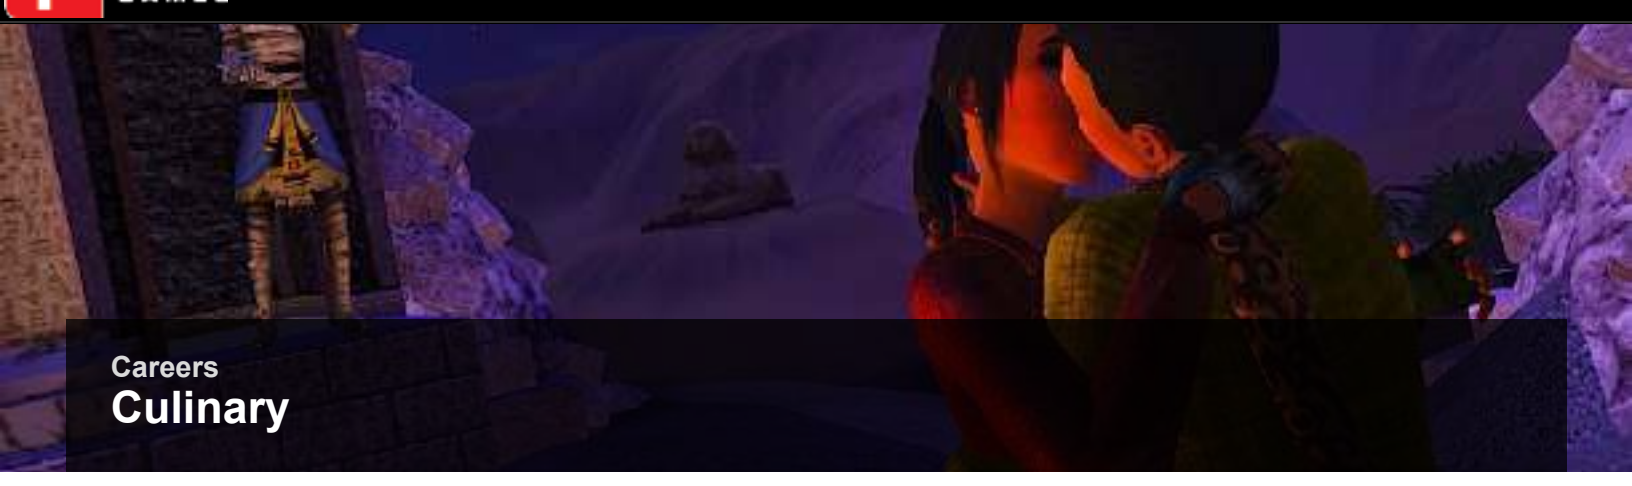
The Evil branch of the Criminal career has different rewards and a different means of reaching the top job: Emperor of Evil.

You must use the Grovel to Boss tone a lot to advance along the Evil track because the relationship with the boss is a metric used to dole out promotions.

At level 9-Super Villain-the Sim gets a black limo. But when you finally get that top promotion, you earn the Aura of Evil. This has a powerful effect on other Sims.

Criminal Sims or Sims with the Evil trait get a relationship boost from the Aura of Evil. However, the Aura of Evil has a negative effect on Sims with the following traits: Cowardly, Loser, and Neurotic.

These Sims are afraid of the Aura of Evil and will flee. Sims with the Good trait or in the Law Enforcement career will actually boo at the Aura of Evil Sim. Building a good relationship with these Sims is extremely difficult.



Careers

Culinary

Sims who want to pursue a Culinary career should head to either the bistro or the diner.

This is not one of the higher paying careers, but it does come with a lot of perks, such as the consistent development of the Cooking skill while at work and discounts at the restaurant of employment.

Work Locations: Little Corsican Bistro or Hogan's Deep-Fried Diner

Work Hard	Work hard to increase performance, but adds stress
Take It Easy	Relax at work. Slower performance, but less stress.
Practice Cooking	Increases cooking skill at work
Meet Co-Workers	Build relationship with co-workers
Hang with Co-Workers	Build relationship with co-workers
Suck Up to Boss	Build relationship with boss

Benefits and Rewards

Because cooking is such an important part of every Sim's life, the Culinary career has benefits that extend far beyond a daily paycheck. The Culinary career offers the Practice Cooking tone, which lets you advance the Cooking skill while earning a paycheck.

Using this tone may come at the expense of not hastening an improved relationship with the boss or with co-workers (essential to promotion), but being a good cook is a mood booster for your Sim and potentially all other Sims in a household.

Tip

Improving your Cooking skill is an important part of the promotion game in the Culinary career. Make sure you practice at home and don't rely on too many quick meals or snacks.

Good food is a mood booster for all Sims, so the benefit of occasionally getting free meals from work to take back to the lot is a real happiness generator.

This benefit does not happen until the Sim reaches Ingredient Taster. But once it happens, expect to see free meals on a regular basis. And if you have multiple Sims in a household, that free meal will have enough servings to satisfy all.

Dining out is another mood booster that benefits from the Culinary career. At the Sous-Chef level, Sims get a discount at the restaurant where they work.

This saves money, especially on dates, which can get pretty expensive after a while. Once the Sim reaches Executive Chef, the discount extends to both restaurants.

Sims in the Culinary career get two very cool equipment bonuses. At the Pastry Chef position, the Sim earns the food processor, which speeds up the cooking process at home.

The real prize, though, comes at the final promotion: Five-Star Chef. The Sim is awarded the Master Chef Fridge.

This fridge gives the Superior Equipment moodlet to any Sim who walks near it. Also any recipe that uses food out of the fridge will come out high quality.

Take It Easy	Relax at work. Slower performance, but less stress.
Practice Writing	Increases Writing skill at work
Discuss Latest News	Build relationship with co-workers
Hang with Co-Workers	Build relationship with co-workers
Suck Up to Boss	Build relationship with boss

Benefits and Rewards

Like other careers where a certain skill is in play, pursuing the Journalism career lets a Sim advance their Writing skill while at the office.

Sure, this is to the exclusion of seeking better relationships with the boss or co-workers, but it also opens up more genre possibilities for writing lucrative novels at home in the Sim's spare time.

Joining the Journalism career also allows the Sim to develop a new genre for writing at home: stories and reviews.

Stories and reviews are selected from the computer interaction list, just like choosing to write a novel.

It does not take nearly as long to write a story or review as a novel, and no royalties are awarded for completing a story or review.

However, writing stories and reviews are essential for promotions.

If you want to reach the very top of the career track, you must spend considerable time outside the workday creating articles at home.

These stories and reviews go into the Sim's personal inventory and are recognized at work.

To get the material for writing stories and reviews, you must interview Sims around town.

You should also visit the stadium to see sporting events and stop into the restaurants.

These three things give you plenty to write about—but they take time to attend, and that's on top of the time it takes your Sim to write the story or review.

At least visiting the stadium and going out to eat is a good mood boost, so there is a nice side benefit for taking the time to do your research.

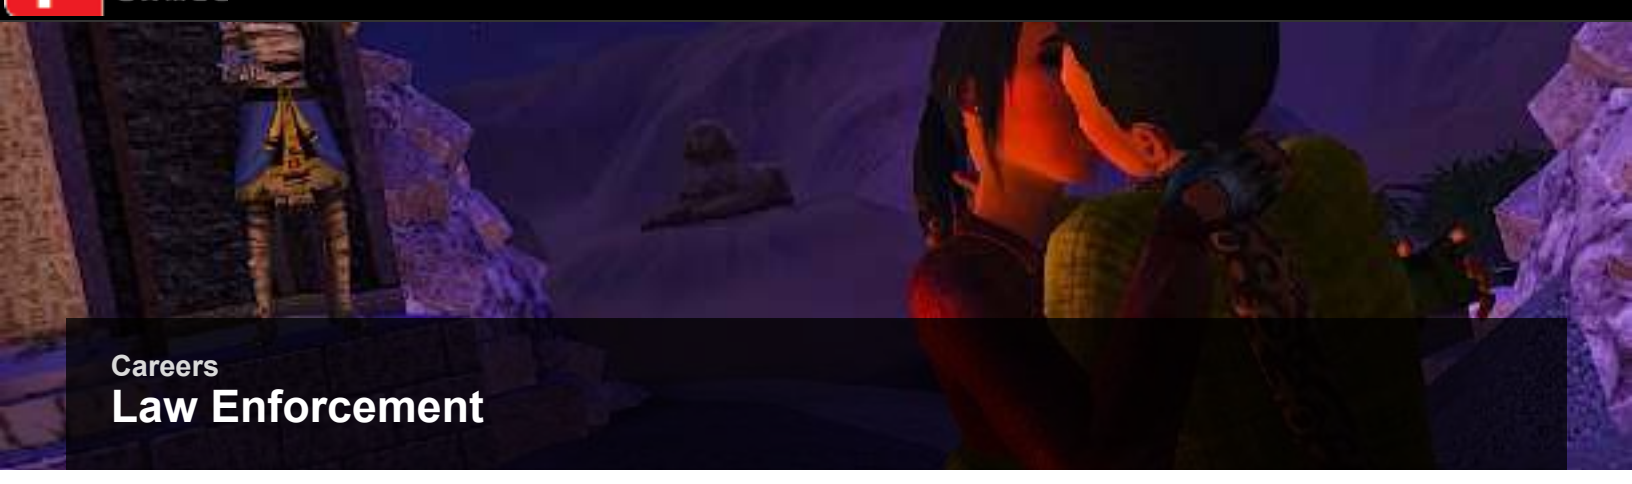
Not every promotion takes stories and reviews into consideration, though. You really need to work on Charisma skill to keep getting ahead.

The Charisma skill ranking is an important metric for promotion. This just adds to the career workload, as you must now juggle improving the Writing skill, improving the Charisma skill, and writing articles outside of work hours.

Fortunately, the work hours in this career are slightly lower than others, giving you extra free time for these careerrelated pursuits.

When you finally reach the top of the career track—Star News Anchor—you unlock a new social: Tell Intriguing News Story.

This social is perfect for situations where you want to boost a relationship with another Sim.



Careers

Law Enforcement

Not everybody in Sunset Valley or even idyllic Riverview is on the up-and-up. With a criminal element afoot, the city needs its fair share of Law Enforcement officers.

This career branches, and the two tracks lead to different rewards. The Law Enforcement career also uses a number of skills as metrics for promotion, so having a well-rounded Sim is a plus.

Take It Easy	Relax at work. Slower performance, but less stress.
Chat with Partner	Build relationship with co-workers
Build Independent Case	Side work that can result in extra cash
Use Workout Facility	Build Athletic skill at work to expense of performance
Suck Up to Boss	Build relationship with boss

Benefits and Rewards

The Law Enforcement career takes a few interesting turns but comes with some exciting rewards and side benefits.

One of the tones for work is to Build Independent Case, which detracts from dealing with co-workers or the daily workload, but is quite useful if successful.

If the case ends up being a success, the Sim has a chance at an immediate promotion. However, if the case fails, the Sim risks losing the respect of co-workers.

Tip

The current Logic skill level is what determines the chance of success, so build up that skill before trying out this tone.

At level 3, the Sim can apprehend Burglars, which goes a long way toward getting a promotion.

At level 5, the Sim gets a police car, which improves travel time. At level 5, the Sim chooses a branch of the career to pursue. Each branch has an different end reward.

Writing Reports

One of the metrics for doling out promotions is the number of reports written. Sims in the Law Enforcement track create reports on other Sims by conducting interviews with the Question social.

(This social is not negative.) During the questioning, the interviewer discovers the other Sim's traits, which is actually quite useful for social situations outside the workday.

After rifling through somebody's trash, take a shower. Your Sim is likely going to stink.

Reports can also come from rifling through garbage cans. Use this interaction to look through another Sim's trash until you receive the notice that you have enough information on the person whose trash you were inspecting to write a report.

If during these interactions, the Sim discovers that the subject is part of the Criminal career track, the chance of promotion greatly increases.

Caution

Rummaging through the trash leads to the Disgusted moodlet. Be ready to shower after extensive garbage-sifting sessions.

Branching Career Rewards

Advance the Logic skill to succeed in all branches of the Law Enforcement career. Get started with a Logic book or chess set (home or park) to get a jump on the first promotions.

When the career branches after the fifth promotion, two more skills come into play.

The Painting skill must be developed for the Forensics branch, and the Athletic skill must be advanced for the Special Agent branch. After the split, the Logic skill is still critical to getting promotions.

The Forensics branch has a reward as soon as you earn its first promotion: laptop. The laptop computer is placed in the personal inventory and can be used at home.

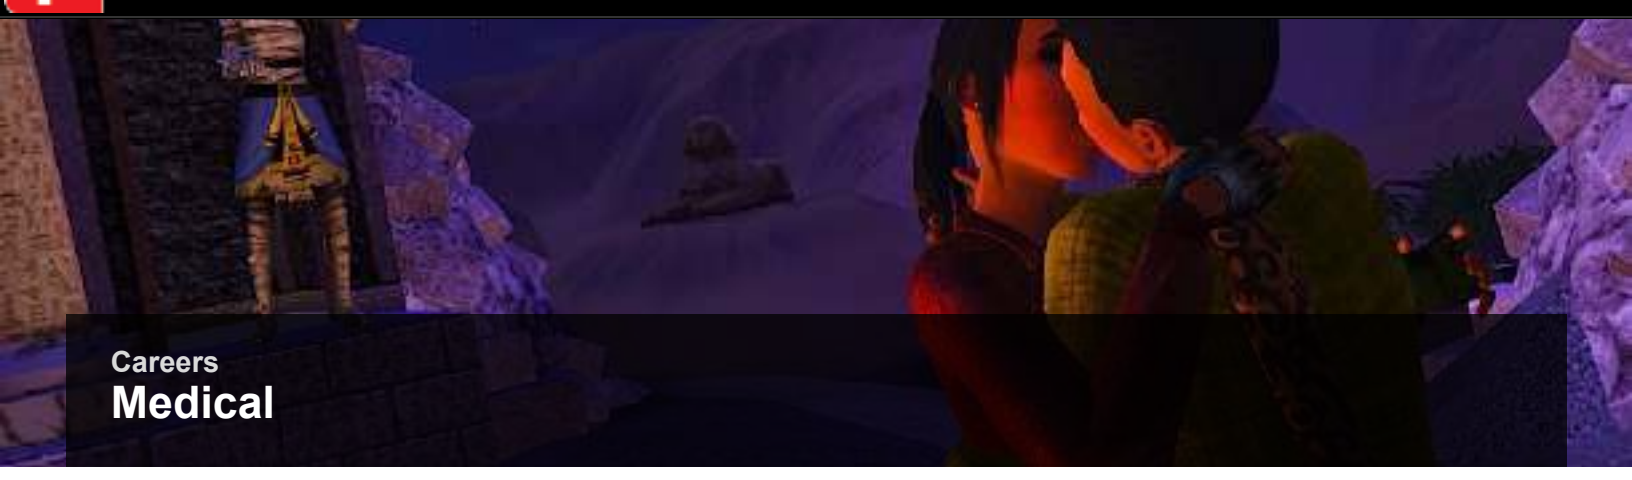
The top reward for the career is a new computer interaction: Run Analysis. This is a lengthy interaction, but it results in a payday. This is a good way to make additional money when not at work.

The Special Agent branch of the career has two special rewards that are given out at level 10: Tell Impressive Story and Raid Warehouse. Tell Impressive Story is a special social.

It immediately impresses the Sim it is directed at. The Raid Warehouse interaction directs the Sim to enter the warehouse at night and disappear for a few hours.

If the raid is a success (based on mood, Athletic skill, and Logic skill), the Sim has the potential to earn two different rewards.

A mild success at the warehouse results in a small monetary bonus. A big success results in a huge payday.



Careers
Medical

The Medical career is not for a Sim who likes to keep a strict schedule. As this career develops, the schedule turns chaotic and occasionally disruptive thanks to the unpredictable needs of patients at the local hospital.

If you don't mind the idea of being pulled into work in the middle of the night, then the Medical career's rewards may be worth the potential inconvenience. Especially the final reward for becoming a World Renowned Surgeon...

Work Location: Sacred Spleen General Hospital (Sunset Valley), County Care General Hospital (Riverview)

Medical Tones

Tones	Description
Work Hard	Work hard to increase performance, but adds stress
Watch TV in Ready Room	Relax at work. Slower performance, but less stress.
Chat with Medical Personnel	Build relationship with co-workers
Do Boss's Paperwork	Build relationship with boss
Sleep in Ready Room	Napping at work helps with energy
Suck Up to Boss	Build relationship with boss

Benefits and Rewards

The Medical career is one of the most stressful careers, so to advance, you need activities in the Sim's life that will counteract the Stressed Out moodlet.

Mood is a major factor in promotions, so be sure to sleep when possible (the Sleep in Ready Room tone helps out with this) and have an activity that lowers tension, such as reading, exercise, or socializing.

As soon as you reach the Medical Intern promotion, get ready for a hectic schedule. The Sim gets a beeper and has to come into work at odd hours.

Shifts start growing, too, so be ready to spend lots of time at the hospital as you work farther up the promotion ladder. Medical Interns earn the Give Medical Advice social, which helps out pregnant Sims.

Pregnant Sims who regularly seek medical advice (or receive it) assist the development of the pregnancy, which can lead to the baby getting highly desirable traits.

When you reach the Medical Intern position, you start receiving medical journals, too. These are critical for future advancement because the number of journals read is a metric for deciding promotions alongside mood and Logic skill.

In your off time, be sure to read these medical journals because the game keeps track of this statistic.

Tip

The Medical career does not factor relationship with co-workers or the boss into promotions. The quality of work is what really counts.

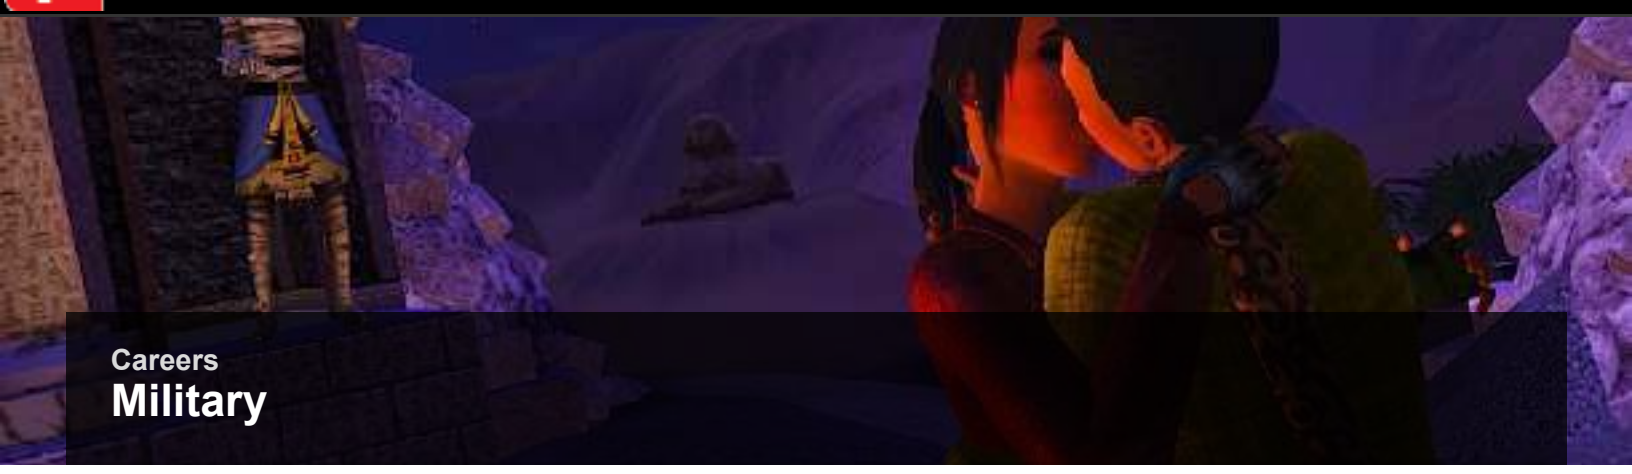
At the Resident level, Sims get two new socials: Give Good Medical Advice and Brag About Being a Doctor.

The Give Good Medical Advice has a greater benefit to expectant mothers—in fact, the medical Sim can even deduce the sex of the baby.

The Brag social impresses other Sims in conversation. If the other Sim is already romantically interested in the medical Sim, that romance is further enhanced.

Note

The Neurosurgeon promotion turns Give Good Medical Advice into Give Amazing Medical Advice, which is even more beneficial to expectant mothers.



Careers

Military

Fortunately, peace has broken out in the world and Sims in the Military career need not worry about shipping out to war. They do have a goal that takes them outside of town, though. Way outside of town. As in, into space.

Tones	Description
Work Hard	Work hard to increase performance, but adds stress
Goof Off	Relax at work. Slower performance, but less stress.
Hang Out with Fellow Soldiers	Build relationship with co-workers
Suck Up to Superior	Build relationship with boss

Benefits and Rewards

To advance in the Military career and earn benefits, Sims must develop two different skills: Athletic and Handiness. (Fortunately, the Handiness skill can be learned right on base through a class.)

Other metrics contribute to the chance of promotion, too, including the relationships with fellow soldiers and base superiors. Naturally, mood is also a factor. Working hard and keeping these skills in active advancement leads to some fun rewards.

For example, as soon as the career begins, you start saluting other soldiers of superior rank. But at level 4, Squad Leader, inferiors start saluting you.

When you reach the Top Gun rank, random Sims in town are also inspired to salute you. Citizen salutes are positive and will start any social encounter with an impressed context.

At level 10, the Sim becomes an Astronaut. Becoming an Astronaut changes the Show Sim the Jet interaction to Show Sim the Spaceship. Show Sim the Spaceship is a huge romance booster.

MUSIC TONES

Tones	Description
Work Hard	Work hard to increase performance, but adds stress
Slack Off	Take it easy at work to reduce stress
Chill with Band/Musicians	Build relationship with co-workers
Meet Band/Orchestra Members	Meet co-workers
Study Music Theory	Build Guitar and Logic skills
Practice Performance	Prepare before a concert so it goes better

Benefits and Rewards

Naturally, the key to advancing in this career is the development of the Guitar skill. A class at the theater is a good way to get a head start on the career.

At first, you do not even need the Guitar skill because you are just a Fan and Roadie. But keeping on top of the skill before it becomes critical to advancement has nothing but advantages.

The Guitar skill is a constant metric for promotions no matter which branch you choose when you reach the sixth promotion.

To continue moving up the career ladder, you must maintain a good mood and have a good relationship with co-workers, who are called band or orchestra members depending on the career path taken.

Use the Study Music Theory tone because it helps build the Guitar skill—and the Logic skill, which is a critical measure for the Symphonic branch. In the Rock branch, you need to practice for gigs because performing concerts is a key to advancement.

Rock Branch

The next promotion following the Music Talent Scout in the Rock branch is Lyricist. When you reach this promotion, you can start holding concerts.

Use this interaction on the theater and stadium to stage two- or four-hour concerts that are measured as part of the promotion process. (This interaction is only available between noon and midnight.)

Once inside the Rock branch, the relationship to other band members is no longer important. When the Sim becomes the Backup Vocalist, they unlock the Wave interaction to use wherever music is playing. It's a fun action that boosts mood.

Keep performing concerts and keep up the Guitar skill to reach the pinnacle of the branch: Rock Star. At this level, your carpool is replaced by a pastel limo that will take you anywhere.

At this level, the Sim can also select venues and choose to Hold Autograph Session, just like the Athlete career.

The goal is to sign as many autographs as possible with the other Sims on the lot. The more signed, the more money is awarded for the session.

Once the Sim achieves Rock Star, they no longer have a work schedule. Money is earned exclusively by holding concerts. The concert at the stadium takes twice as long than one at the theater, but the salary is double.

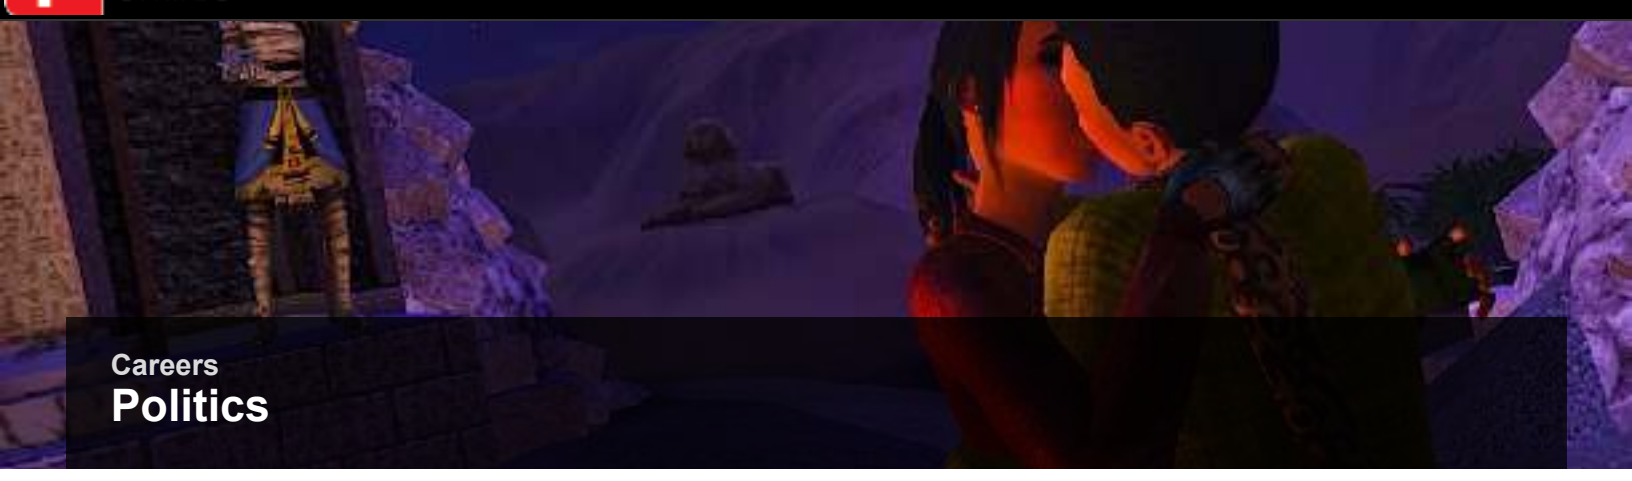
Symphonic Branch

The Symphonic branch of the Music career unfolds a bit differently than the Rock branch. In this track, relationships with other musicians are very important, so be sure to use that tone to get ahead. Keep advancing the Guitar skill whenever possible, too.

Once you close in on the Orchestra Lead promotion, develop the Logic skill. (Practice Music Theory is a good way to boost the Logic skill while at work.)

Once you reach level 8 of this career—Orchestra Lead—you earn free admission to activities at the theater. This is great for boosting moods.

The highest level of the career—Hit Movie Composer—comes with an object reward: 85g Audio Explosion. This high-end stereo boosts the fun of Sims in its listening radius and can be used to develop the Athletic ability.



Careers

Politics

Politics is no career for the timid Sim. This highly social career track requires a great deal of socializing.

Because this is such a social career, the Charisma skill is required. Also required: no fear of asking other Sims for money. Campaigns don't pay for themselves, you know.

POLITICAL tones

Tones	Description
Work Hard	Work hard to increase performance, but adds stress
Chat with Co-Workers	Build relationship with co-workers
Meet Co-Workers	Meet co-workers
Run Errands for Superior	Build relationship with boss
Suggest New Course of Action	Research new ideas that can possibly increase performance or relationships

Benefits and Rewards

At first, mood is the only metric used to measure performance and award promotions. But to get ahead, be sure to start practicing Charisma early on through various means, such as taking a class at City Hall or practicing in the mirror at home.

Having a good Charisma level will make it much easier to advance early in this career.

The Yes-Man promotion is given out to a Sim who has a good relationship with the boss, so use the Run Errands for Supervisor tone early on, too.

Getting in good with the boss is preferable to being popular with co-workers. To move up to the City Council position, though, you need to start raising campaign contributions, which is another metric for promotion.

The social Ask for Campaign Donation usually results in a small Simoleon transfer, although hitting up a wealthy Sim elicits a larger donation. Fortunately, this social is positive.

Caution

You cannot use the Ask for Campaign Contribution social on household members.

Note

Here's a nasty bit of business with campaign contributions: every so often, you will be asked if you want to transfer money out of the campaign kitty and into the household account. This is risky. If caught, the Sim is expelled from the career.

Tip

Political Sims can throw Campaign Fundraisers, which are just like parties. (See the Relationships chapter for details on how to throw a party.)

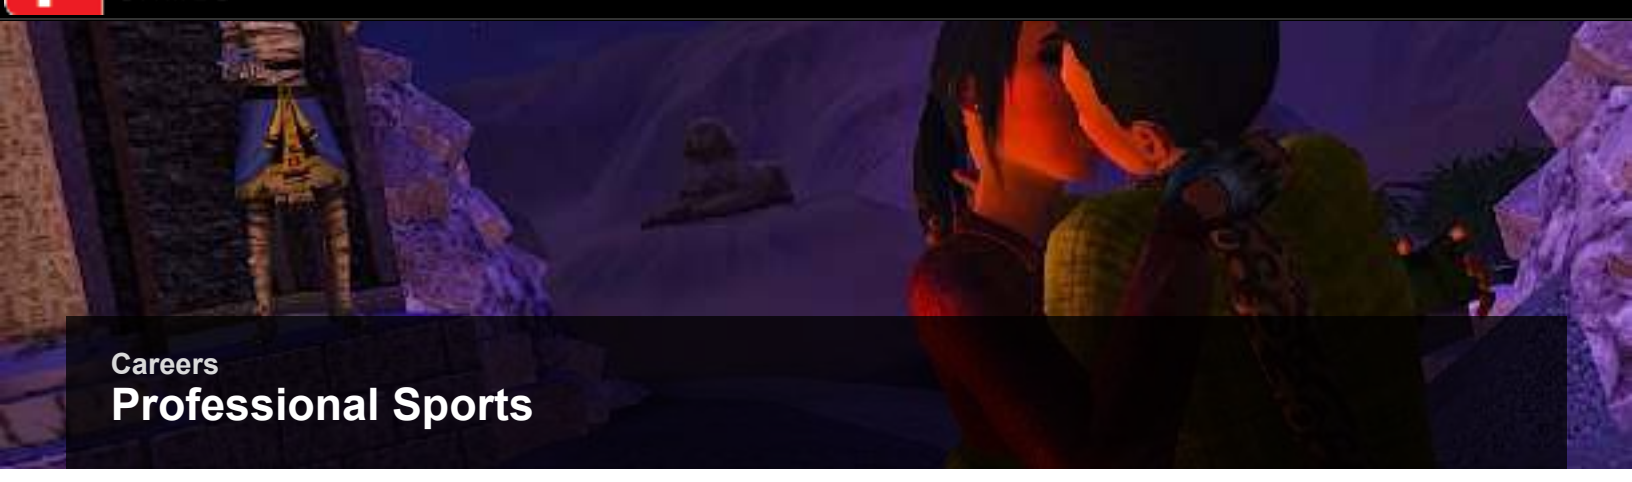
If the party is successful, the host receives campaign contributions at its conclusion.

Once you reach the Local Representative position, you have a new social: Give Inspirational Speech.

You can use this positive social on a single Sim or in a group setting. It gives everybody a positive impression of you and sets up healthy relationships. Yes we can, indeed.

At higher levels you get two nice benefits. At the Governor level, a black limo drives you everywhere.

As Leader of the Free World, your Sim gains the Aura of Leadership, and other Sims wave at you wherever you go. This boosts the relationship with other Sims and can also result in the Celebrity moodlet.



Careers

Professional Sports

The Professional Sports career charts a course from zero to hero. The Sims slowly become deeply involved with the local sports team. At first, they are a fan with a dream.

Then, they join the team and start working up the ranks. Soon, shifts are replaced by sporting events where winning and losing directly affect mood.

Prepare for Game	Get ready for next game. Increases chances of winning next game.
Meet Teammates	Build relationship with co-workers
Hang with Teammates	Build relationship with co-workers
Slack Off in Locker Room	Take it easy at work to reduce stress
Work Out in Gym	Develop Athletic skill

Benefits and Rewards

Naturally, this is a great career for a Sim with the Athletic trait and developing the Athletic skill.

Once you reach the Toddler Sports Coach position, you can start using the Work Out at Gym work tone, which lets you continue developing the Athletic skill at work, albeit at a slower pace than at home or on personal time.

(Up until this promotion, reporting to work does not increase the Athletic skill.)

Once the Minor Leaguer position is reached, the Sim can begin interacting with other team members, which casts a wider net of Sims to socialize with and make friends.

The Rookie promotion starts the game part of the career. Now work is often replaced by practice and the career keeps a running tally of the team's win-loss record.

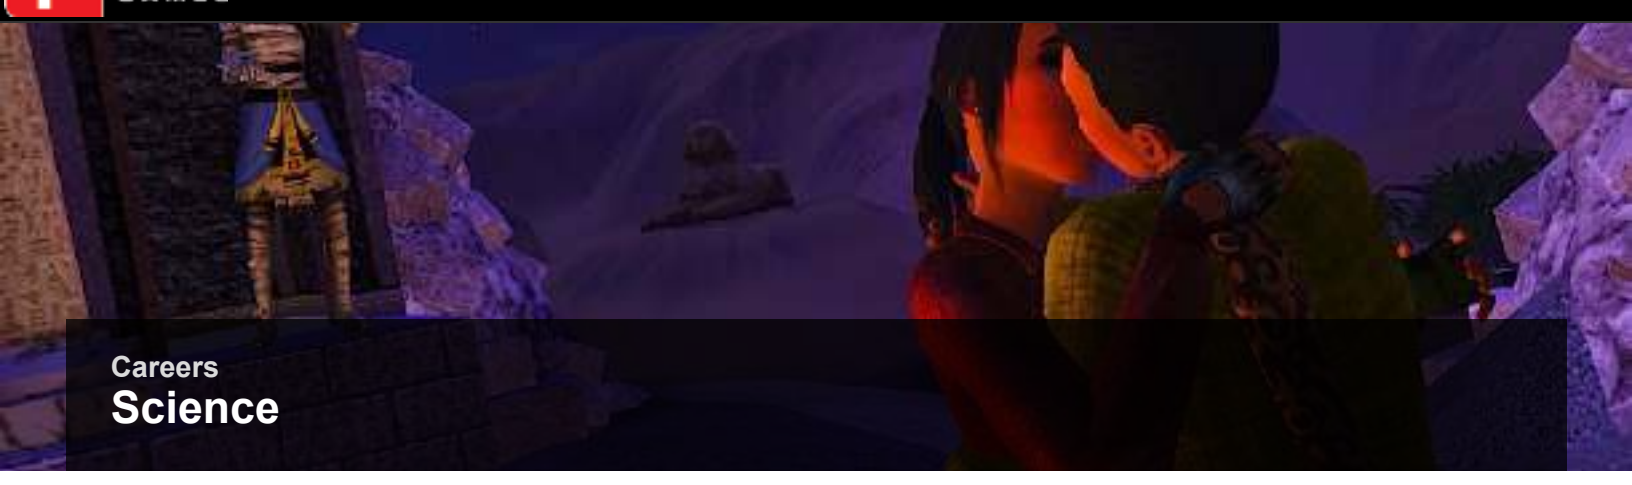
The higher the Sim's Athletic skill, the greater the chance of winning the game, which in turn improves the Sim'smood with the Winner moodlet. The chance of winning a game is also improved by the Prepare for Game tone.

Tip

Members of a Sim's household can see a sporting event for free.

Once the Sim reaches the top promotion— Sports Legend—two things happen. One, the Sim can now perform the Sponsorship Deal interaction at businesses for Simoleons at least once a week.

Two, the Sim can also Hold Autograph Sessions at venues where they are handsomely rewarded for signing autographs for as many Sims on the lot as possible.



Careers

Science

A mind is a terrible thing to taste—er, waste. This career celebrates that organ between the ears, the cortex that pulses with thoughts and desires.

The Science career requires a keen sense of Handiness and a real green thumb, as well as a desire to both observe and collect.

SCIENCE TONES

Tones	Description
Work Hard	Work hard to increase performance, but adds stress
Relax in Specimen Closet	Relax at work. Slower performance, but less stress.
Meet Fellow Scientists	Meet co-workers
Hang Out with Fellow Soldiers	Build relationship with co-workers
Assist Boss with Research	Build relationship with boss
Do Independent Experiment	Doing this tone builds toward promotion or at least performance boost

Benefits and Rewards

The benefits of the Science career are plentiful, but you must be attentive to skills to receive the promotions that award them. The immediate skill required for the career is Gardening, which can be learned at the science facility or through a book.

Get a jump on Gardening as soon as you join the career. Later in the career, two additional skills come into play: Handiness and Fishing.

At no point are relationships a metric for advancement because, warranted or not, scientists aren't exactly known for their social graces.

Tip

Do not wait until you close in on a promotion that requires Fishing or Gardening to start learning those skills. Develop those skills early.

One of the most useful tones in this career is Do Independent Experiment. While performing this tone, you do side experiments that have a chance of resulting in great things.

These experiments take time and you will not complete one in just a day. If the project is a success, though, you might get an immediate promotion.

From time to time, scientists come home with extras in their personal inventories, such as a fish or seed.

They will be either common or uncommon fish or seeds. Upon reaching the Top Secret Researcher and Creature-Robot Cross Breeder promotions, though, the Sim receives a seed for a special plant.

These seeds are rare and will grow into one of the following: Flame Fruit, Life Fruit, Money Tree, or Omni Plant.

Do Science to It!

Upon reaching the height of the career, the Sim receives a new interaction to perform on household objects: Do Science to It. This interaction works on seats, beds, electronics, and appliances.

It acts like an upgrade. Once the interaction is complete, the Sim stands back to look at what was accomplished. If the upgrade goes well, the following may happen:

Object gets environmental boost.

Object broadcasts music, giving all Sims in the area the Enjoying Music moodlet.

Object earns random upgrade from Handiness upgrade list.

Object starts broadcasting random moodlets that affect Sims in the room: Attractive, Beautiful Vista, Cheered Up, Comforted, Feeling Lucky, New Car Smell, New Stuff, Oddly Powerful, Tranquil, or Warmed.

Conversely, this interaction can have negative effects, too. These things can go wrong:

Object catches fire and is burned until useless.

Object randomly electrocutes Sims who try to use it later.

Object disappears—forever.

Object breaks and must be repaired.

Object starts broadcasting random negative moodlets that affect Sims in the room: Upset, Tastes Like Fridge, Stir Crazy, Offended, Buzz Crash, Horrified, or Disgusted.

Careers

Part-time work

In addition to these full-time careers, Sims can pick up part-time jobs at the supermarket, cemetery, bookstore, or day spa. These jobs are for just four hours a day, four days a week.

These jobs are designed not to interfere with life too much. For example, a teen might take a job at the supermarket that starts after school at 4 PM and lasts until 8 PM. Or an adult could grab a late-night 6 PM to 10 PM gig helping bury bodies at the cemetery.

Part-time jobs include tones, just like the full-time jobs. However, because relationships and skills don't determine job performance, the tones are limited to: Business As Usual (average amount of work), Work Hard (put in extra effort), and Take It Easy (minimal effort).

Each part-time job has only three career levels with minimal raises between each promotion. To get ahead at a part-time job, just show up in a good mood and put in a decent day's labor.

Part-time jobs can be quit via the cell phone. You can go back to work at the same place, but if you wait too long between quitting and going back, you lose any promotions and must start over.

New Simology

Introduction

World Adventures adds more than just new real estate for you to explore; it offers all-new traits, wishes, skills, and more that only deepen the possibilities for your Sims' drives and dreams.

Now, Sims have new avenues to express their artistry—photography. New Sims just moving in can have adventure and discipline as pieces of their personalities.

There are also new wishes—both large and small—that extend far beyond the borders of a Sim's hometown.

This chapter charts the new building blocks for a Sim's lifetime adventure. But choosing to incorporate many of these new traits or wishes into your Sim's life does not only affect their travels.

The skills they develop or the goals they aspire to fulfill also influence behavior, attitude, and living back on their own lots in their home cities.

New Simology
Socials

Just as there are new wishes, skills, and moodlets for Sims in *World Adventures* , there are new social interactions. Socials are the actions between two Sims in a conversation.

All of the original socials from *The Sims 3* are still available, but a new set of socials is added to the mix to further stimulate conversation.

Some socials are related to traits. Others are inspired by the development of skills.

Use this chart of socials added to *World Adventures* to help guide conversations, especially when abroad and talking with locals. Here is how the chart breaks down:

Social: Name of social as seen in the conversation menu

Commodity: Commodity associated with the social

Actor/Target Age: Ages in which the social is applicable

- C=Child
- T=Teen
- Y= Young Adult
- A=Adult
- E=Elder

Social Available When?: What prompts the use of the social

Required Trait: Social is only available when Actor has this trait

Social Encouraged by Trait?: Social is potentially more "powerful" due to Actor's trait

Social Prevented by Trait?: Actor's trait prevents them from using this social

# of Uses Before Boring: Number of uses in a conversation before the social is dull. Default is 2. Exceptions are specified.

# of Uses if Recharged: Number of times the social can be used if another social interrupts the re-use of the social

Socials:

Brownie Bites

There is one very special new social in *World Adventures* that I want to call out: Learn Song. This is one of my favorite additions to the game via *World Adventures* .

While traveling to destinations and chatting up locals, you can learn songs and take them back home with you. This a wonderful way for the culture of a destination to escape its borders.

Each destination has two unique songs: local and romantic. All locals know the local song. Locals older than children know the romantic song, too.

Start a conversation with a local and then choose Learn Song. Pick from the offered songs.

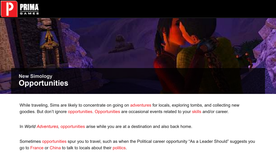
Your Sim and the local will then go back and forth with your Sim repeating phrases of the song after the local until the song has been learned.

Once you have learned the song, you can sing it on your own. (There is even a chance your Sim may start singing one of the songs in the shower.) You can also teach the song to another Sim back home.

Not every Sim will react to your songs the same.

Sims with the following traits react positively to you singing a song within earshot: Artistic, Easily Impressed, Family-Oriented, Friendly, Excitable, Good, Hopeless Romantic, Party Animal, and Virtuoso. No Sense of Humor, Mean, Hot-Headed, Grumpy, Evil, Can't Stand Art, and Dislikes Children Sims will actually boo.

The romantic song has an alternate use. Now, unlike my singing voice—which causes birds to run into windows on purpose—if your Sim sings the romantic song to a receptive Sim, it will put them in the mood for love.



Noe Simology

Opportunities

While traveling, Sims are likely to concentrate on going on adventures for locals, exploring tombs, and collecting new goodies. But don't ignore opportunities. Opportunities are occasional events related to your skills and/or career.

In *World Adventures*, opportunities arise while you are at a destination and also back home.

Sometimes opportunities spur you to travel, such as when the Political career opportunity "As a Leader Should" suggests you go to France or Oman in order to locals about their politics.

The rewards for completing opportunities include Simoleons, promotions, skill gains, and more.

Here is a full list of the opportunities offered in *World Adventures* , sorted by skills and careers:

Understanding The Underworld

Your Sim slips down the newly revealed steps into the inky unknown. The crackling torch on the wall, newly breathed to life, casts light on an ancient chamber that has not seen illumination for centuries.

Shadows are thrown against the wall, making it look as if the Sim is not the only thing moving in this forgotten tomb. But she is.

Or at least, she thinks she is.

A lone sarcophagus leans against the far wall. Near it are three treasure chests.

Does one of them contain the treasure she was sent to seek?

One by one, she opens the chests, feeling around the dust and debris for relics of long ago. She keeps an eye on the sarcophagus as she inches closer to it.

Surely the rumors of mummies that walk the tomb in search of living flesh are just stories to keep children from poking around, right?

Finally, she reaches the third treasure chest—the one closest to the sarcophagus.

She hoists the lid up and reaches inside. Her fingers feel the unnatural edges of carved stone. This is it.

This is the relic. She just has to take it and return to the surface. But the lid of the treasure chest slams shut with a sharp thud, loud enough to wake the dead.

And that’s exactly what happens next.

A mummy explodes from the sarcophagus, arms outstretched to grab the intruder. The Sim tumbles backward, barely avoiding the mummy’s bandaged hands.

Centuries of decay have curled the mummy’s fingers into claws. She regains her footing and starts to run.

There’s a fire trap ahead, but if she can make it to the pool of water first and drench her clothes, she can get through the belching pillars of flame unharmed.

The mummy will be unable to follow her. The trap that almost killed her on the way down will now be the very thing that saves her life.

She starts to run. And she will not stop running until the ground beneath her feet is warmed by daylight.

Still in disbelief at the sheer size of yesterday's dragon boss, you head to Kumaar's study and find him in [1].

Those books are no happy-fantasies bookends. They are dangerous pieces. Black with shadow dance, [link] and even have a mind of their own.

There is a reason the words are a part of a three [link] in the Kumaar's library that has survived.

Kumaar tells you that the Dahaka is a creature that has been sent to hunt you down for manipulating the Time Sand. And that he will not rest until he has succeeded in his mission or you are dead.

Traps

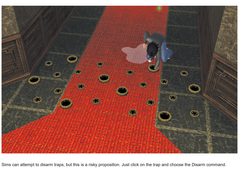
Four types of traps await in the tombs or other mysterious buildings: fire, electricity, steam jets, and poison darts. All four of these traps can cause real harm to Sims who carelessly move through a tomb.

Some traps are hidden. Others are quite visible, appearing as a series of holes on the floor or even repeatedly going off as ample warning.

For example, a fire trap will often belch flames on a regular basis to let your Sim know that the other side of a room will be difficult to reach, but probably contains something valuable. After all, traps are rarely laid for sport. They are for protection.

A Sim who spots the trap in advance will normally refuse to cross it, even if you click on the opposite side and try to order the Sim to "go here." However, if the trap has failed or been disarmed, the Sim will have no problems crossing it.

You can actually spot a hidden trap in advance by having your Sim inspect a suspicious-looking area. If the Sim successfully discovers the trap, the trap appears on the floor in regular view—but it is armed. Now what?



Sims can attempt to disarm traps, but this is a risky proposition. Just click on the trap and choose the Disarm command.

While the Sim is working on disarming the trap, a green status gauge appears above their heads, just as if they were reading a book. When the gauge reaches the top, one of three things happens.

There is a random chance that the trap will go off while the Sim is attempting to disarm it, thus frightening the Sim (and warning the Fear moodlet).

Should the Sim successfully disarm the trap, the trap is now ineffective and can be walked over without worry. If the trap cannot be disarmed, a short message tells you that you need to find another way around.

Tip

Handiness skill gives Sims greater success when disarming a trap.

If a trap cannot be disarmed or you don't want to risk trying to disarm it, you can use the Attempt to Cross interaction. If the trap is just visible on the floor, the Sim will attempt to stink between the holes.

If the attempt fails, the trap goes off and the Sim suffers the consequences of that particular trap.

Should you Attempt to Cross an active trap, one that is going off in regular intervals, you have a greater chance of making it, but these traps can still be tricky. However, certain conditions thwart the effects of a trap.

For example, if you attempt to cross a fire trap, soaking your Sim in water at a nearby dive well will make them impervious to the flames.

Note

If you ever get in too much trouble in a tomb with traps or mummies, use the Adventure Reward Escape Dust to be magically teleported back to base camp or an owned vacation home.

Caution

Most traps cause the Fear moodlet.

Another way to disarm a trap is to push one of the giant statues that you use to trigger floor switches on top of a trap. The weight of the statue disarms the trap (but only the trap the statue is on—not an entire series of traps) and allows the Sim to safely pass over it.

Tip

Always look for statues that you can push on top of traps. This is the foolproof way to disable a trap.

Fire

Fire traps are one of the most common. This trap emits huge pillars of flames from holes. Sims caught in fire traps catch on fire.

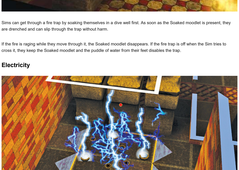
Similar to the effect of a kitchen fire, the Sim goes into panic mode. If your Sim is on fire, look for any nearby water to put out the flame. A dive well is perfect. Steam jets traps will also put out the flames. Once the fire is extinguished, the Sim gets the Torched moodlet.

Note

Daredevil Sims actually get a big positive reaction from the Torched moodlet. Once the fire is out, the Daredevil also gets the Adrenaline Rush moodlet for three hours.

Tip

Oh fire? Use a Shower in a Can to put out the flames. Don't expect any Hygiene bump from the Shower in a Can, though.



Sims can get through a fire trap by soaking themselves in a dive well first. As soon as the Soaked moodlet is present, they are drenched and can slip through the trap without harm.

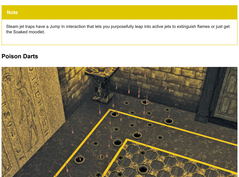
If the fire is raging while they move through it, the Soaked moodlet disappears. If the fire trap is off when the Sim tries to cross it, they keep the Soaked moodlet and the puddle of water from their feet disables the trap.

Electricity

The electricity trap looks very similar to the fire trap except that it crackles with blue sparks when it goes off. If the Sim is in a normal state, the shock will just singe them (they receive the Singed moodlet).

These electrical bolts will shock a singed Sim into unconsciousness, giving them the Knocked Out moodlet. While knocked out, the Sim is vulnerable to other things, but if they are exploring with another Sim, hopefully that Sim can protect them.

Steam Jets



This trap shoots hot blasts of steam through its holes. Soaking your Sim doesn't do much to disable this trap because it is water-based itself. If your Sim is caught in the steam jets, they get Soaked. (But at least the trap can put out flames or remove the Singed moodlet.)

This is the weakest of the traps and easiest to cross. Sims won't even get the Fear moodlet from the steam jet trap.

Note

Steam jet traps have a Jump In interaction that lets you purposefully leap into active jets to extinguish flames or just get the Soaked moodlet.

Poison Darts

This trap is pretty darn devious. Sims who get caught in it by surprise or who attempt to cross the trap and fail are poisoned by the little spears. The Sim then stumbles backward and passes out.

While Knocked Out, the Sim lies on the floor, helpless. Definitely attempt to disarm this trap however you can—using a statue to block the vents is always the best solution.

Mummies!

When you spot a sarcophagus in a tomb, just relax. Not all of them house the reanimated bandaged remains of ancient kings who had their brains pulled out through the nose and stored in a jar buried next to them. (The heart is usually in the next jar over.

This would make you pretty upset, too.) But some of them do release dangerous mummies into tombs that threaten your Sim with physical harm and even a curse that eventually causes death.

Note

Mummies will not attack child Sims.

When a mummy spots a Sim, it attacks. The mummy jumps on a Sim and goes berserk. (Look, you woke it up—now you have to deal with the consequences.)

If your Sim has a high Martial Arts or Athletic skill rating, there is a good chance that you can beat the mummy. But if you lose, one of two things can happen.

If you are lucky, the mummy only knocks your Sim unconscious—you have the Knocked Out moodlet and must wait for it to pass before you can get up.

If you are not so lucky, the mummy pulls your Sim close and breathes an icky gas. This gives your Sim the Mummy's Curse moodlet, which is a curse.

Ugh, mummy breath!

If your Sim is hit with the Mummy's Curse moodlet, you have a limited amount of time to get rid of the curse before the Sim dies. (It's an awful death, too. There's screaming and burning. And your ghost is dark.)

There are a few ways to get rid of the curse. Get to the Sphinx and use the Plead with the Sphinx interaction. Now your Sim can enter and look for the Soulpeace statue.

This statue cleanses the curse from your Sim.

You can also ditch the curse via the Snake Kiss moodlet, which is achieved by kissing a cobra from the Snake Charmer Basket. (More on this basket—and the hidden Snake Charmer skill—in the Egypt chapter.)

Tip

You can also sleep in the Blessed Sarcophagus to remove the Mummy's Curse moodlet.

There is a way to get an aggressive mummy off your back: Mummy Snacks. This Adventure Reward (purchased from the Special Merchant with Ancient Coins) can be thrown to the ground as your Sim flees. Mummies cannot resist this treat.

A mummy will stop pursuit and start noshing on a Mummy Snack. While the mummy is busy eating, Sims can either continue their escape or use this distraction to inspect the mummy's sarcophagus.

Surely there is enough room in that thing for a relic as well as a mummy, right?

Tip

If you lead a mummy into a fire trap, it burns up.

Brownie Bites

Maybe you don't find mummies scary at all? Perhaps you want one to take home and call your very own? Well, if you find all of the pieces of the Sarcophagus of the Kings in the tombs of Egypt, you can assemble the artifact and bring it home.

From this artifact, you can summon a playable mummy into your household. Here's what else you need: 5 Canopic Jar relics.

Place these objects inside the Sarcophagus of the Kings. If the offering is accepted, the sarcophagus lid swings open and the mummy stumbles out. It's now all yours!

You need to know a few things about playing a mummy. Mummies cannot Try for Baby. Mummies cannot run. Mummies also scare Coward or Neurotic Sims. But mummies also do not have as many needs as a normal Sim.

They do not need to sleep. (After all, they've spent enough time sleeping.)

They do not need to use the bathroom. But they can develop skills, socialize, go to work...pretty much anything else a

regular Sim can do. They even have a longer lifespan than normal Sims.

One last word of warning about mummies: keep them away from fire. If a mummy catches on fire, it burns. That's it. There is no saving it.

Hades

Hades is a dungeon crawl video game developed and published by Supergiant Games. The game was released for macOS and Nintendo Switch in September 2020, for PlayStation 4 and Windows in August 2020, and for Xbox One in May 2021. Hades is a roguelike game in which the player controls Zagreus, the son of Hades, as he battles his way out of the Underworld in order to escape to the surface. Zagreus is armed with a variety of weapons and abilities, and he can also call upon the aid of various gods and goddesses. The game features a unique narrative that changes depending on the player's choices and actions. Hades received critical acclaim upon release, with praise for its gameplay, art style, and narrative. It has been nominated for and won numerous awards, including several Game of the Year awards.

Whats New
World Traveler

Others define us by the company we keep, but we define ourselves by the experiences we've had and the ones we are planning. One of the greatest experiences we can have is to travel.

The awe of new sights. The thrill of unfamiliar sounds. The intoxication of new smells. Travel is an expansion of personal borders by crossing physical ones.

Until now, the farthest away from home that Sims could explore was the city limits of Sunset Valley or Riverview. But with World Adventures, Sims can finally leave their city lives behind and take flight to exotic new places.

Sims can now see things like a nectary in France, a zen garden in China, and the depths of a creepy tomb in Egypt.

They can learn new cultures from the Sims in these exciting locations, and taste new foods.

And when the Sim finally returns home to a career or the rest of a household, they bring these new experiences with them, enriching not only their own lives, but the lives of those around them.

What's New?

This guide is designed to help you get the absolute most out of your vacation plans. Sims cannot jet off to new countries for an indefinite amount of time. Their visas only allow them short stays overseas, at first.

By completing special adventures on their trips, Sims earn points for their visas. The more points you bank, the longer you can stay the next time you visit.

When a Sim finally maxes out a visa for a particular location, they may purchase special vacation homes there for use the next time they visit.

These adventures are typically trips to tombs and catacombs beneath the surface. In these dark places, Sims must seek out hidden chambers and learn how to survive dangerous traps.

The rewards of raiding these tombs includes more than just points on a visa.

Sims will discover valuable treasures and relics. These relics can be sold for Simoleons or taken back home and put on display.

While on holiday, Sims are encouraged to open their minds and hearts, to take in new cultures, learn new skills, and establish new friendships.

The methods of learning the new skills—Martial Arts, Nectar Making, and Photography—and socializing with other Sims is very similar to how it's done in The Sims 3, which was detailed in the previous chapter.

While Sims do not necessarily need to embark on personal journeys to develop new skills or make new friends, you only get a portion of the World Adventures experience by slipping into the tombs.

During each trip, balance both exploration and personal growth so that when your Sims finally bid adieu to the vacation destination, they go home with wonderful memories as well as souvenirs.

Whats New
The Basics Of Travel

Once you have *World Adventures* all set up, your Sims can leave on their first vacation.

It only takes one phone call or a click on the computer to get the Sim in a cab, whisked off to the airport, and on their way to your choice of the three possible locations—Egypt, China, or France.

However, before boarding, you need to know some essentials about travel.

Not only do you need to understand what's involved with travel on the departure end of the trip, but also the basics of an adventure at the destination.

Before You Go...

As mentioned, all you need to do to travel to a new location is dial it up on the phone in your Sim's inventory or choose the Travel interaction from a computer. It is as easy as ordering a pizza or arranging babysitting.

However, travel is not cheap. Each trip costs Simoleons and the price of travel goes up with each consecutive trip that lasts longer than the previous. These costs only cover getting there and getting back.

Once you are at your destination, you need additional Simoleons to purchase goods at merchants such as foodstuffs and other essentials.

(You have to take care of Hunger, Sleep, and Hygiene on your travels, you know.) Here are the opening prices of each three-day trip:

China: §1,300

Egypt: §1,600

France: §1,900

Hyper Time

When you see that you could stay on a vacation for several days, you thought about how that would affect aging, right? After all, your first visit has to shorten some of days before the new year.

If you spend all of your days on vacation, how will you fit in all of the varied building and skill-developing task at home to obtain a lifetime Bliss?

Well, you're not. Lately, we'd the weirdest stage of proprietary features on vacation.

You do not have to worry about keeping important aging days while exploring around the tourism of Egypt or the riches of China. The whole aging will be what you stand on your home town, though.

You can see this in your aim and age, especially when you see day by a long time at a location. Short locations have with building objects, such as the gift and objects from the world and Bliss in China.

Stick on those skills while on vacation so you don't consume precious time.

When you return home, you enjoy the benefits of an increased skill and could be earning a promotion at works without being present for days.

Base Camp

When you first arrive at a destination, you are thought off at base camp. Base camp provides temporary housing for your home while they are on vacation. Actually it

Adventure Bonus. When you first arrive, be sure to check the Adventure Bonus for new adventures. If you're open and you are back in the fun you need to see for the adventure or from moment to near one.

However, you are not required to immediately check the Adventure Board. You can just stay at your base camp and take it easy.

Use it as a home away from home for when you just want to work on one of the new skill or do a little souvenir shopping.

Tip

You cannot link only residence Base camp to a residence Bliss with other travelers. This is a great place to make new friends. It has up your home environment while away sightseeing.

Ancient Coins

While most souvenirs take Shortness, Sauna is special currency often used while on vacation. Ancient Coins. Ancient Coins are found while exploring ruins and are sometimes awarded when completing a skill.

Ancient Coins are used to purchase rare souvenirs that are not available anywhere else. As soon as you use this souvenir, they can be found exclusively for each city in the Special Souvenirs and Souvenir Locations section.

Markets & Merchants

As any traveler knows, shopping abroad is sometimes fun. The items that objects participating change from the shops you're there. Those changes make the souvenirs after you are in a location of particular interest.

In Sand Storehouse, there are plenty of merchants at each destination ready to relieve you of Shortness in exchange for goods and souvenirs. Each location has a variety of merchants for you to visit. Visit one location and locate its skills.

When visiting the markets at consecutive trips, you will discover that merchants change.

Each merchant has a unique style when selecting to your souvenirs, so if you see something you like, you may want to arrange for it right away. It may be a while until you see it at a merchant again.

Note

The money souvenirs for each merchant, such as the bookseller, is located in the individual destination chapters.

Souvenirs found in the world of Hyper Time are the perfect way to remember your adventures. Souvenirs are found in many different ways, such as purchasing them from merchants, finding them in ruins, or receiving them as gifts.

Souvenirs are not created equal. Some souvenirs are more valuable than others. Souvenirs are also different in size and weight. Some souvenirs are heavy and take up a lot of room in your luggage, while others are small and light.

Souvenirs are also different in how they are used. Some souvenirs are used to increase skills, while others are used to increase Sim moods. Some souvenirs are used to increase the Sim's Shortness, while others are used to increase the Sim's Sauna.

Souvenirs are also different in how they are obtained. Some souvenirs are found in ruins, while others are found in shops. Some souvenirs are found in the world, while others are found in the Sim's inventory.

Whats New
New Skills

You can learn three new skills while traveling the world: Martial Arts, Nectar Making, and Photography. All three of these skills may be learned while on trips, but the benefits of the skills extend far beyond the limits of your visa.

These skills can be brought back home and used there, too. A Sim who returns to Riverview with a bottle a sweet nectar not available at the EverFresh Supermarket will be a popular Sim indeed.

And woe to the Burglar who tries to rob a Sim with an advanced Martial Arts skill.

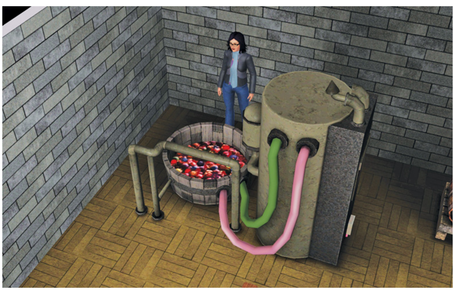
Martial Arts

Martial Arts is the skill learned in China. It's separate from the Athletic skill. It is originally learned by either reading a book about the skill or by checking into the dojo in Shang Simla.

There, Sims will find the necessary equipment to train up the skill, such as Board Breakers.

Sims who learn Martial Arts become excellent fighters. They don't go around picking fights, though. This is a defensive skill, but one that pretty much guarantees that a Sim forced into a brawl will walk away the victor.

Nectar Making

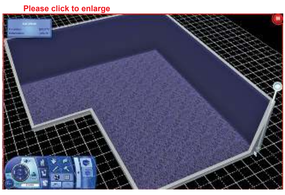


Sims who visit France can begin mastering the fine art of making nectar. Visit the Nectary to check out a public Nectar Maker and start squashing fruit to make batches of the delicious beverage.

Adding quality fruits to the Nectar Maker will result in better nectar, which means better moodlets for drinking the stuff, as well as better prices when selling it.

Buy a Nectar Maker and install it back home so you can keep developing the skill when not in France.

Please click to enlarge



Nectar ages well in a cellar. That means you better make a basement for your house if you pursue this skill. There is a brand-new tool in Build Mode for easily constructing basements.

Be sure to check out how to do it in the Nectar Making section of the New Simology chapter.

Photography

Photography is not tethered to any one destination. It can be developed in any of the three travel spots by either reading the beginner's book or by just buying a camera from a shop and snapping some pictures.

Photos are added to different collections. When you complete a collection, you boost the skill.

It costs Simoleons to take photos, but the benefits of completing collections and eventually mastering the skill make it as valuable as the Painting skill.

Tip

There are three cameras, but the medium- and high-quality cameras can be purchased only in Egypt.

Note

The full progression of each skill and tips for how to speedily develop it are detailed in the New Simology chapter.

Whats New

Relics

Ancient Coins are not the only things to seek while on vacation. Relics are special treasures to buy or find and then bring home as interesting souvenirs to show off.

Find relics in rubble piles, inside treasure chests, and even just lying around inside tombs. For the less adventurous, relics can also be purchased at merchants.

Note

Relics are generally categorized by culture: Chinese, French, and Egyptian. As you collect relics from each culture, it is logged in your Adventure Journal.

Relics can also be sold for profit, just like the collectibles back in your home town. In fact, this is a great way to make Simoleons while on vacation. Some relics are worth as little as 100 Simoleons.

Some are worth as many as 4,000 Simoleons. You can see how a vacation might pay for itself (and then some) with a lucky find.

Note

Not every relic found is valuable. Sometimes you discover wrecked relics that are worth very little.

But perhaps you would rather keep these relics for yourself? After all, relics are extremely attractive and go a long way toward sprucing up a lot back home in Sunset Valley or Riverview.

Placing relics in your house adds to the environmental rating of the room, which can result in a moodlet boost just for walking though it, such as Nicely Decorated.

Each relic belongs to a collection, too. There are nine collections:

Canopic Jars

Gold Figurines

Zodiac Animals

Chinese Vases

Dangerous Creatures

Dropa Stones

Egyptian Tomb

Chinese Tomb

French Tomb

When you complete a collection, just being around it gives you a nice moodlet boost called Wondrous Collection. Depending on the collection, you get a different moodlet boost. Here are the moodlets associated with each collection:

Relic Moodlets

Wondrous Collection	Moodlet Value
Canopic Jars	10
Chinese Vases	10
Dropa Stones	15
Gold Figurines	20
Zodiac Animals	20
Dangerous Creatures	25
Chinese Tomb	30
Egyptian Tomb	30
French Tomb	30

Note

These and all new moodlets are discussed in the New Simology chapter.

Much like Ancient Coins, you will not find the same relics in the same places with each tomb visit. (The maps for each tomb in the individual location sections show what kinds of relics to expect in certain locations.)

But, here is a chart that shows the value for each relic, the destination in which the relic is found, and which collection it belongs to.

What's New

Adventures

When Sims arrive at their destinations, they have so many different options. Shop? Learn a skill? Socialize? The most thrilling activity at each destination, though, is the adventure.

Adventures are similar to opportunities in The Sims 3, but are typically tied to a specific task, such as diving into a tomb or looking for a special relic.

Adventures are usually given out by Sims who live at the destination. They present you with an opportunity that you can accept or decline.

If you accept, the adventure goes into your Adventure Tracker (more on that in a moment) and you're off to fulfill the task at hand. If you complete an adventure, you are typically awarded points for your visa and some Ancient Coins.

Some adventures have multiple steps and might require additional trips to a destination to complete. However, the harder the adventure, the greater the reward.

Note

All of the adventures for each destination are cataloged and detailed in the China, Egypt, and France chapters. Use the maps in each of those chapters to complete the adventures.

Why Adventure?

There are many reasons to take on an adventure. The most obvious is to increase your visa level so you can spend longer at a destination. But the adventure itself is often the reward.

Adventures send you on cool missions to explore dark tombs and seek out unseen treasures.

If you combine going on adventures with all of the stuff to do above ground, you can have wonderful, well-rounded vacations that leave your Sim fulfilled on all levels.

And your Sim usually brings home a suitcase full of neat stuff, like relics.

Catherine's First Trip

Catherine’s First Trip

We’ve gone over the basics of travel, but let’s see how it all works before getting too deep into tomb technology, the development of the three new skills, and mapping out each destination. And what better guide for this first trip abroad than Catherine Browne?

Well, the Sim Catherine Browne. Back home, Catherine has already boosted many skills such as Writing and Painting and is earning decent money from selling collectibles, such as gems and metals.

She’s saved up for this trip and is now ready to pick up the phone and make those first travel arrangements.

For her first trip, Catherine goes to China. Because this is her very first trip, it’s limited to just three days. But you can pack a lot into just three days: shopping, socializing, and tomb exploration.

Here is Catherine’s trait breakdown so you can see how those choices might potentially play into an adventure:

Trait 1: Adventurous

Trait 2: Loves the Outdoors

Trait 3: Bookworm

Trait 4: Natural Cook

Trait 5: Photographer’s Eye

Lifetime Wish: Seasoned Traveler

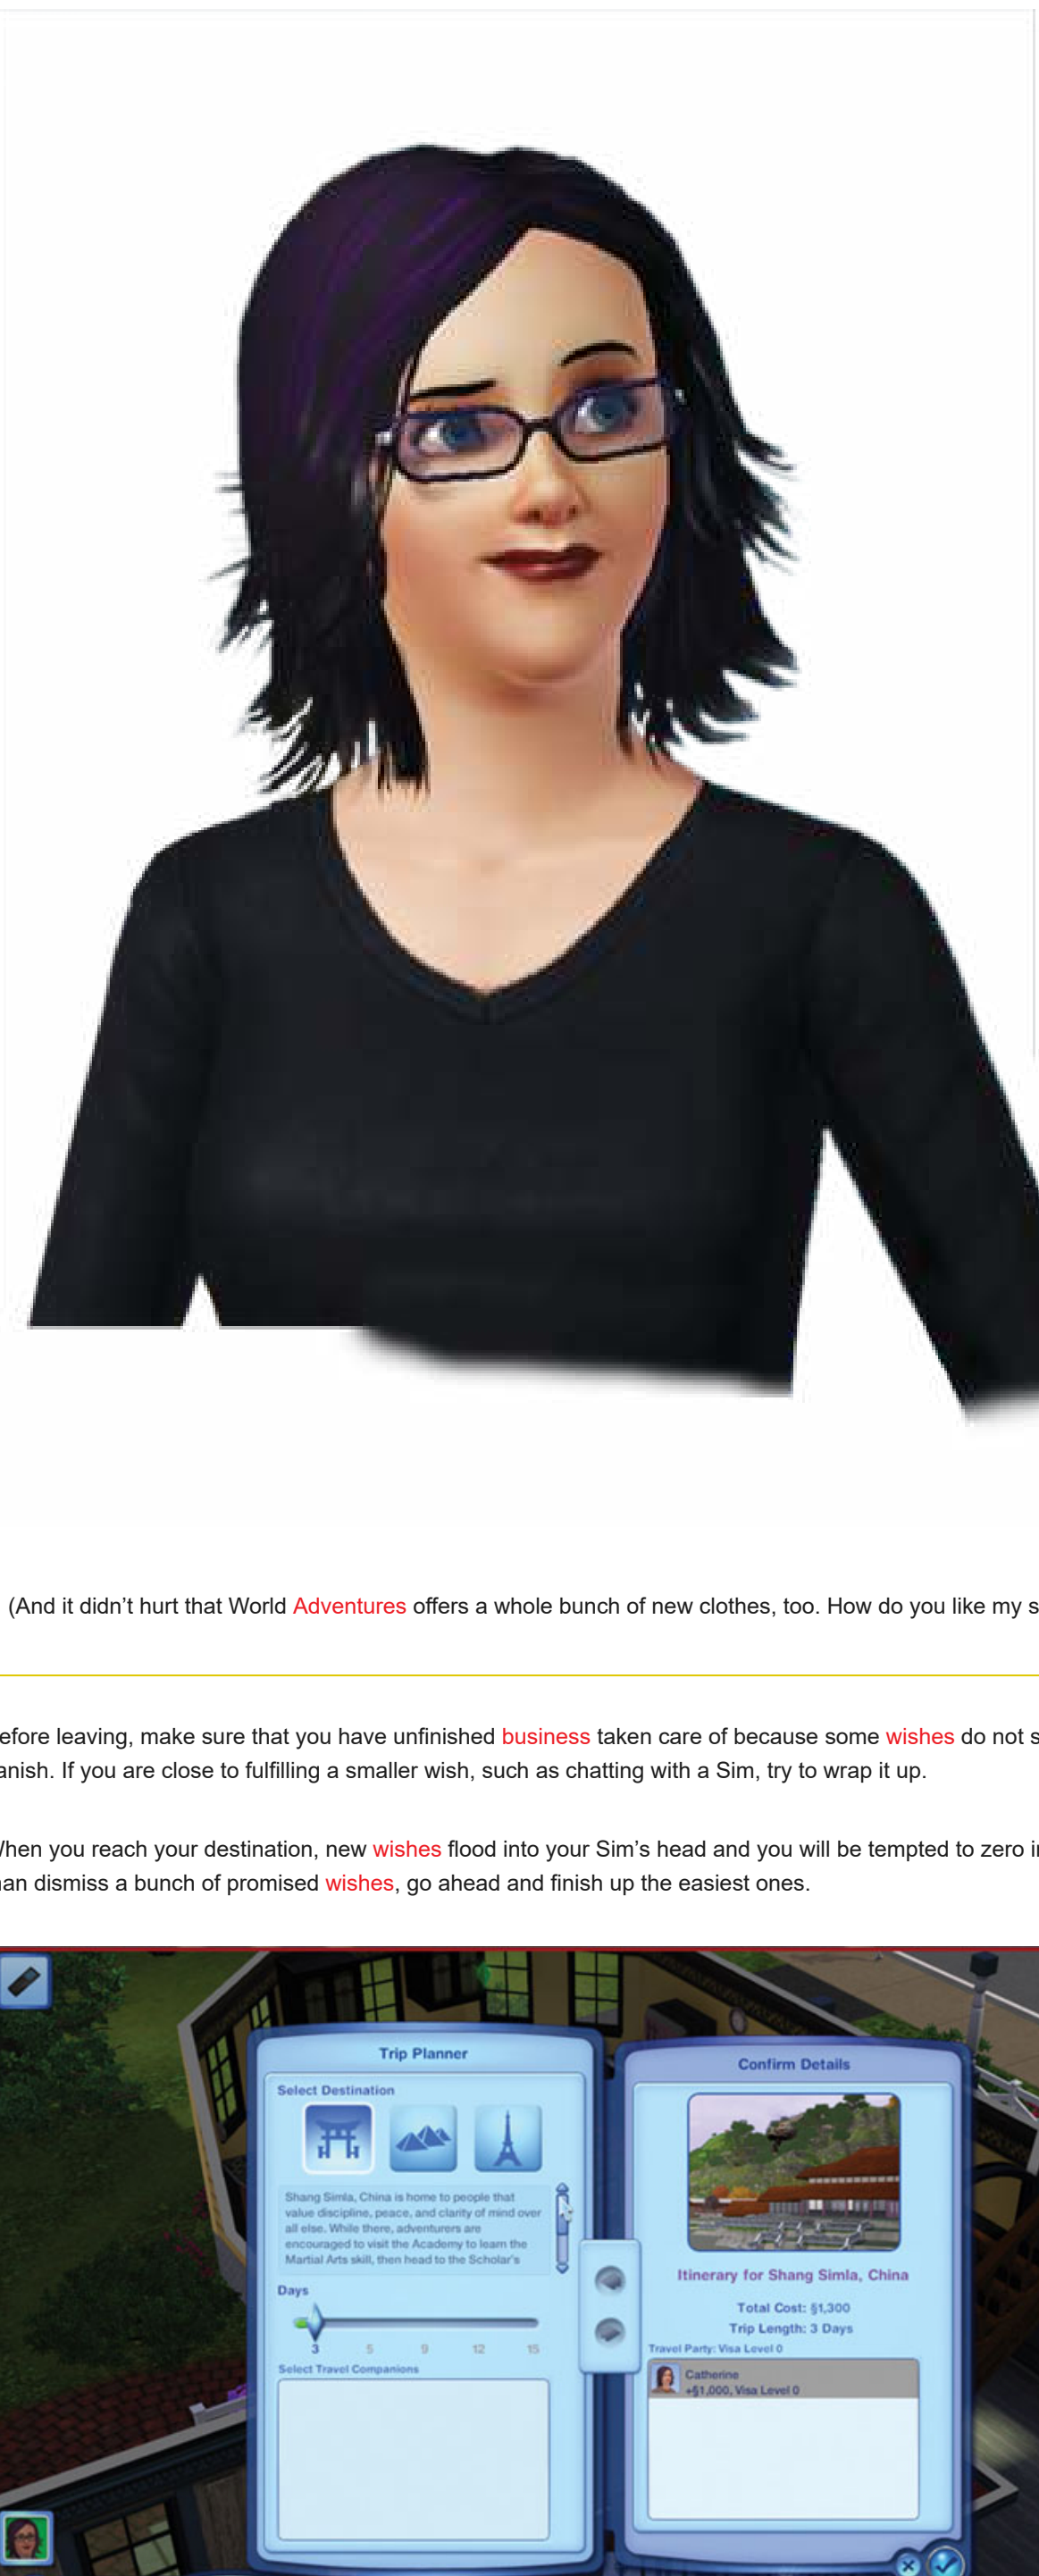
Brownie Bites

Now, I had created a Catherine Browne Sim for playing The Sims 3 so I could build skills, socialize, and do all the things needed in order to write The Sims 3 Primer.

However, when it came time to go on an adventure, I wanted to create a brand-new Catherine Browne that used some of the new traits offered in World Adventures.

I also wanted to strive for one of the new Lifetime Wishes. I chose Seasoned Traveler, which is the dream of getting level 3 visas in all three destinations.

These new traits and new wishes are all detailed in the New Simology chapter, along with the new skills and new ways to socialize with other Sims.



(And it didn’t hurt that World Adventures offers a whole bunch of new clothes, too. How do you like my scarf?)

Before leaving, make sure that you have unfinished business taken care of because some wishes do not survive travel and vanish. If you are close to fulfilling a smaller wish, such as chatting with a Sim, try to wrap it up.

When you reach your destination, new wishes flood into your Sim’s head and you will be tempted to zero in on those. Rather than dismiss a bunch of promised wishes, go ahead and finish up the easiest ones.

As soon as everything is in order and Catherine has enough in her household funds for the trip, I access the phone and choose the Travel interaction.

This opens the Trip Planner. I’ve already decided on China, so I select it from the planner. The money for the trip is subtracted from the household funds and a taxi immediately pulls up to the house.

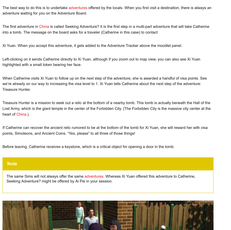
Catherine hops in the cab and it drives out of the city, presumably to take her to the airport where she will fly off into the horizon.

Catherine's First Trip

Day One

This is Catherine's first trip to China, so her visa is at zero. Not only does this limit Catherine's trip to just three days, but it means that when Catherine touches down in China, she is dropped off at base camp.

In China, base camp is actually quite lovely and accommodating. The giant facility has everything she needs inside, such as beds, a kitchen, and bathrooms.



First things first: check the Adventure Board.

The Adventure Board is Catherine's first stop because I want to make sure she can spend more time in China on her next visit. To do this, I need to earn points for her visa.

The best way to do this is to undertake adventures offered by the locals. When you first visit a destination, there is always an adventure waiting for you on the Adventure Board.

The first adventure in China is called Seeking Adventure!! It is the first step in a multi-part adventure that will take Catherine into a tomb. The message on the board asks for a traveler (Catherine in this case) to contact

Xi Yuan. When you accept this adventure, it gets added to the Adventure Tracker above the mooded panel.

Left-clicking on it sends Catherine directly to Xi Yuan, although if you zoom out to map view, you can also see Xi Yuan highlighted with a small token bearing her face.

When Catherine visits Xi Yuan to follow up on the next step of the adventure, she is awarded a handful of visa points. See we're already on our way to increasing the visa level to 1. Xi Yuan tells Catherine about the next step of the adventure: Treasure Hunter.

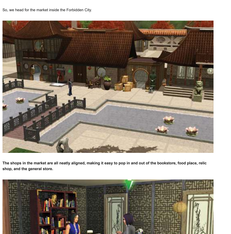
Treasure Hunter is a mission to seek out a relic at the bottom of a nearby tomb. This tomb is actually beneath the Hall of the Lost Army, which is the giant temple in the center of the Forbidden City. (The Forbidden City is the massive city center at the heart of China.)

If Catherine can recover the ancient relic rumored to be at the bottom of the tomb for Xi Yuan, she will reward her with visa points, Simoleons, and Ancient Coins. "Yes, please" to all three of those things!

Before leaving, Catherine receives a keystone, which is a critical object for opening a door in the tomb.

Note

The same Sims will not always offer the same adventures. Whereas Xi Yuan offered this adventure to Catherine, Seeking Adventure!! might be offered by Ai Pei in your session.



When Catherine visits Xi Yuan to follow up on the next step of the adventure, she is awarded a handful of visa points. See we're already on our way to increasing the visa level to 1.

Xi Yuan tells Catherine about the next step of the adventure: Treasure Hunter. Treasure Hunter is a mission to seek out a relic at the bottom of a nearby tomb.

This tomb is actually beneath the Hall of the Lost Army, which is the giant temple in the center of the Forbidden City. (The Forbidden City is the massive city center at the heart of China.)

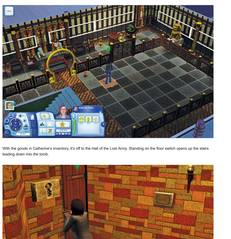
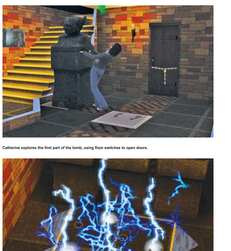
Before leaving, Catherine receives a keystone, which is a critical object for opening a door in the tomb.



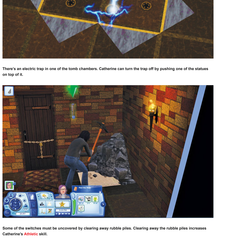
Before going into the tomb to seek out the treasure, though, Catherine needs some survival gear.

Because I want to get the most out of the three days (trust me, three days can fly by when you are first exploring a destination and undertaking an adventure), I do not want to spend too much time traveling back to base camp at night to use the facilities.

So, we head for the market inside the Forbidden City.



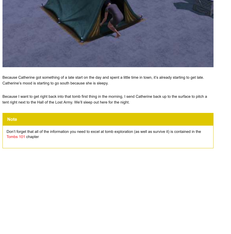
The shops in the market are all neatly aligned, making it easy to pop in and out of the bookstore, food place, relic shop, and the general store.



Catherine can shop at the other stores later, and she will because I definitely want to pick up the entry-level Martial Arts skill book and at least one recipe from the bookstore.

But because time is of the essence, we go straight for the general store and buy a tent, two Showers in a Can, and several portions of yeast food.

I spring for the medium quality so Catherine gets a pleasant mooded bunny when she eats them.



With the goods in Catherine's inventory, it's off to the Hall of the Lost Army. Standing on the four switch opens up the stairs leading down into the tomb.

Using the keystone on the panel next to the door at the bottom of the steps opens the tomb.

Catherine explores the first part of the tomb, using floor switches to open doors.

There's an electric trap in one of the tomb chambers. Catherine can turn the trap off by pushing one of the statues on top of it.

Some of the switches must be uncovered by clearing away rubble piles. Clearing away the rubble piles increases Catherine's Athletic skill.

Because Catherine got something of a late start on the day and spent a little time in town, it's already starting to get late. Catherine's mood is starting to go south because she is sleepy.

Because I want to get right back into that tomb first thing in the morning, I send Catherine back up to the surface to pitch a tent right next to the Hall of the Lost Army. We'll sleep out here for the night.

Tip

Don't forget that all of the information you need to excel at tomb exploration (as well as survive it) is contained in the Tombs 101 chapter.

Catherine's First Trip

Day Two

Morning dawns on Catherine's second day. She really needs to complete the tomb today so we can get some social stuff, shopping, and skill-building done on the third day of the trip.

As soon as Catherine is awake and out of the tent, she uses a Shower in a Can to ward off any negative Hygiene moodlets. A quick bite of dried food and then it is back to the tomb.

Catherine continues exploring the tomb, pushing deeper into its depths by unlocking doors. A chamber contains several treasure chests and these chests contain relics.

I direct Catherine to move some of the statues around the room so she can open the chests and take whatever is inside.

Tip

Like clearing rubble piles, moving the heavy statues in a tomb increases the Athletic skill

One of the chests holds Ancient Coins. Those will be great for buying Adventure Rewards as soon as Catherine's visa level goes up to at least 1.

Deeper exploration of the tomb reveals a dive well. Catherine uses the dive well to swim to a secret room. A treasure chest in the secret room holds the keystone for a nearby locked door.

With the keystone, Catherine can enter the chamber that Xi Yuan was talking about—the one with the ancient relic.

Once Catherine has the ancient relic described by Xi Yuan, she can return to the surface to finish the adventure.

Brownie Bites

By the way, I am not trying to be all clever and obtuse by calling the goal of this adventure an "ancient relic."

World Adventures is full of randomness, so you can replay the adventures multiple times with different Sims and not always see the same thing.

The merchant at the bookstore may sell the same books, but the merchant's appearance is never the exact same. The identity of the Sim who sends you off on a new adventure is always different.

The loot in the treasure chest changes because getting the exact same number of Ancient Coins or the exact same vase out of a chest with each visit to the same tomb would be boring.

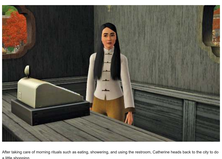
Now that Catherine has the relic, it's time to return to Xi Yuan to hand it over and receive her rightfully earned rewards.

Sure enough, Xi Yuan happily takes the relic and rewards Catherine. Her visa level goes up to 1. Now she can stay in China for five days on her next visit.

It is starting to get late, so Catherine heads back to base camp. There, she can get a good night's sleep in a real bed and make breakfast in the kitchen in the morning.

Tomorrow, she will finish her first excursion with some skill-building, play time, and socializing.

Catherine's First Trip
Day Three



After taking care of morning rituals such as eating, showering, and using the restroom, Catherine heads back to the city to do a little shopping.

She goes to the bookstore and buys Martial Arts Vol. 1: Wax On Philosophic. This book will teach her the Martial Arts skill and get her started on a journey of physical and mental enlightenment.

I find a nice bench or sofa somewhere and plop Catherine down to do some reading. As soon as she finishes that book, she is a level 1 martial artist.

At the completion of the book, Catherine gets on her bicycle and rides to the Phoenix Martial Arts Academy.

There is martial arts equipment here—a Training Dummy and a Board Breaker for her to work with so she can raise that skill level up to 2 before the day is out.

Because level 1 cannot use the Board Breaker, Catherine works on the Training Dummy first.

Once she reaches level 2, Catherine gives the Board Breaker a few good whacks before it gets too late.

Tip

Working on the Martial Arts skill decreases Hygiene. It doesn't take long before Catherine is Smelly. Fortunately, she can use the shower at the Martial Arts Academy before heading back into the Forbidden City.

Back at the Forbidden City, Catherine returns to the general store to buy the Training Dummy.

I want her to keep working on this skill. The purchased dummy is immediately transferred to the household inventory where it can be placed on the lot in Buy Mode once she returns home.

I also buy some Golden Dragon Fireworks. You'll see why in a moment.

Because Catherine has a wish to meet a local, I mingle with the folks walking around the Forbidden City.

A family seems in one of the pools. Catherine approaches the little boy on the edge of the pool and engages in friendly conversation, which satisfies the wish. There are some easy Lifetime Happiness points right there.

Once Catherine is on friendly terms with the little boy, a new interaction appears in the social menu: Learn Song. When I choose this, the little boy starts teaching Catherine a song.

Catherine follows along with the boy, singing parts of it back to him until she has the song down. Now Catherine can share this song with other Sims. And not only that, but singing with the little boy was a lot of fun for Catherine. She's in a great mood.

The trip is almost over, so let's end it with a bang and see if we cannot get Catherine all the way to the Having a Blast medallion.

Catherine places the fireworks on the lawn in the Forbidden City. I choose the Launch interaction on the fireworks and Catherine automatically stands back.

I stand back, too, in a sense, by pulling the camera all the way out to map view. This gives me a great view of the fireworks.

What a great way to end a first vacation.

Back at Home

Catherine arrives home, fulfilled. She cannot go on another trip for at least 24 hours, but that's okay. There is plenty to do at home, such as finish a novel and continue practicing the Painting skill.

Plus, she did buy a recipe to bring home: Egg Rolls. After reading the recipe for a few minutes, she's got it down and can add the exotic dish to her library of recipes.

In fact, because she's feeling a wee bit peckish, why not fry up a trio of egg rolls now and remember the trip?

Within just three days, Catherine has had fun exploring a tomb, making new friends, developing an all-new skill, and lighting fireworks, and she's even brought home some treasures.

In fact, she can hardly wait to go back to China and see what else lies just beneath the surface. But France is so tempting this time of year...

...and wouldn't it be fun to play snake charmer in the markets of Egypt? Come on, 24 hours, hurry it up!

Destination Guide

Touring

How To Use Destination Chapters

You know about all of the Lifetime Wishes. You have seen the new objects you can buy for your house. You understand how to survive a fire trap. You know exactly which new skill you want to tackle first.

You are just itching to get out there and explore. And we're happy to help you get the most out of your travels.

The following three chapters detail everything there is to do at each of the destinations—France, China, and Egypt. Each chapter is broken down into specific sections: touring the sites, shopping, adventure list, and tomb maps.

Before heading out the front door, make sure you take each destination chapter so you don't miss a thing.

Touring

Each destination chapter includes a general tour of the site before going into all of the adventures you can undertake as well as the tombs you can explore.

These tours include photos of the vacation homes you can buy once you max out your visa for that destination, the location of the markets and store inventories, and maps for all of the different collectibles and fishing spots.

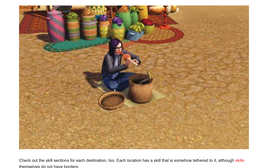
Shopping & Skills

With the exception of relic merchants, the shops at each destination have the same inventory every day. The same camera. The same books. The same bowls.

Only the relic merchants change their inventories daily, so be sure to check in regularly to see what's new on the shelf.

Each destination also has a special merchant, typically strolling around the marketplace—although they have been known to wander to other locations.

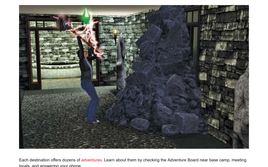
The special merchants share a common collection of goods, but they also have destination-specific items you definitely should browse.



Check out the skill sections for each destination, too. Each location has a skill that is somehow tethered to it, although skills themselves do not have borders.

The Martial Arts skill can be practiced in France by using the Training Dummy at the museum, for example. And Egypt even has its own hidden skill: Snake Charming. Don't miss out on that cool hidden skill. (It may even save your life one day...)

Adventure Lists



Each destination offers dozens of adventures. Learn about them by checking the Adventure Board near base camp, meeting locals, and answering your phone.

Some adventures are single outings. You go find something, help someone, and then report back to earn the reward.

However, there are many adventure chains—linked adventures to start as one ends. As you complete each adventure in the chain, you may or may not earn a reward when reporting the success of your current step.

Each destination includes a full list of adventures. The adventures are sorted into their chains (if relevant) and include the adventure title, the objective, the reward, and—if applicable—the tomb.

The tomb listing tells you know which tomb map to reference to satisfy the adventure objective.

When an adventure requires that you collect a certain number of something, that collectible is usually marked on map view.

Many adventures require talking to locals, perhaps to spread information or learn something. You'll see a new social, always noted in a gold bubble.

Often, you need to be acquainted with the local for the new social to be successful.

Trying it too early doesn't carry a penalty, but you will get a message saying you need to know the Sim better. So, chat them up, be friendly, learn a song from them—you have to butter 'em up to get what you want.

Tip

The Charisma skill is actually quite useful to develop because many adventure chains involve social situations.

Brownie Bites

Adventures are a great way to see a destination—but be sure to take some time during your travels to explore at your own pace.

Not every location at a destination is part of an adventure. Some sites are just cool to look at, such as the shipwreck in Egypt that you are never directed toward.

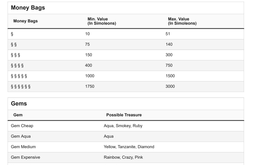
So, relax. Take a look around. After all, not all who wander are lost...

Tomb Maps

Many adventures require that you slip into a dangerous underground tomb or a daunting structure, such as a pyramid or shateau.

Each destination chapter includes maps of every tomb with traps pointed out so you never get shocked, burned, or soaked without warning.

We also call out hidden doors, dire well tunnels, keystone panels—you will not get lost. You will find the treasure. And you will emerge from the tomb victorious!



Many tomb maps also have photos that show you how to solve a tricky puzzle.

Because no two adventurers will have the same experience in a tomb, it is impossible to show you exactly what you will find in every treasure chest or on every pedestal.

The relics, gems, and precious metal nuggets you find in a tomb are, to a large degree, random; however, we point out specific spots where you are likely to find a valuable treasure.

We also point out the locations of the keystones. After all, without a keystone, you aren't going very far in most tombs.

Here are the treasures you can expect to find in a tombs, from bags of Simoleons to metal ingots to relics. When using our tomb maps, use these legends to determine the contents of a treasure drop.

Note

The number of Ancient Coins in piles are also random, although some piles are absolute jackpots. If it's tough to get at, chances are good the payout is big.

Collectables

All three destinations in World *Adventures* have collectibles, just like Sunset Valley and Riverview. However, in addition to the original collectibles, there are all-new ones to pocket.

Each destination has maps for the collectibles that pinpoint where you can find the goodies, such as butterflies and gems.

Collectibles are a great way to earn extra Simoleons on the side and decorate your home.

There are many adventures, too, that task you with finding collectibles—fortunately, though, the local offering the adventure is kind enough to mark the required collectibles on map view.

Butterflies

Butterflies fit about each new destination, just as they do back home. There are new butterflies for each destination.

As before, butterflies can be kept in your house in a terrarium or sold to the science facility in your hometown for extra Simoleons.

The number of Ancient Coins it pries are also random, although some piles are absolute jackpots. If it's tough to get at, chances are good the payout is big.

Butterfly	Location	Rarity	Base Value (in Simoleons)
Bamboo	China	Common	20
Dart	China	Rare	430
Crypt	Egypt	Uncommon	65
Cleopatra	Egypt	Extraordinarily Rare	1,200
Pasha	France	Uncommon	110
Glowy	France	Extraordinarily Rare	1,500

Beetles

Beetles skitter about the ground at each new destination—and there are a handful of new beetles in World Adventures, too. Keep beetles in terrariums back home or sell them for Simoleons.

Beetle	Location	Rarity	Base Value (in Simoleons)
Scarab	Egypt	Uncommon	180
Assassin	China	Rare	800
Cerambyx	France	Common	70

Gems

That might not be a rock you just stepped over. Look closer. Is there a little color poking out of the dull stone? Then that's a gem. There are several new gems in World Adventures located at each new destination.

> **Note**
>
> To get the Soulpeace Gem, you either need to discover it in a tomb or acquire it through displaying other gems. Here's how you can actually "make" a Soulpeace Gem in your own house: buy a large display in Buy Mode.
>
> Then, place one gem of every color on the display. Mix and match the cuts. This will not work if they are all the same or all different.
>
> Once you have the collection laid out, click on the display and choose "Activate." Voilà! You have a Soulpeace Gem.

When you find a gem on the ground, it is in rough form. You can increase its value by having it cut. Gem cuts cost Simoleons. You unlock additional cuts as you send more and more gems off.

There are brand-new cuts in World Adventures that look quite nice. Here is a chart of the cuts, including the cost of each cut and how much the cut multiplies the value of the gem.

The Sims 3 Gem Cuts

Gem Cut	Available After # Cuts	Value Multiplier	Cost of Cut (in Simoleons)
Emerald	0	1.25	10
Oval	4	1.5	20
Pear	8	1.75	35
Plumbbob	16	2	50
Marquis	30	2.3	75
Crystalball	45	2.6	100
Brilliant	60	3.5	250
Heart	Collect 10 different types of gems	5	1,000

New World *Adventures* Gem Cuts

Gem Cut	Value Multiplier	Cost of Cut (in Simoleons)
Spirit	2.4	45
Titanium	69	6,000
Skull	10	0

The Spirit cut is only available on Geodes and Septarian Nodules.

The Titanium cut is only available on Titanium gems.

To get the Skull cut, you need to follow a similar system to creating a Soulpeace Gem. First, buy a large display. Then, place the exact same type of gem in all open slots on the display.

All of these gems must have different cuts. Once you have the collection assembled, click on the display and choose "Activate." This turns the gems into one large Skull cut gem.

Metals

When you travel the world, you find new things. The new destinations have unique ores that cannot be mined anywhere else.

Metal	Locations	Minimum Weight	Maximum Weight	Value of a Min. Weight (in Simoleons)	Value of a Max. Weight (in Simoleons)
Iron	All	1	52	7	20
Silver	All	1	52	25	35
Gold	All	1	52	40	120
Palladium	All	80	300	300	500
Plutonium	All	0.1	5	1,000	1,800
Mercury	China	1	52	100	400
Platinum	China	1	52	250	336

Supernovium	Collection Display Interaction	30,000	55,000	3,500	5,500
Compendium	Collection Display Interaction	1,100	5,500	Variable	Variable

> **Note**
>
> To get Supernovium and Compendium, you need to follow a similar system to creating a Soulpeace Gem or a Skull cut. Buy a large display.
>
> To get Supernovium, place different types of metal in most of the slots of the display (but fill all slots). Then, click the display and choose "Activate" to create Supernovium.
>
> To create Compendium, follow the same step but instead of different types of metal, place mostly the same type of metal on the display (Still, throw one or two different metals in there.)
>
> Then, use the "Activate" interaction to make the Compendium.

> **Note**
>
> In the wild, you typically find metals in ore form. You can increase their value by smelting them into ingots. Send the ore away to be smelted, which costs §40. When you get the ingot back, its value has increased by 75 percent.

Meteorites

Space rocks crash to the ground all over the world—not just in Sunset Valley or Riverview. Meteorites comes in three sizes. The larger the rock, the more valuable it is. However, size isn't the only factor. Analyze meteorites to find out exactly what they are.

Now, there are some risk to this. The raw value of a meteorite may actually be more than its analyzed value. Once analyzed, you cannot undo the process either.

So, are you a betting person? Is that huge meteorite a Kamaxite, thus improving the value? Or is it really an Ordinary Chondrite, thus lashing the value?

Space Rock	Min. Weight	Max. Weight	Value of Min. Weight (in Simoleons)	Value of Max. Weight (in Simoleons)

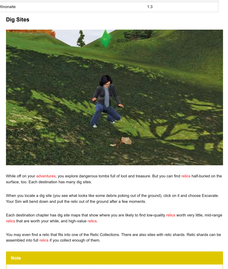
Dig Sites



While off on your adventures, you explore dangerous tombs full of loot and treasure. But you can find relics half-buried on the surface, too. Each destination has many dig sites.

When you locate a dig site (you see what looks like some debris poking out of the ground), click on it and choose Excavate. Your Sim will hand down and pull the relic out of the ground after a few moments.

Each destination chapter has dig site maps that show where you are likely to find low-quality relics worth very little, mid-range relics that are worth your while, and high-value relics.

You may even find a relic that fits into one of the Relic Collections. There are also relics with relic shards. Relic shards can be assembled into full relics if you collect enough of them.

> **Note**
>
> There is a degree of randomness to what you find at each dig site.

China

Welcome To China

According to your Adventure Journal, Shang Simla is an isolated community in the mountainous region of China. The craggy peaks surrounding the area preserve the idyll, making it a pleasant place to visit.

China has a different atmosphere from the other destinations—it is much more peaceful.

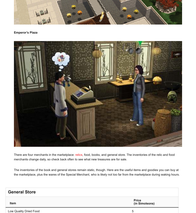
Locals are more relaxed and less stressed, thanks in no small part to the mental clarity afforded by the destination's beautiful temples and gardens, as well as the local skill: Martial Arts.

However tranquil Shang Simla looks from above, though, its underworld is a much different story.

Below the temples and monuments are several dangerous tombs, just waiting for a careless Sim to traipse through and never be heard from again.

The marketplace is in the center of town, within the walls of the Forbidden City. The market fills with locals, giving you ample opportunity to shop at an active time, learn songs, and make new friends.

You can earn in-Sunstone to examine or stress-reducing pleasure. But even though there are all of these great things to do around the marketplace, you know what you are here for: spending Simoleons.



Emperor's Place

There are four merchants in the marketplace: Alfina, food, books, and general store. The inventories of the kids and food merchants change daily, so check back often to see what new treasures are for sale.

The inventories of the book and general stores remain static, though. Here are the useful items and goodies you can buy at the establishments, plus the scene of the Special Merchant, who is likely not far far from the marketplace during leveling times.

Buy Rosevine from the general store and launch them into the air to put on a great show and have fun.

Fortune Cookies

What's the Fortune Cookie Maker at the general store? This fun machine produces fortunes inside delicious little cookies.

There is a Fortune Cookie Maker inside the food shop at the marketplace, so get that 4 by before you plunk down the Simoleons for your new to-take home.

When activated, the Fortune Cookie Maker shakes and whirs, eventually spitting out a little cookie with a slip of paper inside. While your Sim munches on the cookie, they read their fortune.

If it's a good fortune, they get the Promising Fortune modifier. If the treat that pops out of the machine is actually a misfortune cookie, then they get the negative Foreboding Fortune modifier.

Tip

Did you get a downer of a cookie? Then fire up the machine again and see if you can get a good fortune to reverse the effect of the negative modifier.

Note

You can also leave your own notes inside the fortune cookies created by the machine.

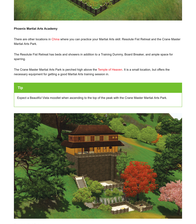
Lucky Shiro learn to get good fortunes more often.

Well, did you like the Fortune Cookie Maker? Then buy it from the merchant. The machine is added to your family inventory.

When you return home from China, you can place it anywhere in your house and enjoy a fresh fortune cookie at your leisure.

If luck is on your side, your whole household can benefit from the good vibes that come from good fortune cookies.

Martial Arts Skill



As you know, each destination in World Adventures has a skill that is somehow tethered to it. Chicoria skill is Martial Arts.

You can learn this skill by reading a book or just heading up to the Phoenix Martial Arts Academy just outside the Forbidden City and starting to talk one of the provided Training Dummies.

The academy also has Board Breakers you can use when you develop the skill up to level 2.

Expect to find a lot of other Sims around the academy—talk with them, get to know them, and then spar with them. Sparring is a wonderful way to develop the Martial Arts skill while you are in China.

Note

The Phoenix Martial Arts Academy has a bathroom with showers so you can wash off the post-training funk.

Phoenix Martial Arts Academy

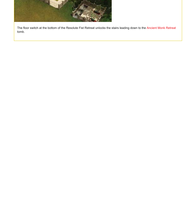
There are other locations in China where you can practice your Martial Arts skill. Resolute Fort Retreat and the Crane Master Martial Arts Park.

The Resolute Fort Retreat has beds and showers in addition to a Training Dummy, Board Breaker, and ample space for sparring.

The Crane Master Martial Arts Park is perched high above the Temple of Heaven. It is a small location, but offers the necessary equipment for getting a good Martial Arts training session in.

Tip

Expect a beautiful Vista mountain when ascending to the top of the peak with the Crane Master Martial Arts Park.



Resolute Fort Retreat

Crane Master Martial Arts Park

Tip

The first switch at the bottom of the Resolute Fort Retreat unlocks the stairs leading down to the Ancient Monk Retreat ruins.

Sight-Seeing - China

Sight-Seeing

Ready to go on some adventures in China and increase your visa? Then expect to do some sight-seeing around Shang Simla. There are a number of community lots you will visit in addition to the marketplace and skill-related sites detailed earlier.

There are tomb entrances to investigate, graveyards to explore, and vacation houses to covet.

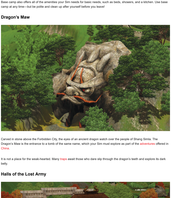
Abandoned Barn

The Abandoned Barn looks quite ordinary, but it is the entry to a small hidden temple below the earth.

Base Camp



When you first arrive in Dinira, your initial stop is the base camp. The Adventure Board in front of the base camp gets you started on your very first adventure—stop there right away and see what's being offered in Ishiya Shire.

Base camp also offers all of the amenities your Skin needs for basic needs, such as beds, dressers, and a kitchen. Use base camp as your home—but be polite and clean up after yourself before you leave!

Dragon's Wave

Carved in stone above the Forbidden City, the eyes of an ancient dragon watch over the people of Shang Sinma. The Dragon's Maw is the entrance to a tomb of the same name, which your Skin must explore as part of the adventures offered in Dinira.

It is not a place for the weak-hearted. Only traps await those who dare dig through the dragon's teeth and explore its dark lairs.

Halls of the Lost Army

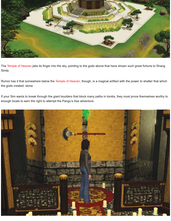
The Halls of the Lost Army is a temple in the middle of the Forbidden City. Just below the hall is a tomb where visitors to Dinira can get their feet wet, exploring their very first tomb at the download.

It's not the toughest tomb your Skin will encounter, but one wrong move will take him to the underworld rightly.

Land of the Ancestors

Nestled in the mountains above the Forbidden City is the Land of the Ancestors, the ancient burial ground of Shang Sinma.

This graveyard is a quiet place to visit...during the day. Is your Skin brave enough to pay their respects to the ancestors after the sun has set?



Explore the catacombs below the burial ground, just like the cemetery back in your home town.

Scholar's Garden

The peaceful Scholar's Garden is a relaxing respite in a destination that is already stunningly peaceful. Stroll walk among the manicured plants and breathe deep the outdoor air.

Skins with a developed Logic skill may use the telescope to search the heavens or practice their mental fortitude at the outdoor chess table.

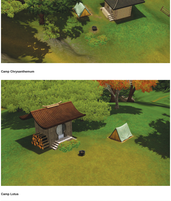
Inside the small structure on the garden grounds, Skins may relax in plush chairs and read a selection from the bookshelves.

Note

The Scholar's Garden also has a Training Dummy and Board Breaker if you want to break a physical sweat as well as a mental one.

Name heavenly bodies over Dinira by searching the galaxy through the telescope.

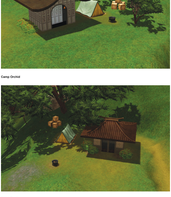
Temple of Heaven



The Temple of Heaven jabs its finger into the sky, pointing to the gods above that have shown such great fortune to Shang Sinma.

Rumor has it that somewhere below the Temple of Heaven, though, is a magical artifact with the power to shatter that which the gods created: stone.

If your Skin wants to break through the giant boulders that block many paths in Inimia, they must prove themselves worthy in enough trials to earn the right to attempt the Penguin's Axe adventure.



Penguin's Axe is located in the Temple of Heaven—it is the only place you will find this treasure and only as part of the Penguin's Axe adventure.

Penguin's Axe lets you smash through giant boundary in other tombs. Go back to previously explored tombs with that magical axe and open new areas with great treasures.

Terracotta Army

It is said that the emperors of old would need a great army to escort them into the underworld. And so vast plateaus of terracotta soldiers were fashioned from ancient clay and erected on the site where the emperor's physical body was buried.

The Terracotta Army is a breathtaking sight to behold, but below the clay bosoms of the tunnels that shall fight for the emperor in the afterlife is the tomb of the Dragon Emperor. Does your Skin dare set foot on such hallowed ground?

Camp Sites

We've all been there. You're halfway done with an adventure but the Sleepy meedlet is about to turn red. You don't want to waste a round of time hustling it back to base camp.

Traveling Skins are always welcome to take a snooze or use the bathroom facilities at any of Dinira's camps.

Tip

Steer yourself by the fire pit before tucking into that tent.

Camp Chrysanthemum

Camp Lotus

Camp Orchid

Camp Peony

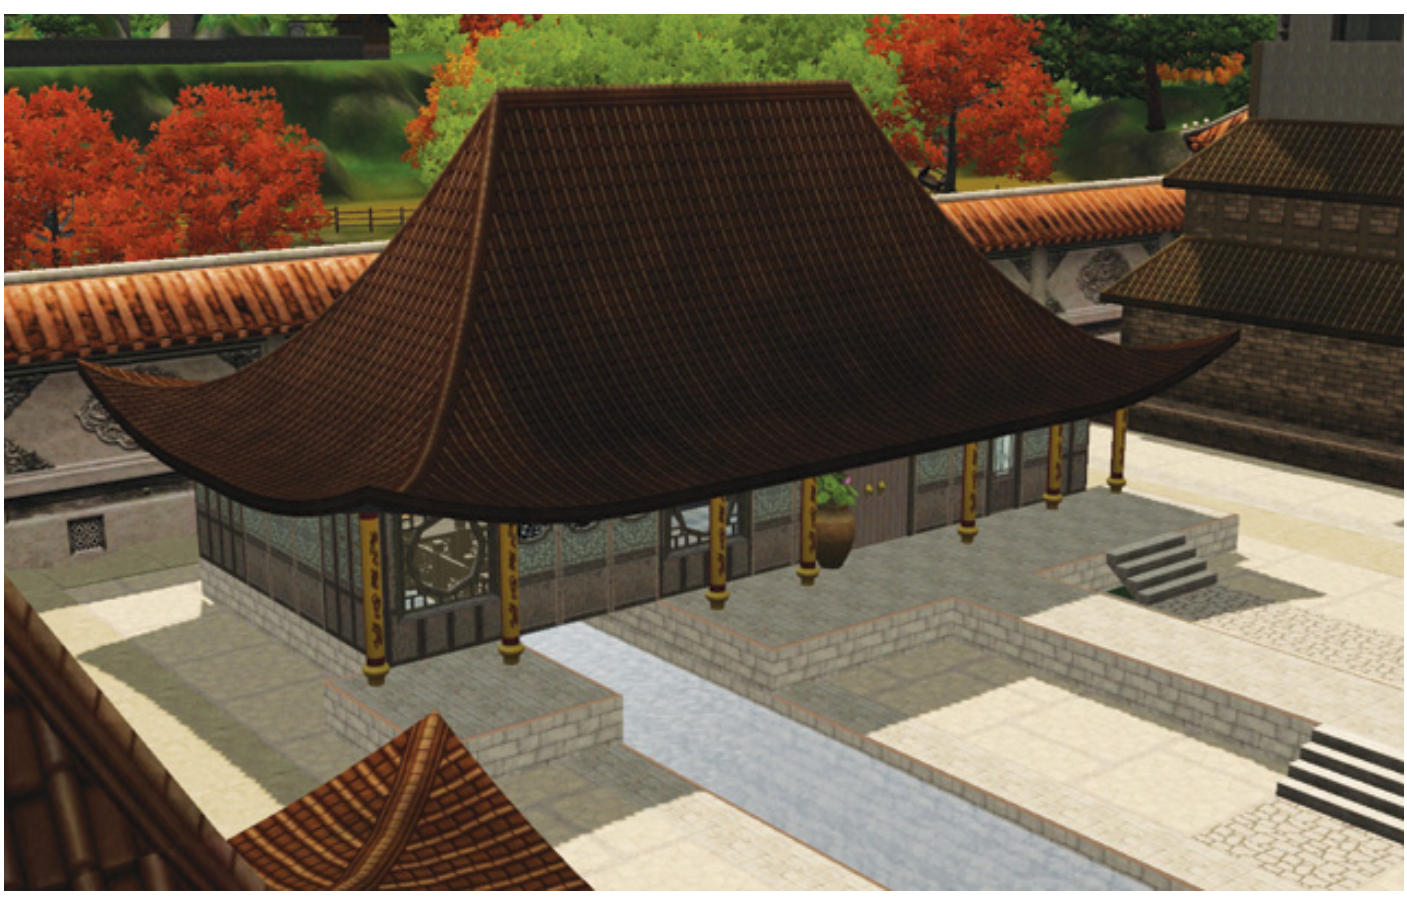
Vacation Homes

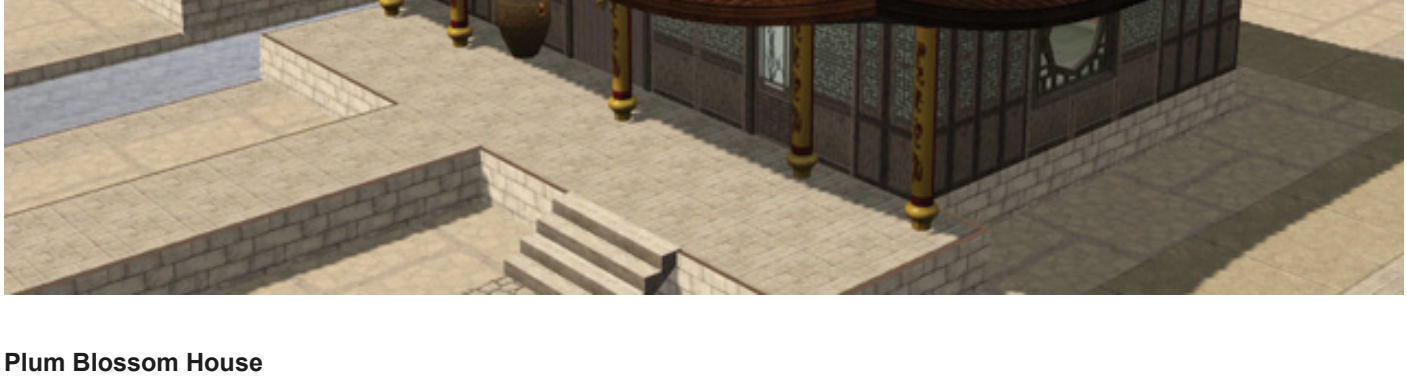
Once Sims have achieved level 3 of their visa, they can buy vacation homes in China to enjoy during their extended stays. Here are the available homes in China:



Lotus House

Palace in the Clouds

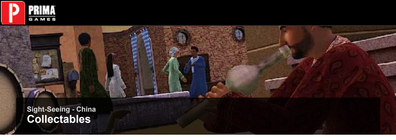
Plum Blossom House



West Royal House

Note

Sims can also buy empty lots and build their own vacation homes on them.



Sight-Seeing - China

Collectables

Although there are many adventures to undertake in China, don't forget to explore the landscape and seek out all sorts of collectibles.

There are many new collectibles to pick up in China and bring back to your home town that cannot be found anywhere else, so use these maps as guides for where to poke around.

Remember, new collectibles spawn every morning, so if you did not spot a certain collectible you were looking for yesterday, check back today to see if it appears.

Dig Sites

China has several dig sites where you can root around and look for treasures and relics. Use this map of the various sites around China to see where your Sim can possibly excavate and hopefully dig up something valuable.

Tip

These dig sites are sometimes useful for uncovering relics and treasures that help with adventures.

France

Welcome To France

Champs Les Sims was settled centuries ago, at the end of the medieval period. With firm roots in the past, this French hamlet has a finely developed sense of history.

It is a place of good food and good culture, from the stunning works of art at the Gallerie d'Art to the fine nectars brewing at the Champs Les Sims Nectary.

Sims who deserve a taste of nectar and the experience of a relaxed lifestyle should book a trip to France and soak up the majesty—and mystery—of Champs Les Sims.

Chapter 3

Shopping And Skills

Though houses line both sides of the river and classic estates stretch toward the hills, Champs Les Sims' focus is its lovely downtown area. Here, you will see Sims leisurely strolling through the hamlet, doing a little shopping and socializing.

Many of these Sims seem to be having the time of their lives, just soaking up the relaxed atmosphere of Champs Les Sims.

Town Square

Acquaint yourself with several small shops around the Champs Les Sims town square. The Circle of Knowledge is the bookstore. The Catania Cafe is where you can buy food.

Essential gear is picked up at De Goncalves General Store. Relics are purchased at Alexis' Relics--check daily because inventory changes.

The Catania Cafe sells lots of fruit (including grapes) that you can use during your novice nectar-making attempts.

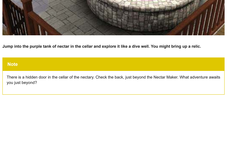
Nectar Making Skill

While you should also work on the Photography skill in France, the native skill at this destination is Nectar Making. The fine art of dropping a bunch of fruit into a basket and then stomping the life out of it has been handed down through the generations.

Now you can take part in the proud pastime of brewing up sweet nectar.

Champs Les Sims Nectary



This skill is best developed by just getting your feet covered in squished fruit, so head to the Champs Les Sims Nectary and use the free equipment there.

Place the required amount of fruit in the basket next to one of the three Nectar Makers (two above ground, one underground in the nectar cellar). Then step in and start stomping.

Downstairs in the nectar cellar, you will meet other Sims interested in tasting nectars and talking about the skill. Share a glass with these folks. It's easy to make a new friend over a bottle of nectar.

Jump into the purple tank of nectar in the cellar and explore it like a dive well. You might bring up a relic.

Note

There is a hidden door in the cellar of the nectary. Check the back, just beyond the Nectar Maker. What adventure awaits you just beyond?

Community Locations

On your first visit to Champs Les Sims, the countryside may prove so intoxicating that you never wish to leave.

You want to spend every day sitting out front of a little cafe, nibbling on a cheese plate while reading a fine book. But your new legal pro only have three days in France before it's time to head home.

Adventure will help you maximize that view, but knowing where everything is and what most of the community buildings provide will help you get the most out of your visits.

Champs Les Sims Base Camp

The Champs Les Sims base camp is a fully stocked place where your Sim can crash after a long day of adventuring, collecting, and making the rankers.

There are good-quality beds to sleep in for a solid night's rest, a kitchen to prepare meals, and good bathroom facilities for taking care of...business.

This is always your first stop in France unless you have managed to procure one of this destination's many wondrous vacation homes.

Check the Adventure Board on your way into the town square—perhaps a bit of excitement is just waiting to be had?

Chateau du Landgrabb

Chateau du Landgrabb is the palatial estate of a very famous family. It is said to have an astounding library inside, but getting to it is not easy. It's not that the owners of the estate are unfriendly.

No, "unfriendly" hardly describes somebody who would welcome guests with the traps.

Eastern Hills Cemetery

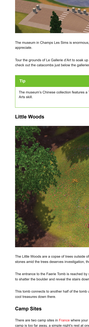
Those who have passed in France are interred at the Eastern Hills Cemetery on the outskirts of Champs Les Sims.

Pay your respects at the beautifully manicured graveyard, explore the catacombs for thrills, and just soak up the peaceful atmosphere.

If your Sim loves the outdoors, this is a great place to just get away from it all for a few moments and recharge before going off on another adventure.

Sims who like art should view the statue at the heart of the cemetery for a mood bump.

Eastern Watch



The Eastern Watch is one of the surviving ruins of the people who lived in this valley centuries ago.

Not much is known about the Eastern Watch, but perhaps on one of your adventures, you will learn more about this stone structure—such as how to even reach it. It's at the very core on an island.

There are dig sites on the Eastern Watch island to excavate for relics—and because it's hard to get out there, the chances of finding good treasures are greatly improved.

Forgotten Burial Mound

The stone circle near the mountains looks similar to Stonhenge. Perhaps these ancient monoliths are somehow related?

This peaceful site is a good place to visit and do some collecting during your downtime between adventures.

Stairs lead down to a burial chamber below the Forgotten Burial Mound. This looks like the start of an exciting adventure!

La Galleria d'Art

The museum in Champs Les Sims is enormous, full of beautiful works that only a Sim who takes art would be unable to appreciate.

Tour the grounds of La Galleria d'Art to soak up some culture and get a mood boost. You may need it when it comes time to check out the catacombs just below the galleries.

Tip

The museum's Chinese collection features a Training Dummy and Board Breaker that you can use to develop the Martial Arts skill.

Little Woods

The Little Woods are a copse of trees outside of Champs Les Sims where you can just get away from it all. A collection of stones send the trees downtrees investigators, though.

The entrance to the Faerie Tomb is reached by smashing the giant boulders in the middle of the trees. You need Pango's Axe to shatter the boulder and reveal the stairs down into the tomb.

This tomb connects to another half of the tomb underneath the Eastern Watch. Be sure to explore this tomb. There are lots of cool treasures down there.

Camp Sites

There are two camp sites in France where your Sim can sleep overnight while on an adventure and without a tent. If the base camp is too far away, a single night's rest at one of these campgrounds will keep you from getting too tired while out and about.

Rose Campground

Tulip Campground

Vacation Homes

Once you earn your level 3 visa for France, you can buy property. Check out these lavish vacation homes that could be yours. If you save up enough Simoleons and complete enough adventures to max out that visa. You can also build on empty lots.

Collectibles

Much like your home town and the other destinations, France has no shortage of collectibles. There are new butterflies flitting about, new grapes to harvest for your nectars, and new gems to send off to be cut.

Dig Sites

Secrets do not remain buried forever in France. Use this map of dig sites around France to excavate ancient relics and (hopefully) valuable treasures.

Digging up relics is a great way to make some side Simoleons and work on completing collections.

A large river runs through the center of the Champs Les Sims city area, and it's a prime spot for fishing.

However, travelers should also check out the Lake in the Hills for an additional fishing spot. The locals say the fish are almost always biting up there.

Egypt

Welcome To Egypt

The city of Al Simhara is built on land that was once ruled by pharaohs. These pharaohs had awe-inspiring monuments built for them, such as the Great Pyramid and Great Sphinx.

These towering masterpieces of ancient architecture—and the many crumbling ruins that were not so fortunate in the struggle against time—are all that is left of the ancients.

Or are they? Have explorers really found all there is to find in the deserts around Al Simhara? Locals say that there are still treasures in the sands of Egypt, just waiting for an intrepid Sim to discover.

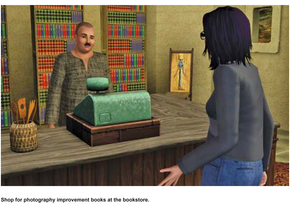
Shopping And Skills

At Simhara Market

Like the marketplace in China, the At Simhara market does not have defined store address on the map. Instead, travelers are encouraged to explore the market at their leisure, wandering in and out of the shops.

At Simhara has four individual shops: books, relics, food, and general store. You can buy all of the adventuring items you need at the general store, such as a Shower in a Can or a tent.



Shop for photography improvement books at the bookstore.

Note

The relic store's inventory changes daily, so check with the merchant often to see what's in stock.

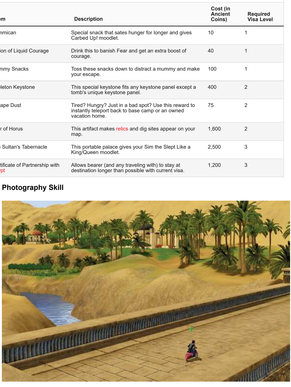
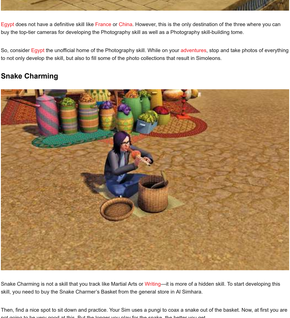
Photography Skill



Egypt does not have a definitive skill like France or China. However, this is the only destination of the three where you can buy the top-tier cameras for developing the Photography skill as well as a Photography skill-building tome.

So, consider Egypt the unofficial home of the Photography skill. While on your adventures, stop and take photos of everything to not only develop the skill, but also to fill some of the photo collections that result in Simoleons.

Snake Charming



Snake Charming is not a skill that you track like Martial Arts or Writing—it is more of a hidden skill. To start developing this skill, you need to buy the Snake Charmer's Basket from the general store in At Simhara.

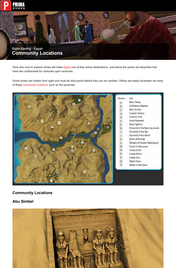
Then, find a nice spot to sit down and practice. Your Sim uses a pungi to coax a snake out of the basket. Now, at first you are not going to be very good at this. But the longer you play for the snake, the better you get.

Soon, you will be able to charm for tips, just as you can with the guitar.

Snake Charming is also one way to cure the Mummy's Curse moodlet given by a hardcore mummy attack. After charming for a long time, you may be able coax a cobra out of the basket and get the Snake-Kiss! moodlet, which dispels the mummy's curse.

Tip

Take your Snake Charmer's Basket home and practice there. The locals back home will be amazed by your exotic hobby!



Here will be a hub to explore some of the many Asgard and other prime destinations. Just review the events we described that have been undetected for centuries upon centuries.

Some homes are hidden from sight and must be discovered before they can be climbed. Others are easily accessed via many of these community locations. Here we list a few events.

Community Locations

Abu Simbel

The images of the pharaohs were carved into the rock cliffs at Abu Simbel, preserving their memories for the millennia. Before traveling forward to Asgard (but not until every clock has spun!), be sure to take in the wonder of this...well, wonder!

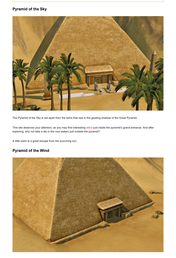
Al Simhara Base Camp

The facilities at Asgard's base camp are not as nice as those you find in Frankie de Clerks, but they do provide for all of your needs when first arriving in the desert paradise.

There is a bathroom where you can attend to hygiene. You can grab a quick snack or prepare a meal at the small kitchen there. Finally, Asgard's base holds one of the portable forts—those are in our every town.

If you want somewhere pleasant to relax in Asgard, either you can for a quality tent (perhaps the Sultan's Tabernacle) or buy a vacation home when you near end of your Asgard level.

Copper Quarry



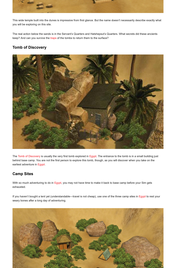
The Copper Quarry is the small stand near the Al Simhara marketplace is where the ancients pulled rich ore from the ground to create their sweeping relics and treasures. Return to the site of ancient copperworks to explore for lost treasures and other valuables.

Desert's End

Although the ancestors believed they could send forever in the afterlife by being mummified with their organs pulled from their bodies and placed in canopic jars, modern items don't quite go through all that trouble anymore.

The Desert's End is a traditional cemetery site with a boardwalk to explore for fun. Take a stroll through the site to unwind and listen to the beautiful views.

Great Pyramid



One of the wonders of the world, the Great Pyramid is a testament to the brilliance of ancient architects—and the skill of the shovelers.

The Great Pyramid is an essential stop for any Zen visiting Egypt and the gateway to one of the destination's most dangerous areas, the Tomb of Khefri.

With a name like that, you just know there has to be something good down there. Why else would they give it such a scary name?

Great Sphinx

Though the ancients were dedicated to the exploration of math and early sciences, they were not without mysticism. The Great Sphinx is a testament to this. At 73 meters tall, it is a monument dedicated to a lightningrod creature said to possess incredible knowledge.

> **Tip**
>
> If you are not affiliated to the Aurora's Crew member, come and stand before the Sphinx to be cured.

To explore inside the Great Sphinx, inspect the door between its front paws.

Oh. Apparently the wisdom of the Sphinx requires a little ingenuity of your own.

Pyramid of the Burning Sands

The Pyramid of the Burning Sands may look small next to the Great Pyramid, but it's still towering of wonder.

The interior of the pyramids is home to the Tomb of Burning Sands, which is hooked not by the blasting sun discuss, but a different heat source that grows steadily within its ancient chambers.

> **Note**
>
> The pyramid also contains the Tomb of the Rock, where you can explore wherever you like—even on your first visit. It's a good place to become massively stone-rich on an adventure.

Pyramid of the Sky

The Pyramid of the Sky is a tall spire from the tents that rest in the gleaming shadow of the Great Pyramid.

The site deserves your attention, as you may find interesting relics just inside the pyramid's grand entrance. And after exploring, why not take a trip to the roof marked just outside the pyramid?

A little rest in a great escape from the scorching sun.

Pyramid of the Wind

While thousands of years of wind have shorn some of the ornate ornaments off this impressive pyramid, so swiftly stairwell from the Pyramid of the Wind's peak.

The Pyramid of the Wind is near the Great Pyramid and the site of the Tomb of the Infinite Halls. Dare you brave the eerily named tomb?

Ruins of Karnak

The Ruins of Karnak form at a site that once must have made jaws drop as Sims walked in its shadow. The roof of the temple has long since collapsed, but many of the support pillars remain.

They reach out of the sand like fingers, beckoning explorations to investigate the ruins. This is the entrance to the Karnak Treasure Halls, a place you will surely want to explore while on an Egyptian adventure.

Temple of Queen Hatshepsut

This wide temple built into the stone is impressive from first glance. But the name doesn't necessarily describe exactly what you will be exploring on the site.

The real action below the quake is in the Sanctum's Quarters and Hatshepsut's Gardens. What secrets do these ancients hide? Are they worth the risk of the deadly traps to claim them for the surface?

Tomb of Discovery

The Tomb of Discovery is usually the very first tomb explored in Egypt. The entrance to the tomb is in a small building just behind base camp. You are not the first person to explore the tomb, though, so you will discover when you take on the tomb's entrance in Egypt.

Camp Sites

With so much adventuring to do in Egypt, you may not have time to trade travel to base camp before your 5m gets exhausted.

If you haven't bought a tent yet (understandable—travel is not cheap), use one of the three camp sites in Egypt to rest your mana bosses after a long day of adventuring.

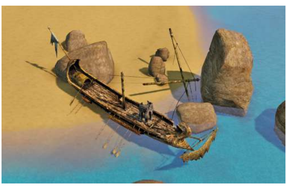
Collectables

If you are into collecting, then Egypt is your destination - the sands give up wonderful treasures, from relics at dig sites to glistening gems.

There are also many different bugs to collect in Egypt and bring home, not only to sell at the science facility, but also to display in terrariums around your house.

Dig Sites



Your Sim can pull treasures and relics out of the sand at Egypt's many dig sites. Use this map of the dig sites in Egypt so you can excavate without wasting any time just playing in a sandbox.

Fishing Spots

It's easy to see why the ancients picked the site of Al Simhara—it's right on the shores of a life-giving river. Drop a line in the river to do a little fishing.

However, be sure to stop by an oasis for a break from the burning sands. Not only are these great fishing spots, but they are beautiful spots just to relax and unwind.

Just look at the Lotus Oasis. Who wouldn't want to read a book on the edge of those waters?

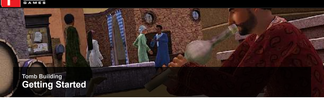
Tomb Building

Do-It-Yourself Tombs

You've had fun exploring the tombs below the sands of Egypt or in the grand homes of France. Wouldn't it be great if you could make your very own trap-laden tombs? Well, you can—you just need to sneak in through a back door in World Adventures to do so.



Tomb Building
Getting Started

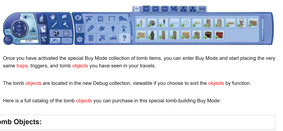
You can build tombs on your own lots through Build and Buy Mode. Although you are not required to build underground for a tomb, you may want to start by installing a basement under your house via the new Basement tool in Build Mode.

Once you have constructed a basement, make sure you have stairs leading down to it so Sims can access the would-be tomb.

Basements make great tombs, but you could set up traps in a bedroom if you really wanted to.

To build a tomb, you have to open the Cheat menu and input a command to access a special collection of Buy Mode objects. To access this Cheat menu, press [Shift] + [Control] + [C].

In the blue line that drops from the top of the screen, type: buydebug. This unlocks a new category in Buy Mode: Special Items.



Once you have activated the special Buy Mode collection of tomb items, you can enter Buy Mode and start placing the very same traps, triggers, and tomb objects you have seen in your travels.

The tomb objects are located in the new Debug collection, viewable if you choose to sort the objects by function.

Here is a full catalog of the tomb objects you can purchase in this special tomb-building Buy Mode:

Tomb Objects:

Tomb Object	Price (in Simoleons)
Ancient Coin Pile	0
Corner Rubble Pile	0
Dive Well	0
Escape Dust	0
Floor Skeleton	0
Giant Boulder	0

Tomb Passage Deluxe from Tomb Tech	125
Elegant Double Doors	400
The Sultan's Keep-All	310
Treasure Chest of Alouette	430
Jiangzhou's Chest	475

Note

You can find all of these objects by sorting objects in Buy Mode by function and then selecting the Debug sort. Then, click on the Tomb Objects tab.

If you click on the Misc. Objects tab, you will find a bunch of objects you can use to give the tomb some ambiance.

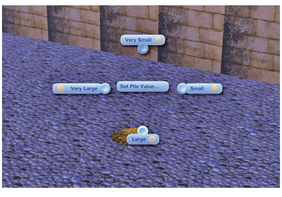
Note

Many but not all-tomb objects are completely free of charge.

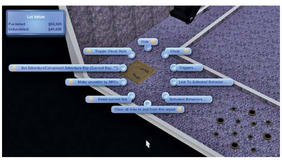
Of course, just placing traps and switches in your basement does not automatically make it a tomb. You must set up triggers and behaviors so the tomb also works as more than just a gallery.

The first thing you need to do is go back into the Cheat console. Then, input: "testingcheatsenabled true" (no quotation marks).

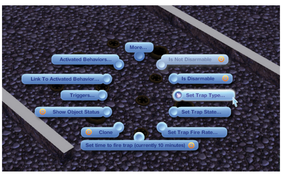
This allows you to then start assigning triggers and behaviors. To add triggers to objects, left-click on them while holding down [Shift] + [Control].



For treasures, such as a pile of Ancient Coins, you must set up a value. You can place objects in chests or use the treasure spawner to place treasures out in the open.



For switches, the trigger menu lets you select a behavior, such as shutting off the nearby trap.

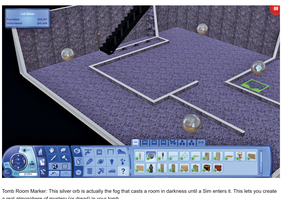


To select what kind of trap you are setting, click on the placed trap and then choose "Set Trap Type." You can then choose how the trap functions with "Set Trap State" and make the trap invisible, disarmable, dormant, and more.

Note

We offer a couple of examples of setting up tomb behaviors at the end of this chapter.

By now, you recognize many of the tomb objects such as traps, rubble piles, and floor switches. But there are a few objects in the catalog that you need to understand how to use to improve your tombs:



Tomb Room Marker: This silver orb is actually the fog that casts a room in darkness until a Sim enters it. This lets you create a real atmosphere of mystery (or dread) in your tomb.

Install these in rooms so the player will not see everything in the tomb right away.

Inscription Plaque: Leave notes and hints on the walls for Sims to read. This is a good way to add personality to your tomb.

Hidden Trigger Panel: You know how sometimes traps started firing when you walked into a certain area of a room? The hidden trigger panel controls those.

Place these in your tombs and associate them with traps and such to make the tomb interactive and full of surprises.
